

Trinary

By
Jeffrey Scott Flesher
In the year 2023

His story is about the Torah, Newtonian and Trinary Science, and will not have any theoretical science; so no Einstein; instead, only facts that anyone can verify. I designed this book for authors to write textbooks for schools, so this is a field guide for Trinary.

Trinary goes beyond Science, into Society, Sanctuary, and to the End of Time, according to the Torah or Bible; but this is not about Religion. It is about the Science of the Torah, Johannes Kepler, Sir Isaac Newton, Nikola Tesla, and Henrietta Swan Leavitt.

Table of Contents

Trinary.....	1
Introduction.....	1
Trinary.....	14
Light.....	30
Darkness.....	43
Elements.....	56
Magnetics.....	66
Electricity.....	80
Gravity	93
Universe	107
Knowledge	128
Society.....	154
Sanctuary.....	167
End of Time	187

Introduction

I am a medically retired United States Air Force Staff Sargent, born on 14 January 1961, in Corona California, the Circle City. My name is Jeff, or Flesh. Growing up, I was obsessed with Physics, but found no one that had my interest in Newtonian Science. Everyone believed in Einstein, who denounced his theories back before 1942; no one has proven them in over a century. Science is about facts, and not things you believe you might prove someday, so I will only talk about the truth. I have had to work on my science on my own, asking teachers only brought ridicule as they defended Einstein's theories. I will document my science in this book in a way most people can understand.

My family moved to North America as far back as the 1600s. The Flesher family moved here in 1752 on board the ship the Phoenix. My Great-Grandfather had the city of Weston, West Virginia, named after him. They also granted my family land on Goose Island; for their role in the War of 1812. My family has fought in every war the United States was part of. We are White Native Americans.

Weston West Virginia.

I created a YouTube profile for the Light Wizzard, the two Zs mean Dream Wizzard. History calls Kepler, Newton, and Tesla, Wizards, because they are at the top of their field of study. Halley was a Witch, who could write using words and spells that had more than one meaning. I will not talk about Wizards, Witches, and Witchcraft in this book, but I cannot leave it out, because this is where Trinary Science comes from.

The Light Wizzard in the Flesh, and me in the Air Force.

I put my hair in a phoney tail to my beard.

The Light Wizzard in the Flesh.

<https://YouTube.com/@LightWizzard>

Most people that I try to talk to about my science always tell me that there are more intelligent people in the world than me. I believed them, but I do not want you to believe them. Because this is technical, and not worth reading, if someone with a normal IQ wrote it.

Credibility is the reason I must prove that I am intelligent enough to write this type of Science, because it changes Science and History by 180°. People can say anything, but without proof, it means nothing, so I will only write about what I can prove.

I got this from the OfficialAsvab.com website. The Armed Services Vocational Aptitude Battery (ASVAB). Is a multiple-aptitude battery that measures developed abilities and helps predict future academic; and occupational success in the military. Someone annually administers it to more than one million military applicants; high school, and post-secondary students.

When my score for Mechanical was 99%, they informed me it meant I had an IQ of over 180. Over means they cannot use normal tests to evaluate my IQ. The other is that anyone with an IQ over 180 is autistic, and there are no exceptions; they consider this to be abnormal.

A mentally retarded IQ score of 50 or less is abnormal; a normal IQ starts at 70. Above average is over 100, and less than 120, and a high IQ goes from above 120 up to 160; but 160 and above is genius, but is also on the spectrum of Autism; 180 or over, is abnormal.

Albert Einstein had autism, like me; this is on the high functioning spectrum known as Asperges Syndrome, or Aspies for short. My IQ is 20 points above Einstein's, so I

am more intelligent. More to my point, there is not a score above 180; proving there is no one more intelligent than me. But there are many Aspies with an IQ over 180, mostly women; so this is common nowadays, people just do not care because they know we are Autistic.

I have college degrees, and passed English, so it is not like I do not know how to write. I write the way I think; so try not to let my grammar distract you, or the way I write; Focus on the information. I write like Newton or Tesla, and I think like them when trying to figure out what they wrote.

I have read different versions of the same history, and the one I will use in the book is based on the Torah written in the 3rd century. In this version of the Torah, we have Alchemy and Astrology; we call it Science. My science and history are not Mainstream, because what I know is not from Mainstream teaching.

I authored my Dissertation for my Doctor's degree in physics in a textbook called "The Principles of the Trinary Universe." No mainstream University will allow it, because I did not base it on Einstein's theory. So I created the Trinary University; this is not an accredited University, because I do not have the funding to pay to keep it accredited.

You need to keep in mind that I am autistic on the high functioning spectrum and have other mental conditions. I have Post Traumatic Stress Disorder (PTSD), Depression, Anxiety, and Schizoaffective. Keep in mind that Kepler, Newton, and Tesla also had these conditions, and all had an IQ of over 180. Just so you understand why I talk about myself, I only bring up my IQ, so you will understand I am not stupid, and know all about Einstein's theory. I have degrees, and I studied English, Math, and Electronics, but they did not teach Trinary Math in Schools.

History is a strange thing; I do not know where you can find a copy of the Torah written before the 4th century.

They hired the Knights Templar to hunt down and murder anyone that had a version written before the 4th century. Leading people to assume it started in the 4th century, but my grandmother gave me a copy on microfiche. I do not own it now, my Stepmother traded it for drugs. That was after she divorced my dad and married a man named Merlin, who was a guitar Wizard. My father would not take her back because of the stuff she sold. So, she blamed me, then committed suicide in front of me; by pushing me down, and laying down in the middle of the road, in front of oncoming traffic. A young girl ran her over. That is one reason I do not do illegal drugs, and do not drink alcohol. Aloha, means Hello; Goodbye, to my sister and I; she was an abusive drug addict.

The Knights Templar, or Religious people, who took an Oath to murder anyone that does not believe in Jesus Christ. Would burn them do death in a fire used to burn the books. I know that someone owns a copy of the set of books that make up the Torah, but I do not know who. I will try not to talk about stuff you cannot find in the versions after the 4th century that all Bibles are based on.

The order I talk about subjects must have a flow, so people can flow from one subject to another, without getting lost. The chapters are in order; you need to learn them.

There are 12 subjects that I will talk about. The first is Trinity in Chapter Trinary, where I will discuss logic and reasoning. In Chapter Light, I talk about the Light, as I get into the subject of the Light you cannot see. Chapter Darkness is about Darkness; I go over the things you can see; these are the rainbow of colors found in the White Light of the Sun. Elements are a subject I will talk about in Chapter Elements, and I will list all 137 of them, while the official table only has 118. I will talk about Magnetics in Chapter Magnetics; I will explain how they work. Then on to

Electricity in Chapter Electricity, where I will also talk about Electronics. Chapter Gravity is about Gravity, and Centrifugal forces do not cause it, and you will learn why. In Chapter Universe, I will go over the Universe, which is a vast subject; I will cover the basics. Chapter Knowledge is where I talk about Knowledge. I will then talk about Society in Chapter Society; it is something that needs to change; for Trinary Science to become Mainstream Science. In Chapter Sanctuary, I will explain Sanctuary is about a place you build which can survive the poles reversing, and the End of Time in Chapter End of Time.

I write like Newton, and not Edmond Halley, more like Tesla. Growing up, I read Kepler, Newton, and Tesla, and thought that is the way most intelligent people write. But this is not how Mainstream writes; and people have complained in the past. So I am using a Grammar checker this time, so if you find any spelling or grammar errors, it was the AI gone wild, and not my fault. If I do not write this, no one will, and you will never know the truth about Science or History.

The reason I use the Torah as a reference to Trinary Science is because I did not invent it. I found it in the Torah. Therefore, this is the Science of the Torah, and they talk about God, who is all Light without Darkness, and Satan, who is a person who lies. I have no religious meaning to God or Satan; they are not supernatural beings. God is Light without Darkness; without God, nothing would exist, and we would not have this conversation. A Deity God is supernatural, because they do not physically exist; Light without Darkness exists; therefore not Supernatural.

I worked in the Air Force as (E) F-111 Test Station technicians, which is an Electronic Engineer and Computer Programmer. I got my first Meritorious Service Medal.

DEPARTMENT OF THE AIR FORCE
THIS IS TO CERTIFY THAT
THE AIR FORCE ACHIEVEMENT MEDAL
HAS BEEN AWARDED TO
STAFF SERGEANT JEFFREY S. FLESHER
FOR
MERITORIOUS SERVICE
28 DECEMBER 1986 TO 1 JUNE 1993
ACCOMPLISHMENTS

Sergeant Flesher distinguished himself by meritorious service as Automatic Test Station Technician, 366th Maintenance Squadron, 366th Logistics Group, 366th Wing, Mountain Home Air Force Base, Idaho. Sergeant Flesher's professionalism was evident on many occasions during the acceptance testing of the avionics intermediate element's replacement test stations. He wrote software to consolidate various data bases generated during this testing, providing the capability to cross-reference equipment failures, to identify trends, and to expedite resolutions. He submitted and had approved over 50 service reports on test equipment software and hardware that did not meet standards. His efforts improved system reliability by 30 percent and reduced the time required to complete acceptance testing by at least a year.

GIVEN UNDER MY HAND THIS

21ST DAY OF JUNE

1993

ROBERT L. HART, Colonel, USAF
Commander, 366th Logistics Group

AF 2224 FEB 83
PREVIOUS EDITION WILL BE USED

Modified to Fit

First Meritorious Service Medal.

Newton did not like the teaching of Jesus Christ in Trinity, so I had to find a new term to describe this. Trinary is the only one in the English language that works. Newton said Christ is the Star we know as the Binary Star Sirius, and these 3 Stars form a Trinary Star System.

I wrote this book to help people understand people like Kepler, Newton, Tesla, and me, all on the spectrum.

I am going to tell you about things you will not believe, but can prove are true. For example, Light is Static,

and does not move; it is the Universe that is Dynamic. People have a hard time understanding this concept, and how Einstein's theory became so popular; the only thing is Einstein removed God; thus, he removed Light.

I must talk about people, as well as myself, who are on the high functioning spectrum of Autism, we call Asperger's Syndrome. They named Aspie after Doctor Asperger, who discovered it. Below is a picture of Hans Asperger.

Doctor Hans Asperger.

60 Minutes did a documentary about Asperger's Syndrome. They found that there were noticeable differences between the brains of neurotypical or normal people. You can find studies, documentaries, and a few movies that talk about it.

Below is a picture of the pet scan they took to compare a person with Asperger's syndrome with a normal person's. The colored areas are the active parts of our brain. In paperback black and white, you will see lighter colors to show active parts of the brain. The lighter colors show brain activity in parts of the brain that the neurotypical do not use. Note how the back of the brain forks off. These two brains do not look the same. That does not mean we are better; it just means we use more of our brains to think.

Asperger's vs Normal brain pet scan from 60 Minutes.

People will have a hard time reading my books, because I pack them with information overload. I could have cut this book down to one paragraph. God is all Light without Darkness, and the End of Time will be on 14 January 2061. But you would not believe it, so I have to write about 12 subjects you need to know. To understand that the End of Time is going to happen; regardless of what anyone has to say about it. The North magnetic pole will cross the equator in 2061; you cannot ignore that.

I try not to repeat myself, or my concepts. So try not to blow off stuff you do not understand. If you read it, it will be in your mind regardless of if you think you can learn something new; or not. You can learn what I have to teach.

Do not allow my math to confuse you; it was supposed to make things clearer. People do not think clear or deep, is what Tesla would say if he was alive, and Newton would have figured out the Trinary Engines. Technology changes, but facts never do, so learn these facts, and you will know they will never change; not in God's lifetime. Facts are all you need to know; theories will just confuse you. Math should be absolute.

I have one warning I have to give anyone is to read the entire book before going off on what you have learned so far; because I have to make you understand the

consequences. Currently, those in power are all Criminals, and their actions prove it. Everyone in the United States is guilty, and I include myself.

If you educate the world about the issues that I bring up, and then come up with a long-term plan, which includes putting an end to Treason and Satanism. I have a plan for everything I tell you, otherwise, this book would be about complaining, and not about solutions. I have a plan for Treason; a plan for the Church and Religion, and a plan for Science. These plans require education, and not what you call education; that is what I call Satanic Indoctrination.

I wrote this book to prove what is the truth, and what is a lie, and to make you understand why people lie, and that is because they are Satanic, only Satan lies. You must decide if you want to live in Hell, because that is what this World is right now, everyone is a liar, and only Satan lies, proves this; but people must prove it to themselves.

When people read each chapter, they need to know why I am telling them this. The reason is that I am sick of people lying to me about Science, by dropping the prefix of Theoretical. Mainstream is about Theoretical Science, where people cannot prove a Theory, or it would be a fact. Because a theory is not a way of explaining a fact; it is a way of lying about them.

Religion makes me sick, because it is Satanic, and anyone not Satanic, meaning not a liar, will get sick of lies. Search the internet for Pedophilia in the Church; this means that every member of the Church, or Religion, is guilty of this sin by supporting it; and why it makes me sick.

You do not need a high IQ to understand what I wrote. I explain things at the lowest IQ level; I know how, because I cannot turn off my IQ, and do not want to make this sugarcoated, but I try to be sensitive.

Trinary is a prefix I put on things to define them as having 3 logical state changes. For example, Trinary Science is about Trinary Light, which is Trinary God. Trinary Sanctuary is where everyone learns Trinary Science. The prefix means that this is different, yet Trinary means one thing, and applies to everything, because everything is Light. Tesla.

I can teach you the meaning of words and spells, but not without using Witchcraft, which is the art of using words and spells that have more than one meaning. I will only teach one meaning, so I do not confuse you; and so I do not have to talk about Witchcraft, Wizards, and Witches.

I have dyslexia, and I used to think my fingers were just getting out of sync, but I do it writing on paper, so what is my excuse then is a question I know well. To make this book readable, I read this book over and over. Playing it out loud with Text to Speech software built into Microsoft Word, which is the word processor I used to write this. I use more than one spelling and grammar checker. Yet, I have dyslexia. I tell you this, because you might read this book, and find that I have mixed up sentences and paragraphs. I mix up numbers and concepts. If I am the only one who proof-reads this, I will never catch my dyslexic writing. And if those that read it, and do not understand the concept, will never catch my mistakes. I want you to understand that few books in the world have no mistakes in them. But my mistakes are because I have dyslexia; so I use spelling and grammar checkers to blame mistakes on.

The Introduction chapter of a book should be about the author, and the chapters that follow should be about the subject. Yet we have bias from the Author's viewpoint, and the state of the Author's mental state is always in question. I read Samuel Langhorne Clemens, who we know from his pen name, is Mark Twain. He is on the high functioning

spectrum of Autism, the same spectrum as Kepler, Newton, Tesla, and myself, and why I get it. Clemens has a high IQ, and he got it. Tesla was good friends with Samuel. I do not remember what Tesla called him by name; maybe it was Sam, but not Mark. Twain means two, in this case, it is two Marks; one being a real person. Clemens said that he used a pseudonym, or pen name. Mark Twain means it is a pen name. Because Clemens did not want to talk about himself. Tesla wanted him to write science books, but Sam declined, because that would force him to write it using his real name. Halley wrote for Newton, and wrote his biography, not sure if it was in Public Domain, but Tesla had a copy, and I used to have a lot of stuff on microfiche.

We had microfiche equipment, computers made them obsolete. The Military still used them in my days, as far back as 1999. I have notes I talk about, as well as books written by Clemens, and not Mark Twain. The reason Clemens declined was because it would hurt his sales. I can say the same thing. You talk about a Soul being Electricity when everyone on his planet buys and sells by the Kilowatt; you will make enemies that want to kill you. I have cancer and survived the Gulf War, and Korea, so I can handle it, and I have no books that do not talk about me. I am not afraid to voice my opinions.

A Dissertation for the degree of Doctor of Philosophy in Physics. They define the word Philosophy as “The study of the fundamental nature of knowledge, reality; and existence, especially when considered as an academic discipline.” So Reality is an element in that statement, because they define it as “The world or the state of things as they actually exist; as opposed to an idealistic or notional idea of them.” Now we have the word Dissertation. A long essay on a particular subject, especially one written as a requirement for the Doctor of Philosophy degree. So

this is my goal. This is to prove to you that my Ph.D. is real, and that it being accredit by a board that does not follow these rules; means I have no need of them, so I do not pay for them so I can get an accredited University.

Tesla wrote about Clemens, all I have in my head or slides from a Microfiche, and my eyesight is poor, and getting worse, so I have a hard time reading them. I can use my Schizoaffective behavior to view documents in front of me. My mind can project objects into my field of view. Newton, Tesla and Clemens wrote about this ability.

Think about an Apple. It is a red apple; it is ripe. And it is only in your mind. Now close your eyes and think about the apple; picture it in your mind. Once you have it in focus, quickly open your eyes and keep the image of the apple in view. If when you close them, and all you see is blackness, you are mentally blind. This means that with your eyes closed, you cannot see things; thus, you are mentally blind. There is an alternate method. Close your eyes in front of a light, it can be far away, as long as you can directly see it. Now try this, blink a few times so you can etch that light in your mind. Quickly Look away with your eyes closed; then quickly open them and see the source of the light. Practice it, it took me most of my life to learn how to do this. You can get meltdowns from this; not breakdowns. A Meltdown is because you are over-stimulated. I can change the color of walls by squinting my eyes; and that causes headaches. I can see documents in my mind, like an image, because I think using images, and have a photographic memory. This is not something you are born with. It is not something anyone can do without years of practice and headaches. I use oxygen to help with the pain; I get brain aches, not headaches, that you can take an aspirin. This is something you can learn, but if someone tells you they were born with that ability, I would not believe it.

Trinary

The concept of Trinary is a 3-state logic; do not confuse this with fuzzy logic. Which is A, B, and C, which is a question mark. Trinary represents the 3 states that Light can be in. Tycho Brahe found math in the framework border of the artwork in the Torah written in the 3rd century. He said this type of math was a truth table; $(+1) + (-1) = 0$. Newton had Halley write it down so they could analyze this, and wrote something like this:

Heaven

+1 Father

0 Holy GH0ST Mother Nature (GOD)

-1 Son

Hell

Tesla read these notes, which are in the public domain, and said that this is a waveform like electricity. That is a waveform like our brainwaves, proving we are Light Beings, as Tesla stated.

Heaven

*+1 * * * * Father*

*0 * * * * Holy GH0ST Mother nature (GOD)*

*-1 * * Son*

Hell

The Torah before the 4th century did not have Jesus Christ as a person; instead, it had astronomy and astrology. It altered Trinity to remove Mother Nature. The church acknowledges this. Saying that it was a pagan religion. The church inserted Jesus Christ; making the Torah a lie, and that is a Sin, and only Sinners read it, or base their lives around Sins.

Trinary Math implies that God is a Female; 1 is Male; 0 is Female. Men did not like that, and the reason they altered the Torah inserting lies for their egos.

You cannot compare the two versions of the Torah; one did not contain lies. That is what I call the Torah; they wrote before the Church resurrected the Roman Empire, naming it the Holy Roman Church. The Torah is where all my Math comes from. God is the Force of Gravity in all my equations; as they were in all of Newton's.

10 years is a Decade. 100 years is a Century, and 1,000 years is a Millennium. In Trinary Time we have 6 Centuries that span 6,666 years for an Age. One Era is 36,666 years. In history, an Era would sometimes span millions of years, which is a gross generalization of time. Therefore, my definition of an Era is a more specific definition for a specified period; based on a Frequency of 6.66 Hz. 3 sets of 2060 make a minimum Age of 6,180 years; these numbers refer to age limits. To understand this type of science, you must learn Newtonian Science, but they never taught it in school. Instead, they taught Einstein, and all most people know is a denounced theory. Because Light has no acceleration proving it is Static, and Einstein removed that Light when he removed God, who is Light.

The reason History only goes back to an Age, is because, after 6 Eras, or around 219,996 years; our Magnetosphere must reverse its polarity. Earth realigns itself on its axis, and it is predictable. These are measurements in time that define how the Universe works. Earth's core frequency is 6.66 Hz; this drives the speed we orbit the Sun to an average speed of 66,666 miles per hour.

The math is $6.6666 \times 10,000 = 66,666$. The core of all planets is a Trinary Engine, which regulates the frequency of the Earth. A Trinary Engine is a huge Atom and follows the same rules as electronics. The Galaxy sets the rotational speeds of livable planets.

At the End of Time, Earth's Trinary Engine, viewed as electricity, will change from positive to negative. Thus, reversing its polarity. As it goes through the ground, the neutrino particles that make up all Atoms will pass into the first, second, and third dimensions. To pass into the 0 dimension, which is a dimensionless dimension in space known as Ground. While collapsed, the Trinary Engine does not appear to exist. So let me talk about these events.

The Father is the Positive 1, so Matter. The Son is the Negative 1; so it is Antimatter, doing the opposite of Matter. Both states are in 3 dimensions; we interact with them, so they have Gravity. The 0-state known as Ground is also what we call Earth, so do not confuse the terms. All energy that you put into the Earth goes to the Ground. So, they are the same if connected, which is not always the case for floating ground. In this state known as the Holy Ghost Spirit of Mother Nature, you cannot see an Atom using an Electron Microscope when collapsed. In that state, it has a neutral Gravity. Matter is positive energy, and Antimatter is negative energy. Earth has 3 Rings of Power; this is the same as any Atom that has a Valence Ring. The first Ring is at 6.66 miles from the Surface of Earth, and this includes any structures. At the tops of buildings, its frequency is around 7.77 Hz. The second Ring is at 66 miles from the surface with a frequency of around 8.88 Hz.

This third Ring is around 666 miles from Earth and has a frequency of around 9.99 Hz. The combined frequency differences cause the Earth to spin on its axis; at around 1,036 Miles Per Hour.

Trinary, unlike Trinity, is the concept that Trinary is a prefix. For example; Trinary Science, Trinary Sanctuary, Trinary Math, Trinary Atoms, Trinary Engines, and the list goes on. But I will stop here, but might talk about others as I teach each chapter.

Trinary Science is based on Kepler, Newton, Tesla, and Levitt. Trinary Sanctuary is where Trinary Society will use Trinary Science; this is a place people enlist in their Military, as Trinary Military, or Trinary Militia. Trinary Math is based on the Math from the border artwork in the Torah in the 3rd century. $(+1) + (-1) = 0$. Trinary Atoms are what we call Atoms, but the Trinary prefix means they have 3 logical state changes. Trinary Engines are huge Trinary Atoms, and follow all the same rules as electricity or electronics. Trinary Light has 3 logical state changes. The Trinary Universe is the Universe we live in; there is no Alternate Universe. We use Trinary Energy. And Trinary personnel are called Trinarian.

Trinary Time is a measurement system that is based on the speed of Light. Understanding Light has no speed. I am talking about the speed of the Universe. It describes how much time it takes for Light to travel the distance of a billionth of a hydrogen Atom. Currently, an attosecond is one Quintillionth (10^{-18}) of a second. 1 attosecond is the time it takes for Light to travel the distance of 3 hydrogen Atoms. The closer order of time on this scale might be Tredecillion (10^{-42}) or larger.

I divided Trinary Time into 3 categories depending on the resolution required.

Low resolution time is a Decillion (10^{-33}).

Medium resolution is Tredecillion (10^{-42}).

High resolution time is short scale Unvigintillion (10^{-66}).

Although lower and higher numbers are possible, limits help to keep units of measurement at a minimum of 3 standards. Note: using a negative exponent is because we normally measure time in seconds:

Microsecond is 10^{-6} , meaning a Millionth of a second, written 0.000001, or $\frac{1}{1,000,000}$ seconds, whereas 10^{-66} is:

Trinary Space refers to the Physical Layers of Space that exist in the Universe. This space has 3 Dimensions, width, depth, and height; which exist in the 0, 1st, 2nd, and 3rd dimensions of space. Sometimes I will say 4 Dimensions; that is because sometimes I count the 0 Dimension. But it is not a Dimension; it is Dimensionless. Do not confuse this with Dimensional Analysis. These dimensions exist simultaneously. That means that the 0 Dimension is always there; it is how the Atom travels through the Dimensions, proves it exists. When you see an Atom in Trinary Space. For example, under an Electron Microscope, you will see all 3 state changes: (+1) Solid, (-1) Semisolid, and (0) Invisible. It will shift from one of these Dimensions to the other. Because you can not see the 0-Dimension, it has no Space, but the Neutrinos are still there. You do not lose its mass, even though the mass of an electron is very low as it is microscopic. It is the reason it is the smallest thing an Electron Microscope can see clearly. Keep in mind the Electron Microscope can only see Elements, and not individual Atoms; at least to my knowledge; technology advances. You only see it when it is

shifting from one dimension to another. The (+1) state, and (-1) state change exist while the 0 Dimension exists; so it is not the Dimensions of space changing; it is the Neutrino Reversing its Polarity. Just like the Sun or Earth, it too must Reverse Poles. So it is in these Dimensions of Trinary Space; meaning 3 Dimensions, Plus the 0 Dimension. The real number verses, not a real numbers, debate. When you add the 0 Dimension to 3 Dimensions, it equals 3. Which is why you can see that Atom moves and then disappears. But Atoms are only in the 3rd Dimension when they are not shifting, which is $\frac{1}{3}$ of the time. So when it seems to be Solid, that is only in state (+1), in the 1st or 2nd Dimension. And this is because when it changes from 0 to 1 Dimension, it is Negative viewed on a Graph of a Sine Wave. That is below the x-axis, viewed as a Helix. And this is driving the Atom down to (-1). When it rises, it shifts to the 2nd Dimension, so it stays longer in the 3rd Dimension. Which is why the Atom appears to be Solid. They pass through the 0 Dimension when changing from negative to positive, or positive to negative. Note that if they follow the pattern: $(+1) + (-1) = 0$, this Trinary Math constant function will only toggle from one state into the next. Once positive, next negative, back to positive, it is a loop. So if it makes no changes to Direction, it is following a path that, if unchanged; it will repeat this pattern till the end of time. So when it makes a change, this is called intelligence, and is how we can move our fingers, walk, talk, and do things.

Every Atom in our Body has to follow these rules. Trinary Space has 3 state changes; these changes take place in the 0, 1st, 2nd, and 3rd dimensions. Which make up the 3 Dimensional Space $0 + 3 = 3$.

Note that the 4th Dimension is only a reference to the 3rd Dimension. Understanding that dimensions beyond the 4th are only view-ports of that same space. Which is not

useful in Trinary Science. Unless you want to see what you saw, so you can see what you have seen. Only useful if you find yourself in a room you can not get out of. Just Look into a Mirror in your Mind, and see what you saw. Now take that saw and cut something in half. Put the halves together to make it whole again. Now use that hole to get out of the room. That explains what happens to the Atom when it is invisible. It has seen what it saw and says; I am out of here. So, all joking aside about how other Sciences view Space, Trinary Space is not the same Space Einstein wrote about. But Sir Isaac Newton wrote the Math that explains how Trinary Space works.

A Trinary Cluster has many Trinary Engines that use Light without Darkness. Each Trinary Engine represents the Galaxies, Suns, Planets, and Moons. It has an Electromagnetic force field that extends from 32 to 42 trillion Light-years. All Light within this region of Space will have its Light bound by this region of Space that I define as an imaginary Light Boundary. The concept is that Light follows an Elliptical orbit around a Trinary Cluster. Which is a special type of Trinary Engine. It acts as the center of Light for the boundary it encompasses. Each Galaxy in the Cluster has an Elliptical orbit between 13.32 to 16 billion Light-years, making the center of it 6.66 to 8 billion Light-years. Then this Light is bound, so we can not see it at all from outside the Cluster, so its Energy is being seen like a Movie. The Light without Darkness is what we refer to as background Radiation. When it hits the force field of the Trinary Cluster; it Lights up like a Video Monitor. Same principle, in fact. It is just an Electromagnetic Marker the Universes Electromagnetic Force Field paints.

Edwin Hubble's observations of distant Galaxies and Redshift, has made it possible for me to see the pattern. There are multiple Galaxies that form Clusters that all have

one thing in common from long distances. Which can be trillions of trillions of Light years away. The boundaries of their Light connect these Clusters. As if that is binding them together. So this explains why the Universe appears to be expanding, because the clusters that are farther away appear to be moving faster away from us. And after half a century later, I can only conclude that if they were moving faster than the speed of Light, they would be gone by now. Even at the speed of Light, they would no longer be in view. But they are because we can still see them; so they are not expanding. That is based on Evidence, it is just the way Trinary Clusters look at far enough distances. Because we are not seeing the direct Light from the Galaxies in that Cluster; we are only seeing the Light from the Trinary Cluster itself. Because the Light inside of it only travels in Ellipses, so it can never leave that space. Yet we can still perceive its Light; when those systems may not even exist anymore. They could have gone into Supernova conditions a long time ago, while others are newborn systems; much younger than our own. So their Light has not even made it here yet. The Trinary Cluster is just a concept of a Light Sphere, that allows Light to appear to exist outside its Clusters boundaries. It is like a projector screen, because it is a force field that acts as an Electronic Lens.

Tritanium is a name I came up with as a child back in 1965, only to find out that others already had this idea. I combined the words Titanium with Trinary and got Tritanium. But the first time I heard anyone else talk about it was when Star Trek came out back in 1966. Seems other people have thought about this as well, but it is not the same thing. Star Trek described it as being the rarest and the strongest element known. I added it as atomic number 133, waiting to be discovered.

Instead of using Tritium to describe the neutrino that makes up Trinary Atoms, I named it Trinary.

Trinary is also a Neutrino, with the Atomic number of 0, because it is not an Element, but a type of Neutrino; and why it is atomic number 0. It is a material that is subatomic dust; we have detected it in Neutrino Detectors. So it is just another type of Neutrino. But all we know about it is you can find it after a Star goes Supernova, or someone exploded an Atomic or Nuclear bomb. So we know what makes up the Sun and what makes up the Atom. It has no electrons, protons, or neutrons. It is just subatomic particles, so it carries no charge; and it is so microscopic that we have nothing we can catch it in. So it just flows through the subatomic empty-space in all known elements. Because of its inert structure, we cannot bind it to any known elements.

Because it has no electrons, protons, or neutrons, you cannot glue or weld it. Making it ideal for a Trinary Engine or an Atom, because this is the stuff that makes up Atom's. And because it can not flow through the Null state of the Ball Lightning, it sticks to it like paper covering a vacuum tube. And it will continue to do so, building up many layers, thus becoming very massive, and dense. So Trinary is the Material that makes Trinary Atoms, Trinary Engines, using Neutrinos and Light.

At the subatomic level, nothing can flow through Trinary, because it is the smallest of all subatomic particles. It has no empty-space so it can flow through diamonds like they were water. Because at the subatomic level, the empty-space in diamonds is over 99%. So Trinary is the densest material in the universe. But it is not a solid material. It is just layers of it being held in place by a Trinary force field; around a Trinary Atom or Trinary Engine. And it is the reason that if you split it, it puts out

tons of energy. It breaks the bonds with the Light holding the doorway to the 0 Dimension open, and when it does, it compresses the surrounding space. Which is why it expands, and the reason in nature nothing flows through a Trinary Atom or a Trinary Engine.

I define Energy as physical atomic matter. That is used to fuel or energize something; in a way that we can transform it from one form of energy into another. For example, you can transform water into Oxygen and Hydrogen, and when you burn them, it transforms back into water. That is conservation of energy, because you cannot create Energy nor destroy it; therefore, Energy is Eternal.

You can only transform Energy from one form into another, and there are many forms of Energy. For example, energy is Atom's. These Atoms have a Frequency and a wavelength, so they form Light, Electricity, and Radiation. These forms of Energy come from Chemical, Kinetic, Potential, Radiant, Elastic, Thermal reactions and the list goes on to eternity.

We can never resolve the subject of how intelligence works, because no two people can agree on anything. So I have to create another Type of Intelligence; I will call it Trinary Intelligence. This is based on "White Noise", so having Pareidolia Syndrome was actually very helpful in figuring out this one piece of the puzzle called Life. We see this White Noise all the time, and cannot get rid of it. It is like an old TV that showed that white noise amplified.

People view intelligence by the way they think, and most people think we all think alike. But all my life I have known that I do not think like most people I know; but I never knew why.

I have taken psychology in college, and read every book I found interesting on the subject; and none of them agreed on anything. I set out to map my mind; I did this by

creating a test that anyone could take and come up with the same results, based on sight and sound.

There are many ways humans think to solve problems; each solution is a branch in a tree of thinking. So you build trees to describe what you are seeing, feeling and hearing in a way that anyone can understand. This is a simple reflection, and you need an event that we can all agree on. A totally random event that most people deal with daily would be the simplest. The sound of water running out of a container. For my example, I will map out first how most people explain this event.

We will conduct a scientific test online. You will ask a minimum of one question about a random event involving water being poured from a container into a sink; so the question must be very general, something like this: Describe in under 500 words, in as much detail as you can the event of pouring water from a container into a sink.

Now give them a field 500 characters long, and let them record it. The only information you need to know about them is their sex and brain type: Neurotypical, Allistic or Autistic. Then you look for a pattern in the way they describe the event. Having run this test for many years, this is the conclusion that I came to.

Now stop and answer this question first, because I will tell you my results and you will want to know what category I put you in.

If I ask a Neurotypical woman, she will describe to me the container, the sink and a few other details that she thinks are important. And she will ignore the description of the sound of water pouring out of the container; like it was not even part of the question or the event.

If I ask a Neurotypical man, he will say I poured the container into the sink, not much deeper than that, some have variations. But a lot of space to write, but few of them

described the container or the sink. Half of them will even mention other objects in their description that were not in the question; as if they tried to read into it for some deeper meaning. So they gave a short answer, as if they did it in the dark, and did not take notice of what they did. It was just labor for them, and that is exactly like they described it.

If I ask an Autistic person the same question: regardless of sex, they will start asking all kinds of questions. Then making all kinds of assumptions, like what kind of container, what is it made of, how much water does it hold, what is the sink made of, how high am I pouring it from; what size is the room it is in. Then they will have to figure out the acoustics of it; and analyze every detail of the event; and worry if 500 words will be enough space to describe it in. Then they will attempt to write what water sounds like.

When you ask someone with Pareidolia Syndrome, they will describe to you the pattern the water makes as it pours out of the container. Even though we describe the container itself as an inanimate object; just a container like it does not even matter. Because the question had nothing to do with the container or the sink. It was only about the event, and that is very descriptive.

What is going to happen is that Gravity will take over at the point that the container reaches the point; where the water cannot support it. And if you look closely, you will see the Trinary Energy is collecting around the edges of the water molecules and holding them in place; like an invisible dam. As they change to State 0, as the water surface tension gets to where it can no longer support the columns of water molecules above it; it will fall towards the sink. At that point you can see the Trinary Energy States have changed to (+1) and (-1), as it finds the fastest way toward the center of the Planet. And it will push the air in front of it

around it as it starts its descent to the sink. Which sounds much different when I have my hearing aids in, then without them. Because with them in I can hear the high-pitched sounds that the water will make as it speeds up toward terminal velocity the second it leaves the container. Even though it will not reach near that fast, unless the distance to the sink is 90 feet.

I could easily go on and fill in all 500 words with no problem, because that is the way I think. When I talk about Trinary Intelligence, I am talking about a level of detail that words would have no meaning. It would take me more words to describe this concept, then the test allows me to write in this whole dissertation.

So I will have to sum up this concept as a vague and undefined subject. What I will tell you about it is that I have spent most of my life studying it and that is over half a century for me now; I am currently 62. So this is something I have thought about a lot, so to understand this concept; you would have to read all the research on this phenomenon from the beginning of time. Then add to it the fact that it is the same Intelligence that you, the observer, are using to understand what it is, I am trying to explain. But it is a very important concept, so I will have to spread it over the entire content of the paper; so it is not just one long sentence that spans all the subjects that are just aspects of it.

Someone that thinks like me can read it; Neurotypical, not so much. My Wife is a Neurotypical and I love her with all my heart, but she has a hard time reading what I write. I know this is the truth, and after over 40 years of marriage between two wives, 20 years with the first one, and I have now been with my second wife longer. I learned I do not know more about the Neurotypical; then I do about Women. They have one type of intelligence and I have

another. Not saying one is better than the other, there is a reason Autism is rare, to begin with. And this type of thinking is even rarer; it is because it is not Normal.

Intelligence is Logic and Reasoning. Logic is part of the brain in the lower primitive part, and it gets its logic from the Galattice. God designed the human brain as a filter for the Light, and this Energy is in another Dimension. When I talk about Trinary Intelligence, I am talking about the Intelligence of one spec of Trinary Energy. Which is like a pixel on a screen; it is only one element of the picture.

Humans interact with Trinary Energy in a way that it is controlling all our actions. Every thought that comes into my mind looks like an image to me. It is a picture; even words on a page. Just images that are changing all the time, but I can look at them with my eyes closed and see them. Most people have this ability to some point, I just look at a page of text and then read it in my mind, instead of having to look at it while I read it.

They taught me to read one word at a time in school, its way too slow to read that way. If I use that little voice in my head to read it, then I can only read as fast as I can talk. And that is way too slow, so to break this habit, you must quiet the little voice in your head; and look at each word as if it is just a pattern. Then assign meaning to that word, so when you see it, you only feel the meaning; instead of having to read the word, or say the word in your head as if you read it out loud.

It is crazy to talk to Voices in Your Head, so stop doing it, if you are, then you can understand how the Light works. Because it is just images, patterns in the Light, around objects, in the Clouds, in the Sun Spots, in a bowl of soup; the patterns are all around me all the time, in everything I see. I can hear them, smell them and feel them; and I can understand what they mean. And it is

because they are speaking to us, not just me, but everyone; only some people are not aware of them. That is because of the amount of detail they see things at, and as we proved; that has a lot to do with who we are. If we are Neurotypical, Allistic or Autistic, Male or Female, how reasonable and logical we are, our Intelligence level, as well as many other factors.

If you want to know the level that is possible, try to feel what one cell in your body feels. Just one, pick one on the tip of your finger, and try to see the world from the viewpoint of that one cell. Just for one moment, try to imagine that you could see out of the tip of your finger. Not images because you have no eyes there, but you have cells, as well as every other cell in your body; because you have trillions of cells in your body. You could see the world in much more detail, because you could feel it with every cell in your fingers, taste it with every cell in your tongue; and see it with every fiber in your body. As well as hear it with every cell in your ear. So then extrasensory cells could communicate on a different level; so you would be so connected to the Universe that you could understand the whole universe.

That is the concept of Trinary Intelligence, but at the Atomic-level, it is just energy, no matter who you are, how you think; it all gets converted into Electrical Signals that go to your brain. Yet your brain's capacity to store electrical energy is limited.

Thinking your brain creates neurons for every thought is just insanity. All it is doing is creating pointers to some location in the Galattice. Just as if you were a computer, because that is all you are, when it comes down to it, you both run off the same energy.

I am not saying I can communicate with every Cell in my Body; what I am saying is that every Cell in my Body

communicates with me. And it is only how we interact with these Cells do we even understand who we are. Because I am not a Flesh Being, IAM a Light Being in the Flesh, this is Trinary Intelligence.

I was not born with a photographic memory. That was something I taught myself to do, and it took years of practise to master it. It is difficult and leads to OCC, and cluster headaches. Augmented Reality comes at a cost.

Trinary has many aspects to it, and it is not just one thing; it is everything. Once you understand all the aspects of it, you will begin a journey into Trinary Knowledge, and find out what you can, while you can; and hope you can figure out how the Universe works. Life is short, and we only have so much time we can put our energy into. So you have to figure out what you want to know about the Universe, then set your course for that quest; and you will find your questions will have answers.

Start using the Trinary Prefix on every subject you want to learn, and soon you will learn those subjects. The prefix adds in everything you know about Trinary, and everything there is to know is beyond my mental capacity.

Humans have limited time on this planet, before the End of Time, and how we spend that time is up to us, we can ignore our North Magnetic Pole heading to the Equator; or we can figure out how to survive it.

I have no clue as to if the Torah is right about the End of Time; I must use faith. Having faith in a book is hard to do. No one wants to believe things they do not understand; all I can do is make an educated guess. The future is in motion, and time will tell, but humans will not survive because they have no faith in the Torah.

Light

When I talk about what Light is, most people cannot comprehend it, and the reason is they taught them that Light is Dynamic. We all know Sir Isaac Newton said Light is Static, and we only use his Math and Formulas that have God as the Force of Gravity.

Portraits of Sir Isaac Newton, and Edmond Halley.

We can find Sir Isaac Newton's notes in the Public Domain. Newton did not write his books; people like Edmond Halley wrote them.

I want you to use your common sense, if the flashlight and Light are dynamic, nothing can move. Because you would force the Light to move with the object. And making both objects static would have the same effect. Imagine if the Flashlight is Static, and the Light is dynamic. That means the flashlight cannot move, but the Earth moves, so we know this is not true. We know the Flashlight might not appear to be moving, because we are moving with it, so it is moving relative to us. We know Light has no acceleration. Therefore; it is Static. Now imagine if the Flashlight is Dynamic, it moves relative to Earth, and the Light is Static, because it has no acceleration. Look at the

two images below. Note: I capitalize God's Light, and use lowercase for artificial light.

They both cannot be Static or Dynamic; they have to oppose.

We know we must have one object dynamic, while the other object is static, or we will have no movement. We know Light has no acceleration, so we know it is Static, and we know the Flashlight is Dynamic because the Earth is moving. If Light were Dynamic, it would be lethal, and act like a rocket in space.

If you believe Einstein is right, you cannot prove it, and why no one has in over a century, and why he denounced it. But people that believe God does not exist will want to use Einstein. That only applies to an Alternate Universe in an Alternate Reality, and the work Alternate means not ours, but an Alternate version of it.

Lightning is Light, but what we rarely see is above the Lightning, which is a Sprite.

Sprite

Sprites are large-scale electrical discharges that occur high above thunderstorm clouds or cumulonimbus. Giving rise to a quite varied range of visual shapes flickering in the night sky. Triggered by discharges of positive lightning between an underlying thundercloud and the ground. Sprites appear as luminous reddish-orange flashes. They often occur in clusters within the atmosphere above the troposphere at an altitude range of 50-90 km (31-56 mi). Sporadic visual reports of sprites go back at least to 1886. They were first photographed on July 6, 1989, by scientists from the University of Minnesota; and have records of them on video.

Note: Nikola Tesla wrote that all Life is a Light Being in a body of Flesh. He also wrote about Ball Lightning and tried to reproduce it. He said it was the key to all life.

Ball Lightning is a very rare natural phenomenon caused by Lightning. It is also one of the least known because of how rare it is, yet people have documented it over the years. I do not need to change the Definition, but only point out that this is not Matter Lightning. Which are highly charged glass particles that cause the glass to burn, thus producing a similar effect.

The shortest explanation is that Lightning can become so intense that the bands of Light separate by frequency; Trinary Energy modulates. That forces the Darkness to the outside, which would give it the appearance to have a Dark glow to it.

Ball Lightning is a very intense Ball of Light, and according to Nikola Tesla, there is no link to Lightning directly. He said he had seen one in Colorado while doing experiments with Lightning. Reports state that we see them after a Lightning storm, but not from Lighting strikes.

Reports say that the Ball of Light had a Dark Glow and a very intense, densely packed core. Which seems to float down from the Sky. Then travel erratically till it would hit something that would ground it out; causing houses to burn down, trees to catch fire, and so on.

Its size can vary from the size of a marble to the size of a large beach ball. I believe we can create artificial Ball Lightning using artificial multi-phase Lightning; but that would require advanced technology. I am unaware of any.

In Trinary Science, I have a Theory that Trinary Engines are born from Ball Lightning.

They recorded Ball Lightning with Full Spectrum video recorders in Earth's orbit. They refer to them as UFOs because of the way they fly; and proof that they are intelligent. I believe they are just baby Trinary Engines that fly around the planet all the time; which led me to believe they are Light Stars. Which are Dark Star companions.

Nikola Tesla thought that it was rare that Ball Lightning came down to Earth, since it has its own Gravity. So he thought they must fly around the Planet and thought that most UFO sightings were just Ball Lightning.

Newton wrote about seeing Ball Lightning, and read accounts of others, and thought enough about it to write it down. He did not offer any Theories; but wrote they seem to dissipate into any object they touch. He noted they can burn down houses, and Tesla once burned down a barn trying to make Ball Lightning.

I define Ball Lightning as being a Ball of White Noise; this does not mean it is White, since White Light has all the colors of the Rainbow in it. Ball Lightning comes in many colors. I talked about seeing a Pink one as a child as it floated into a room; which led me to think they were Pink Noise. My encounter was with my family watching TV, in Phoenix, Arizona, during a thunderstorm. It was hot and

humid, so we had the door open. We all saw it simultaneously, and each reported that it changed colors a few times, from Pink, to Green, Yellow, and Blue.

Many people reported different colors throughout history. All reports of close encounters left most people thinking they were alive. You can research this and find more evidence by reading firsthand reports.

The way they fly implies they have Intelligence, avoiding obstacles, moving at high speeds; making right-angle turns. And they even depict them as looking as Spacecraft, the Chariots of the Gods.

The Torah and Bible talk about Ball Lightning, they call them Angels, according to Newton. Angels have appeared over Jesus', and other people's heads. It all comes down to how we perceive them. While doing UFO research using the Project Blue Book reports, I found many cases reporting Ball Lightning sightings, leading me to link them. But I know about observer bias.

UFO over Jesus.

The other reports of this phenomenon were all born on 25 December, which is now 14 January. History records them as Attis, Horus, Mithras, Krishna, Dionysis, Tammuz and other Pagan Gods. Depicted with a Halo, some accounts as the Lamb of God, the sign of a Deity. People describe it as the Crown or Corona, with Light Rays.

Newton said the Corona represented people who touched Ball Lightning. Even Thor was based on this knowledge of Lightning Balls, that shot out of his Staff of Power or Hammer. But Newton said the Hammer was a Crystal Ball. Inside was Ball Lightning; it was used to provide Gravity. You could release its energy if you wheeled it like a Hammer. If the Crystal Ball Shattered, it would cause Thunder, and release the Lightning inside it. That led me to believe it was an atomic weapon. But I do not think this was a Weapon; this is Science at its best, almost lost Science because of what Newton said about Christ. So is it ironic that the Symbol of Jesus Christ is Ball Lightning, and it is also Thor's Hammer. We weave Myth into Legend. When common sense and Science explain much of what they wrote in the Torah; is the reason Newton wrote more about the Torah than Science. That is the reason I will try to write more about Science than the Torah or Bible based on it.

The fact Ball Lightning is a symbol of Christ, and God is All Light without Darkness, led me to believe God is the Ball Lightning; God is everything, and not just one thing. Tesla said that Light was Everything, so Ball Lightning was the origin of everything. It is Proof that Trinary Engines are alive; so are the Heavenly bodies. Because Ball Lightning is a Baby Trinary Engine. I theorize this is how our Moon was born; our Planet gave birth to it, so Ball Lightning or Baby Trinary Engine, what better describes God's work. Now, if they turned out to be UFOs, that would explain

everything. What will really rack your mind is that we can use them to build Spacecraft, that is how God created our Planet, and it is the best Spaceship I know of.

I never had the resources to build a multi-phase Tesla coil. Tesla ran out of money to build the machines, so I have no blueprints for the project. You need 9 coils, each tuned to a different phase of electricity. And you need a mixer, that prevents the phases from combining; you can achieve this using separate antennas. You need to tune the gap between them to get the results required.

Our memory is eternal; we die and are reborn with that same memory; but most forget about it at a young age.

The Galattice is where the Trinary Universe stores its Memories. In humans, we consider this our Brain, but in Trinary Science, the Brain only accesses the Galattice. Which is just energy that is set in the 2nd Dimension, and the way God stores energy states in the Galaxies Energy Disk. And the nature of this arrangement is that the Universe works similar to Brains in all Lifeforms, there are 3 sets of Brain Functions. The first is where God stores Logic; the second is where God stores Reasoning. And the third part is where God stores the memory. Yet Brain Function alone does not explain how God stores thoughts or how God alters those memories.

Trinary Numbers start at 0. We have the 0 Set of Brain Functions, this is where the Brain communicates with this Little Voice we all have in our head. We do not use it to think with, but more or less to talk to; as if we are expecting other voices to answer; and that is never good, trust me. I can play videos, watch memories, edit memories, and watch them repeatedly. Because of Obsessive Compulsive Disorder (OCD), and that is how I figured out this place exists. That is the reason few believe it is Science; because if the Galattice exists, so does God.

Light without Darkness is Energy, and that Energy flows through all Life. Our brainwaves record it, and there is no other explanation for how we can talk to ourselves; or dream, or have Out-of-Body experiences.

Galattice has Greek origins from the word Galaxy, combined with the German word Lattice; meaning the Structure with an upper and lower band. Light and Dark, or (+1) and (-1), the 0 state is unseen, and sometimes dropped, because its function is to allow Energy to flow.

Our Mind exists in the Galattice. Our brain only stores pointers to memory in the Galattice; this explains how we can go Out-of-Body, and reincarnate with those memories. Out-of-Body experiences explain where we go when we die. We never leave this place and only have access to it in your Dreams and Memories. It may seem like you are the only one there; and it is because we all have our own Resonate Frequency. That is the Key to our Soul; it is the same place you call your Mind. Yet physically, it is just energy that continually flows through us while we are alive. And that Energy Lives on in all Life, and why some People Remember Past Lives, and without it, God would not exist, and I would have no memory of what I did today. The fact we can think is proof God exists.

When I was a child back in the 1960s, the Light fascinated me. I could spend all day staring at it. Well, some things never change. When I got older and learned to walk and talk, my Father would ask me what I was staring at. I tried to explain it to him, and he told me it was called "White Noise", it is Trinity: the Father, Son and Holy Ghost Spirit of Mother Nature, and goes by the name IAM. And is Also Known As God, because God is All Light without Darkness. So this was nothing new in my family, seems my Father already knew all about the Light. because my father had already read the papers that my Grandmother gave me

in 1969. So my father already knew what his father had taught him about the Light, and what his father before him had taught him, and so on; back to my Cousin Isaac Newton. He inherited the work of Sir Isaac Newton, who was standing on the Shoulders of Giants, so that he could see further.

Staring at the Light got me into trouble over the years, especially at School. I never understood what was wrong with staring at the Light. It is not like a Real Person, which I found out at a young age that most people do not enjoy being stared at. And I find animals hard to look at in the eyes. In nature, only predators look their victims in the eye; so I always tried to avoid looking people in the eyes. That might be Aspie Eyes. Although I have gotten much better at it, I do not enjoy looking anyone in the eyes. Because when people look me in the eye, I feel like a victim, as I feel like a Predator when I look people in the eye. But the Light, which is what I called it, but my parents said it was God; so God did not mind me staring. But talk like that got me into more trouble, and I was told repeatedly to stop staring at the Light because people will think something is wrong with you. Because only Retards stare at the Light.

They said that when I grow up, I will understand all this. Then I grew up only to find that most people were not very intelligent. 99% of them have IQs less than 120, which to me makes them Retarded. So maybe it is only Neurotypical who stares into people's eyes.

People use Religion or Superstition more than Reason or Logic, because I know it is good to stare at the Light, and I know it stares back at me.

I took a few passages from my textbook, "The Principles of the Trinary Universe".

Electricity is Light at a different frequency. It has a path it can travel on; we know this as a conductor. Which Atom's make up the structure. These Atoms appear to be solid, but in reality, they have 3 states. A Solid or Matter State, a Dark or Antimatter State and an Invisible State I call Null Space State. Empty-Space has nothing in it. Null Space has collapsed Atoms in it; and electromagnetic energy. Null Space exists in the 0 dimension of space. You cannot put anything into Null Space. In electronics you have a floating ground. We can look at this as if it is a grounding issue, you have an electron that is transitioning between two states and currently at ground; until it comes out, that space is stuck in a Null Space configuration. This condition does not stop electrons from going around it, so it is not a problem or a bottleneck.

You can convert the Light traveling the path as Electricity into an Electromagnetic Force called a Photon. Which makes up Light, and the reason this is possible is that Light and Electricity are Static, and the Universe moves around them. Which is only apparent when you look at the "White Noise" that surrounds the Atom's, and that "White Noise" I call Trinary Energy; is God no matter what anyone says. And we have known it for thousands of years, because my very definition of it comes from the Torah or the Bible. Yet, as Newton pointed out, it is how we view the Light that creates our reality.

As these Atoms move through Dimensions in space, they are following Trinary Energy State Changes. So in the 0 Dimension, where no Dimensions exist, nothing can move. Because there are no Dimensions to move in, so Energy must be static in relation to the underlying Universe, so we have a Dynamic Universe and Static Light.

The frequency of Light can define the science of Light. We need to know what makes up Light, which is an

electromagnetic signal that travels through space. This signal consists only of electrons. Once you understand how a magnetic field works, you understand it is just electrons looking for a ground.

We can send electrons using a transmitter and an antenna. If you force electrons into a point on the antenna, you can send them into space, or the air.

Color	Visual	Wavelength (nm)	Frequency (THz)	Photon Energy (eV)	Temperature (K)	Temperature (T)
Ultraviolet		< 300	1000 >	4.15 >	33,333 >	
Violet		380 – 450	668 – 789	2.75 – 3.26	20,000 – 33,333	
Blue		450 – 495	606 – 668	2.50 – 2.75	13,000 – 20,000	
Green		495 – 570	526 – 606	2.17 – 2.50	6,000 – 9,000	
Yellow		570 – 590	508 – 526	2.10 – 2.17	5,200 – 6,000	
Orange		590 – 620	484 – 508	2.00 – 2.10	3,700 – 5,200	
Red		620 – 750	400 – 484	1.65 – 2.00	3,700 – 3,333	
Infrared		1000 >	< 300	< 1.24	< 3,333	

Frequency of Light.

Visible Light is between 400 THz to 789 THz, as seen in the chart above. This has the Photon Energy and Temperature in Kelvin, as well as a blank space you can fill out the Temperature in Trinary.

White Light in

Darker shade of Light Out

Black & White, and shades of Gray, are not colors.

If you take two prisms and invert one of them, you can take White Light from the Sun, and recombine it back into a Darker shade of White Light.

My main point is that White Light comes into the Prism at one level. It splits out into the colors of the rainbow; the glass prism uses some of that energy in heat. Therefore, it comes out in a Darker shade of White Light, repeated enough times it will come out as Black Light. Do not confuse this with a light that is painted Black. They are called Black lights; they are not the same. Proof Black & White, and shades of Gray, are not colors.

People call Black & White and shades of Gray colors, but they are not colors, they are Light; it has a range of 000000 to FFFFFF in hex and in shades of gray. This is proof that no one understands Newtonian Science.

We can see the White Light from the Sun, and all the colors inside of it, but Black & White and shades of Gray colors are not colors. We cannot see Light with Darkness, or Darkness without Light; they are not in our spectrum of visible Light. See the illustration below, and notice what humans can see, compared to the spectrum.

Spectrum of Light (from wikipedia).

What I need everyone to understand about Trinary Light is that it has 3 logical state changes, Light (+1), Dark(-1), and Invisible (0). The Trinary Math is $(+1) + (-1) = 0$. This is not an equation; it is a formula that is older than the Torah. The equal sign implies where they are equal, which is the Graph seen below.

State	Trinity	Dimension(s)	Visibility	Graph									
				*			*			*		*	
(+1)	Father	All 3	Solid	*			*			*		*	
0	Mother Spirit	0	Invisible	*	*	*	*	*	*	*	*	*	*
(-1)	Son	1 or 2	Semisolid		*			*				*	
Time frame				0	1	2	3	4	5	6	7	8	9
				10	11	12							

$$\text{Trinary Math } (+1) + (-1) = 0.$$

The states are equal where they go through the 0 state, or ground. This is an Alternating Current (AC). The Father is the Positive Matter that is visible; because it is in all 3 dimensions of space. The Son is the Negative Antimatter and is semi-visible; because it is in the 1st or 2nd dimensions of space. The 0 state of the Ground is the Holy Ghost Spirit of Mother Nature. It is invisible; because it is in the 0 dimensions of space, causing it to be Static. In the dimensionless state of 0, there are no dimensions for Light to move in; this is the reason Light has no acceleration. God (0) is Light (+1) without Darkness (-1).

You need to do the Flashlight experiment, to fully understand the ramifications of God (0) being Light (+1) without Darkness (-1). By combining the definition of God as all Light without Darkness; with the math formula found on the exact page in the border artwork of the Torah written in the 2nd or 3rd century; we understand it describes electricity used to make Light. This proves that the Torah is about Science, and not about Religion; all because the Church altered the Torah to remove the Pagan Alchemy, Astronomy, Astrology, and other subjects we call Science.

Darkness

Sir Isaac Newton said the most important fact from the Torah, or Bible, is that God is all Light without Darkness; this is the only thing I need to talk about in the Torah or Bible. It is important to talk about the Light and the Darkness, because Newton said God is the Force of Gravity. To understand what Gravity is, we need to know about Light and Darkness. Look at the image below, in black and white paperback, you will not see the colors, so you will have to use your imagination. I label the colors, so you can figure out what color is what.

Prism White Light in, 7 colors out are the Darkness.

Darkness does not include White, or Black, because those are not colors; this is the proof of that. White and Black are the same thing, and this prism can prove that.

It is critical that you understand that Light without Darkness means you cannot see it. That is Alpha, Beta, Gamma, X-Ray, Infrared, Ultraviolet, and other spectrums of Light humans cannot normally see, whereas Darkness is all we see. Newton proved that White, Black and Shades of Gray, are not colors; and what we call Light, is Darkness.

Religion and Ignorance are the reason people believe they can see the Light, that humans cannot see, and believe they cannot see the Darkness; when that is all they can see. The concept of Light and Darkness, is not the

same as Light and Dark, and not the same as Light without the Darkness, because that is God.

The Torah said God is the Light, and Satan is the Darkness, because you cannot see the Light; all you can see is the Darkness, and it is the Darkness that lies to you. Satan is a person, and not some supernatural being; that concept is Religion. I will only talk about Religion, to explain to you that Satan is Religious; only Sinners believe in Religion; only Sinners go to Church, only Satan Sins. The reason Religion is Satan is that to become Religious, you must take the Mark of the Beast, known as a Sheep, like Ewe; by following a Shepard, in Psalms 23. And you must buy and sell Souls; and a Soul is our Brainwave. It takes electricity to make Light; thus, it is Light; proving that people buy and sell Souls by the Kilowatt.

Witches wrote the Torah using Witchcraft; a Witch is a person who knows the art of using words and spells that have more than one meaning. Wizards are people at the top of their field of study, have Witches write it in the Torah. So they could hide Alchemy and Astronomy; that the Church forbid. Satan does not allow people to know the knowledge of Science. The Church could choose to teach Trinary Science, because it is the Science of God in the Torah; until that day, the Church was Satanic, and all its followers were Sheep. Because the Torah told you that only Sheep follow a Shepard.

I believe it is the job of the Church, to reorganize, and throw out the Torah and Bibles. Satan wrote these books of Sin after the 3rd Century, to bring back the Roman Empire, under the name of the Holy Roman Church.

Once the Church clears out their old teaching, they need to teach the Science of God. They can call it Trinity or Trinary if they want to teach Trinary Engines. After you remove Jesus Christ and rename Sirius back to Christ; the

Torah will make more sense. That means they will have to Teach Jesus Bar Abbas because he said Money is the Root of all that is Evil, where Evil is a backward spell for Live. People cannot Live without Money; they will die; which means not alive. Money not printed by Congress is Treason, and they can execute you for that Money, again, proving Bar/Abbas was right. That is from the Torah, and it is the Truth; or was before the Church got ahold of it. The Church has my permission to use this book, to write the New Torah, and teach Education to the highest degree. Mainstream needs to tell the Truth.

Satan is the Darkness because Satan is a Liar. Anyone that lies is a sinner; all sinners are Saints, who are people that Lie the best, meaning more people believe in their lies. A sin is what Satan does for fun, and why it is a sin. The Torah says all Sinners need to repent, but the Church only teaches people how to lie. The reason they allowed the Theoretical Science of Albert Einstein; knowing Einstein removed God from his Alternate Universes, in Alternate Realities. Alternate means not ours.

Albert Einstein, Nikola Tesla, and Henrietta Swan Leavitt.

Between 1938 and 1942, Einstein and Nikola Tesla had secret conversations between them about Henrietta Swan Leavitt. The conversation was about Leavitt's observations about how the Stars orbit the Galaxy at the same rate but at different speeds. Tesla and Einstein both agreed that his Theory was not the issue. It was that people

thought this applied to their Universe or Reality, because they do not understand the word Alternate, means it does not apply to you. Tesla said Alternate gives people a choice, so it is a tricky word. The two of them are Wizards according to history, and not Witches, so writing is not their strong suit. Tesla asked Einstein to denounce it; and the reason he did. But Einstein said it will not change this situation. Because people that do not believe in God will always do Satan's bidding.

Mainstream News made sure people never found out about this, but you can still find newspaper articles saying that Einstein believed in Newton. The fact no one can prove Einstein's theories in over a century is proof it is not the truth, or it would be a fact. The fact is that we use Newton's God as the force of Gravity, and not Centrifugal force.

Tesla's notes said Einstein agreed Light has no acceleration. Therefore, he acknowledged, Light was not dynamic. Tesla said people reported Einstein plagiarizing, and how his math became to be, he said $E = MC^2$ was the easiest thing he plagiarized from Newton's $E = MA^2$.

Tesla said that Einstein denounced his Theory in favor of Newton's God as the Force of Gravity. As proof, we still use Kepler's, Newton's, and Tesla's Science, and no one can use Einstein's for anything other than Science Fiction. No one can name one math formula that we can use that Einstein wrote. If we do base Science on facts, it is Science Fiction and a lie. Because any theory should be something that people can prove in a reasonable amount of time, and a century is not reasonable. If you cannot prove a theory in one year, it denounces automatically.

The only thing that can travel at or near the speed of Light, is Light. What we call Light is Darkness, and Science will not change until people understand this concept. Atoms

will burn up before reaching near the speed of Light; only the electron can travel at the speed of Light.

Plagiarist Einstein proves math is fake.

The Electron is the only thing that can produce what we call Light, and Newton called Darkness; It is the only Atom that has Darkness in it, and it has both Light and Darkness in it. When the frequency of Light is high enough that it is in the 0 dimensions more often, you can see the Darkness inside the Electron.

We do not need to use the terms the way the Torah meant them, but we need to understand what it meant by them. But know that Light is not Good, and Darkness is not Evil. Anyone who has got sunburn and skin cancer from it knows this. What we know is that Light is what we see, but it is the Darkness in White Light. We know God is the Light, and Satan is the Darkness, and we understand the reason is that Light is Good, and Darkness is Evil. That means Darkness, as a subject, is ambiguous because of Religion.

If we look at this image below, which is a table of Light frequencies. We can get an understanding of Light, and its relationship to its wavelength, frequency, photonic energy, and temperature. You can figure out what its temperature in Trinary is. The Trinary Temperature refers to the temperature Elements burn up, in terms of Color; these are the colors that atoms can turn into. Heat a sheet

of stainless still to see these changes. Every element will have its own color temperature; so you need 136 charts.

Color	Visual	Wavelength (nm)	Frequency (THz)	Temperature (K)	T
Ultra violet		< 300	1000 >	33,333 >	
Violet		380–450	668–789	20,000–33,333	
Blue		450–495	606–668	13,000–20,000	
Green		495–570	526–606	6,000–9,000	
Yellow		570–590	508–526	5,200–6,000	
Orange		590–620	484–508	3,700–5,200	
Red		620–750	400–484	5,200–3,333	
Infrared		1,000 >	< 300	< 3,333	

Light Frequencies.

To understand what Darkness is, we need to bring it into the Light and take a better look at it. On one hand, we know Darkness is the color of the rainbow, and on the other; we know Darkness is Evil, meaning not alive, or to make things alive, not alive. The reason is how we define words. I will talk about all things we think are Darkness, but after I say what I need, it is the Rainbow.

I had promised not to discuss Witchcraft, but it seems impossible to avoid mentioning it. The reason is Mainstream and the Church are constantly trying to make people believe that there are no such things as a Wizard, or a Witch. When we know history proves they murdered them for thousands of years, hoping to eradicate them from the mainstream Belief System (BS); which is why they want you to believe they succeeded. But I am proof they failed.

When I was a child, I thought that things only had color because of the Darkness, or rainbow of colors found in White Light. This concept is that all Elements resonate at a specific frequency that correlates to the colors. If you use White Light to see an object, you will see it because of the

Darkness in White Light. I tested this theory with every color of light available to me. You can do this experiment using various light sources; and you will conclude I am right. On a sunny day, things look brighter; on a cloudy day, not so bright, proving my theory. If you take a Laser and burn a hole in stainless steel, you will see it change colors, from the bottom of the rainbow of colors, to the top; so blue, yellow, and red; proving my theory is right and should be a fact. I have not tested every light, because I never had the money to build a proper lab, and done the proper testing; and I need someone else to conduct the same test to prove it is repeatable, and have a lab certify the tests.

Light does not travel in a straight line. I know this from Levitt's work. It has an elliptical orbit between 13 and 16 billion light-years. The range is because of Darkness; each color has its own limit.

Rainbow ellipse limits.

The above simple illustration expresses the mechanics of it; proving the Darkness does not travel at the same speed; as proof, look at their wavelength. The reason for the ellipse is the positive and negative 1. They are equal at the center, but the width is positive 1, and the depth is negative 1; which causes it to contract because of Gravity. This applies to the orbits of the Galaxy, Suns, Planets, and Moons. This is based on observations Leavitt made while working for Hubble. Hubble noticed the Red Shift in color. Leavitt noticed you can find the size of a galaxy by using its color. As a child, I wondered what the Red Shift and

distance had to do with anything, because I thought Hubble was wrong on many levels, all of them to be specific; if not for Leavitt, Hubble would be unknown.

I took out a sheet of paper and a crayon to make the above illustration, plotted out the wavelength, and then noticed where the Red Shifting came from; which is what Leavitt noticed was an indicator for its size, knowing they both cannot be right; and you cannot mix the two theories. I proved she was right because of the color bands. The Red band is on the outside. And the Shift is because the Light is in an infinite loop. My logic is that if the Light does not loop, she could not use it to determine its size. The loops are always the same size, but the object inside, at the center, its size can now be determined by subtracting the differences; but her method is unique, but gets the same results. Amazing what you can figure out with crayons.

Thomas Young (1773 - 1829) discovered humans have 3 kinds of nerve fibers in our retina, red, green, and blue (RGB). The additive color theory is based on red, green and blue (RGB), there are millions of combinations of these 3 colors that account for all the colors we see. The subtractive theory is based on red, yellow and blue, because it is based on material that is not pure Light, requiring mixing like paint. This is all the proof I need to know that my theory about Darkness is correct.

My science is Trinary Science; it goes beyond Newtonian without changing it. Unlike Einstein, he took a 180-degree turnaround by changing Light from Static to Dynamic; this changes everything, and the statement he did not “Fundamentally change” Newtonian Science, it was a lie. Einstein wrote; “Newton, forgive me, you found the only way which in your age was just barely possible for a man with the highest powers of thought and creativity. The

concepts which you created are guiding our thinking in physics even today..."

Einstein assumed that because his time was less advanced, that his science was a consequence of that; Einstein wants Fame and Fortune, we find my work on GitHub for Free. Even if Einstein did not denounce his theory, after a century, no one could prove his theories, as proof we use Newtonian Science; and not one math formula that Einstein wrote. $E = MC^2$ is $E = MA^2$; it is Plagiarism, proving he is not trustworthy.

People that say Einstein is right, believe God does not exist, which proves that they are Mentally Insane for the belief in things that do not exist.

Einstein has two theories; both have the Light as being Dynamic. General Relativity has the Universe as being Static, the Special Theory of Relativity has the Universe as being Dynamic. Anyone with a brain knows one cancels out the other. They both cannot be right, and to prove them wrong is simple; Light has no acceleration.

The only reason people changed to Einstein's insanity is because they are Satan, as proof, Einstein removed God; thus all Light without Darkness, they want you to believe that the Constant for Light (C) he removed from $E = MC^2$ still exists, which is insane. Light has no acceleration, is the only thing you need to know about Einstein's theory; it is nonsensical on all levels.

Talking about Mainstream Science is talking about Satanic Science; therefore, you can add the prefix of Satanic to the Mainstream Concepts.

- Satanic Mainstream.
- Satanic Science.
- Satanic Society.
- Satanic Church.

- Satanic Religion.
- Satanic Education System.

The list goes on. Everything Mainstream says is Satanic. I cannot teach Science by teaching what science is not; which is a theory by Einstein; but he denounced it, or time did. I can only debunk a fact, and not a theory.

The Proton or Neutron do not have color, only the Electron has color; you need to know this.

My concept of $E = MC^2$ is $E = MA^2$, but if you want to find out the exact energy level, you must use:

$$E = F - (F - x)$$

or

$$E = \int_{-1}^{+1} F - (F - x)$$

True energy level.

This is based on F being the Fire frequency. If you take the Periodic Table of Elements. Take the elements one at a time, and put them into an Atomic Accelerator, or furnace oven, and note the speed it catches on fire, just before it disintegrates; which you can verify with a neutrino detector. Document each reading, and you will have a list of all the known Fire frequencies. All of them will catch fire before they disintegrate.

Note that an Atomic Accelerator can measure the speed it travels more accurately, using a furnace oven; will mean you need to measure its wavelength or frequency while you heat it. Both should give the same answers.

Now we can do the math based on those numbers. The variable x is the current speed of the object, based on its wavelength. Note that just being on Earth means it has an offset frequency; this means that all objects on Earth are not at rest, and the reason you find their wavelength shows them moving is because they are. For example, glass, it can build up a static charge during acceleration, making it a

good example of catching on fire. We do not want to know when it disintegrates; its energy is gone at that point. You must take the energy level it is at, and minus its Fire frequency; this gives you the offset. You then minus that from its Fire frequency, to get its absolute energy level.

If you need to know about more than one element, you must calculate them independently. For example, if I take an aircraft engine, and I want to know the maximum energy I can get out of it, all I need to do is take each element, and do the math. I use its wavelength to generate its thrust output; I can get this from its Frequency, which is its rotational speed, plus its offset I talked about above; because the Engine is not at rest, and 0 RPMs will verify that for you, so use that offset at 0 RPMs. Regardless, the engines parts will melt down before you reach its maximum potential of energy. What this formula does is measure the material's energy output level.

If we know the temperature of a material, and we know when it will melt down, which always happens before it reaches its fire frequency.

Ship propellers output measurements, where the propeller is water cooled. It will not rise much in temperature on the outside, but does somewhere in its system; that the cooling does not affect.

Note that $F = MA$ is the Force of Gravity, and what we want to know is its energy levels that we want to overcome; which is Gravity, so that energy is $E = MA^2$. That means that all Energy references Gravity.

Gravity is always a force you need to overcome, no matter what you are doing, which requires an Energy reading; you are always setting the baseline to overcome gravity levels. I define Energy as being work, and the types are Chemical, Kinetic, Potential, Radiant, Elastic, Thermal reactions and the list goes on. There will always be more.

If we want to measure the energy a Jet Engine puts out, you use $E = MA^2$, where M is the mass of the aircraft the Engine needs to move to overcome Gravity. Where A is the acceleration of the output of the engine gasses; whereas the energy of the system is the acceleration of the aircraft. That means that E is equal to the energy it takes to do the work required; which is overcoming Gravity.

To measure the energy of a vacuum, which could be a carburetor, use Newton's $E = MA^2$, where A is the acceleration of the air. Mass is work required. If this is a machine, you need to know the mass of the machine that is to be affected. If an aircraft, it is its weight.

The reason you use one test over the other is testing procedures and accuracy. If you want to calculate the maximum, you need to determine if you want to know what the material is capable of; which you use $E = F - (F - x)$, or use $E = MA^2$, to calculate the mechanics of it.

I do not have a laboratory, or the equipment required to test my theories, so they are not facts; in fact, all my science requires verification by another person. That is how science works. You have people making a theory, and people testing it, and you should be able to set up the test, and verify it. None of my science is hard to test.

This Trinary Math $E = F - (F - x)$ is called Energy Fire Frequency, and it only applies to Elements 1-136, in my table of periodic elements. 0 are neutrinos. Oddly enough, you can bind an electron to an atom. We have no way of proving this, because the smallest thing we can see using an Electron Microscope is a proton, or neutron. Note that we can only see Elements, and not individual atoms; but technology changes all the time. I do not have any equipment that I require certifying my tests.

If you want to test this theory using $E = F - (F - x)$, we can do two tests. Say we want to test stainless steel. I am

very familiar with how this behaves, so the burn test works for me. You need to determine the temperature and the frequency. I would use a thin sheet of stainless steel, around 1" square. You need to isolate it so the surrounding material will not absorb its energy. If you use a furnace, you need a technique to test the frequency of the sample, as well as its temperature. Now we can use direct measurements, if you can find probes that will withstand the temperature. I have no clue how accurate wireless devices are for this purpose.

Everything has a frequency, but measuring it is hard to do because of technology. The only way to find the frequency of an object that I am aware of is using a vibration test. You need to find its resonate frequency by injecting the sample using a frequency generator with an oscilloscope attached to the sample. So you can visually see it vibrate and look for a peak on the oscilloscope to confirm the exact frequency. There are wireless vibrations meters, having worked with one, I know they work well. You can also test the range of frequency to find out its stress frequencies, which can cause the material to crack.

Trinary Science is the science that you want to use on Aircraft. You can test all your material for Fire frequency, Melting frequency, stress frequency; and all the properties that an engineer would require to design it.

The Darkness is everything we can see. Testing the Darkness is what Trinary Science is good at. Satan is the Darkness, because we can see Satan, whereas we cannot see the Light without the Darkness. The Darkness is the Rainbow of Colors found in White Light.

Elements

There are 137 elements in the periodic Table of Elements. I know this because there are 137 receptor sites around atoms. I will list all the Atoms, from 1 to 136, to describe Proton, Neutrons, and Electrons will be 0.

As a numbering system, 0 is a valid number, but most people do not start numbering from 0, but in Science you find this more often. I believe the names for all the Elements that I added are as nearly correct as I know. People finding them will want to name them what they want, so in the future; this list may not be the same.

Below is a table showing all the elements we know about, and all the ones we have yet to find. Note that I must number Trinary 0, because God makes Electrons out of Neutrinos, and there are Neutrino particles for all 137 elements. 0 to 136 is 137 Elements, and Trinary should be 0, because it only exists in electrons, and the other elements are all Atoms made from Protons or Neutrons, and Electrons bind them. That implies that every Atom has its own Neutrino particles. Trinary has 0 protons, so its atomic number is 0, and the reason I added this neutrino to the table of Elements is that the Galaxy, Sun, Planets, and Moons; all use this one Element to make the Trinary Engine. It is an element because it is the smallest unit that makes up Trinary Electrons or Trinary Engines.

If I left Trinary Neutrinos out of the chart for Elements, I could not teach Trinary Electrons or Trinary Engines. I require the Table to have all the Elements that make up any object, and the largest object in the Universe is a Trinary Engine.

A proton is positive, a neutron is neutral, and an electron is negative. We have all the elements to describe what we make everything with, except electrons.

Atomic #	Name	Symbol
0	Trinary	T
1	Hydrogen	H
2	Helium	He
3	Lithium	Li
4	Beryllium	Be
5	Boron	B
6	Carbon	C

136	Unobtainium	Un

Trinary Periodic Table of Elements lists 137 elements.

Elements are the smallest size they can get. Therefore, everything in the Universe God creates with Elements. I say God because God creates these Elements with Light without Darkness, and it is easier to say God; then it is to say Light without Darkness that created the Universe using Neutrino particles with Light without Darkness. When you factor in the other things God is accountable for, God is much easier to say.

Protons attract the Electron, and Neutrons repel the electrons. Therefore, Protons and Neutrons balance the electrons' orbit around the Nucleus of the Element.

The Atomic number of any Element is the number of Protons. Hydrogen (H) has one proton, and it is a gas. If we bind it to Oxygen (O) which has 8 protons, and is a gas, we get Water, which is H₂O. We know Elements make up everything we know, and they are in the Periodic table of Elements. If the number of Protons and Neutrons are the same, the Element is Neutral.

Water is a Compound, because it exists of two Oxygen atoms, which makes that a molecule. And Hydrogen, which also has two Hydrogen atoms. When you combine Molecules; they become Compounds. That is the building block that makes up everything.

The Element in the image below is Hydrogen, because it has only one Proton, and since it has a Neutron, this Element is Neutral, and is the Hydrogen Isotope Deuterium. Hydrogen has no Neutrons; Deuterium has one, and Tritium has two neutrons. That means the number of Neutrons determines what Isotope it is. The Shell ring is an orbital pattern for the Element, and it binds the Proton, or Neutron, inside the Nucleus. The Valance ring is used to bind this Element with other elements, or compounds.

Element.

The Atom is the Proton, Neutron, and Electron. But mainstream science does not agree, but they use Einstein; so forget about things Mainstream Science teaches that differ from what I say. You cannot mix Einstein and Newtonian Science; the two cancel each other out. Einstein has Dynamic Light that defies the laws of Physics; which state that Light has no acceleration.

The atom is the smallest element in an Element. If you do not have the Electron in the Periodic Table of Elements, you are missing the building block that makes up every Element. Every Element has its own Atoms. For example, Oxygen is a Molecule. It has two Oxygen Atoms; this means it has its own type of Neutrinos that make up that Atom. Therefore, we account for all the Neutrinos; and why I added Trinary as Element with the atomic number of 0, meaning 0 protons. This accounts for the Electrons Neutrinos.

Electronics explains how to build circuits that can run some type of logic, to do some type of work. If we can view those circuits as being alive when they work, and dead when they no longer work; we can assign life to machines.

The way we view all life on any level defines who we are as people, and currently, only Trinary Science defines life this way.

To expand your mind, you must think differently about a subject; and this subject is Elements. You must understand God created the Elements. The most mind blowing revelation is that God creates everything from God and Neutrinos. The only reason God would do that is to create everything God created; which is everything.

The way God creates Atoms is a mystery. I imagine God has the power to attract Neutrinos. This power is what I call Trinary Energy, which is a White Noise seen everywhere, and even our Technology can record it.

God makes Trinary Atoms and Engines in nebula clouds in space. These are areas dense in gasses. They have an abundance of electrons. Lightning arcs cause Ball Lightning to form, and these get coated in Neutrino particles, forming Atoms, and Trinary Engines. I imagine humans could make them the same way.

Once we understand the basics of Trinary Science, we can go into more advanced topics.

Taken from <https://www.chem.fsu.edu/chemlab/chm1045/mole.html>

The MOLE (mol) is a unit of measurement that is the amount of a pure substance containing the same number of chemical units (atoms, molecules, etc.); as there are atoms in exactly 12 grams of carbon-12 (i.e., 6.022×10^{23}).

So the mole is the title used for the amount 6.022×10^{23} ; much the same way we use the word “dozen” for the amount 12.

We use the mole (mol) to represent the amount of substances in chemistry because the numbers of atoms and molecules in each substance are so large. The value given 6.022×10^{23} is called Avagadro’s number for the scientist that found the number of atoms in 12 grams of carbon 12. Why use 12 grams? This is the theoretical atomic mass of the Carbon-12 isotope (6 protons and 6 neutrons). This means that the atomic mass or atomic

weight (12 grams) of carbon is equal to exactly 1 mole of carbon.

Lithium, for instance, has an atomic mass of 6.941 grams and this is equal to one mole of lithium. This is the reason we state the atomic and molecular masses in units of grams per mole or g/mol.

What can we do with moles? We use the unit to make calculations based on balanced chemical equations. We use stoichiometry, which is a fancy way of saying mole ratios in an equation; to make predictions about how much product will be required to make or reactant needed if we know one mole amount in a reaction.

The Molar Mass, or Molecular Weight, are interchangeable terms so long as we are on Earth. The Molar mass or Molecular Weight of a substance is the total of all the individual masses of the elements it contains. To use our old friend water as an example:

We compose one mole of Water of 1 mole of Oxygen and two moles of Hydrogen. The mass of oxygen equal to one mole of oxygen is 15.998 grams and the mass of one mole of hydrogen is 1.008 g. If we total up the gram amounts of each element in the water molecule = $15.998\text{g/mol} + 2(1.008\text{g/mol})$ we get the molar mass of water = 18.014g/mol.

So if we had exactly 18.014g of water, we would have 1 mole of water.

When we need to know how many atoms it takes to make up a quantity of that substance, we need to know about the Molar Mass or Molecular Weight of an element.

Periodic Table of the Elements

Some periodic tables of elements have more details than others. It is good to understand how to read them. They will always display the Chemical symbol, and atomic weight; few will list more information than that, so I would suggest picking one that works for you.

To understand Elements, we need to understand Atoms that make up the Elements. We know God created the Elements, so God could create the Universe.

Magnetics

As a child, my Uncle Tubba gave me a Magnet for my 6th birthday. Tubba is a nickname for a Tuba he liked to play. He asked me to explain to him how Magnets work.

3D, 2D, and 1D.

Atoms have 3 dimensions; the first is 3D, where it has a width, depth, and a height. Next is 2D, where it has width and depth, but is flat. The last dimension is 1D, where width is all that we have. 0 dimensions would be 0D, but that means it has no dimensions, so 0D does not exist as normal space; instead, it is null space. I cannot draw a 1 dimensional object.

The atoms that make up everything we know, total between the 3 Trinary states. These state changes cause gravitational shifts and magnetic changes in flux.

Figure 8. Trinary Atom or Trinary Engine.

Note that the center of the core is funnel shaped; the configuration is more like a figure 8, but I could not figure

out how to draw it. If you can imagine, the lines are the way the structure unfolds, as it transitions from one dimension to another. You can only interact with 3 dimensions, and there is no fourth dimension, that is a perspective dimension, and not a real dimension; but a mirror image.

Notice that I show the Trinary Atom, or Trinary Engine, as being hollow at its axis. That comes from the work of Quantum Mechanics; they get something right. Just not the whole Einstein Alternate Universe, in an Alternate Reality, which means it is not our Universe or Reality. This core gives the Atom or Engine its polarity.

Polarity

The core of an Atom or Engine, has a positive or north end, and a negative or south end. There are magnetic fields that build up around a magnet. Energy flows from Ground which is in between positive and negative, where it reverses its polarity; shown by the arrows. That shows energy flowing from negative to positive, or from south to north. To understand what a magnetic field is, we need to understand Trinary Math.

Trinary Math is a concept of using dimensions of mass to calculate their properties. That means an Atom or Engine, has properties that define how it behaves. We can calculate when it will reverse polarity, when it will be positive or negative, and so on.

The core of the Galaxy, Sun, Planet, and Moons are all in the center of an Atom or Engine. The core of the atom or engine is the center structure shown above in Figure 8.

Mass means that you have a specified number of atoms, which we can calculate by weight. Trinary Atoms, and Trinary Engines, have mass. An Engine can have a mass of Atoms. For example, Galaxy, Sun, Planet, and Moon; how many atoms or engines determine its mass.

State	Trinity	Dimension(s)	Visibility	Graph												
				*			*			*			*			
(+1)	Father	All 3	Solid	*			*			*			*			
0	Mother Spirit	0	Invisible	*	*	*	*	*	*	*	*	*	*	*	*	
(-1)	Son	1 or 2	Semisolid			*			*					*		
Time frame				0	1	2	3	4	5	6	7	8	9	10	11	12

$$\text{Trinary Math of } (+1) + (-1) = 0$$

When we start our cycle in time frame 3, we can say that we are negative; this is south. We are in the first or second dimension of space; where space is in front of us; it is a void area that has nothing visible in it. This space may or may not have an Atom in it. For example, the Son is negative and Antimatter; it is semisolid, because it is in between dimensions. Anything that happens to an Atom can happen to the Engine, and vice versa, so I only need to say Atom. We could look at a space and see no atoms, because it could be the 0 dimension or ground.

In time frame 4, we are invisible, because we are in the 0 dimension. The state of 0 is the Mother Spirit, the Holy Ghost Spirit of Mother Nature. They show this in Trinity to be the Father, who is the positive 1. The Son is the negative 1; thus 1 is a male Symbol. Then we have the Holy Ghost Spirit of Mother Nature, which is 0. Therefore, 0 is a female Symbol.

The Neutrinos that make up the Atom transform into a state where the Neutrinos collapse. We cannot see into the 1st or 0 dimensions of space, only the 3rd or 2nd dimensions.

In time frame 5, we are positive, the father, who is Matter, and solid. We could have been negative as well, but we are looking at a continuous sine wave. When the father transitions into the 0 dimension, it must go through the 2nd, then 1st dimension to get there.

Electric fields create gravity, and a Magnet is an electric field, it can repulse or attract. To understand how we generate a magnetic field, we must look at how we make things. I will use an iron bar for my explanation. I will use a non-magnetic iron bar, and a magnetic iron bar, as an experiment. So, if you have two iron bars and a magnet, you can take part in this experiment.

Iron bar with no magnetic properties.

If we take a bar of iron that has no magnetic properties, it will still have a north and a south end. This illustration has atoms on an iron bar; normally they are inside it, but I must make it visible. It aligned them north and south. If I take a magnet, I can add more electrons to the iron bar.

Iron bar with magnetic properties.

Now if I add two more Atoms, it will have no more room on the iron bar, and will jump from the north end to the south end. That causes a magnetic field and Gravity. I can take a magnet and, using one side of it, I can remove

those excess electrons. I can use devices that can attract electrons; this is called a demagnetizer. The amount of Electrons in the field, we measure in Gauss.

The experiment is easy to prove, and yet we need to visualize what is going on. We need two permanent magnets, and a sheet of steel, that the magnets stick to. We need to space the magnets at equal distances from each other; so they are close enough to the steel to have a slight pulling effect. If we place this on top of the paper, and pour magnetic dust on it, we will see a magnetic flux field. Black magnetic dust is easy to make; take a sheet of paper and a magnet. Place the magnet on the Earth's surface and then move it around the dirt. And it will collect these black particles, and we need to put these near flux lines. The image below shows two Magnets. Red poles are North, and the Blue is South. The black lines are called Magnetic Flux lines, and if we get our magnetic dust near a magnet, we should see this effect. The two arrows show you the force field direction.

Two magnets, two magnetic fields.

Page 70 of 204

If we take the concept of Matter and Antimatter and apply it to this model. We will see the direction the flux travels, is from North to South, or Positive to Negative; but the flow of energy is Ground to Positive in the center.

Magnets work by using Matter and Antimatter. These are two forces that are created with Atoms. These two forces cause electrons to jump from north to south.

Electrons bind Elements to its nucleus; then they bind the Molecules, which are two identical types of Atoms. For example, Oxygen. They then bind Molecules of different Elements, making compounds. For example, Oxygen and Hydrogen form Water. That means that electrons bind things.

Magnets cause gravity. Earth is an Electro Magnet. The Trinary Engine, which is a huge Electron, generates the Electricity to run the Magnetosphere. Earth has a huge excess of Atoms due to its mass, which makes up many types of elements and compounds.

A Trinary Engine is Negative, yet it still has polarity, but positive is a weaker force. Therefore, it attracts Positive. The Elements have a polarity; this is because they have Protons, and Electrons. Electrons have polarity, but the positive side is very weak; but without it, Electrons could not orbit a proton or neutron, they would fly away. That means the Trinary Engine has polarity, and its Positive polarity is weaker than its Negative polarity.

The iron inside our planet does not generate the Magnetosphere by the spinning of Earth. It spins at over a thousand miles an hour, and is not slowing down; yet our magnetic strength is decaying at a constant rate of around 5% per century. This proves that iron has nothing to do with our Magnetosphere, if it did, the Earth would be slowing.

After you remove everything we know is not the truth, it leaves us with what must be the truth; which is the Trinary

Engine. If the core of the Earth were molten metal, it would have no means to keep it molten; it cannot be nuclear, or the earth would be more radioactive.

The Earth will reverse its polarity; this will happen when the north magnetic pole crosses the equator. The Trinary Engine has 3 sets of 3 rings, we can call them Valance rings, but I like to refer to them as Rings of Power, or Power Ring. They are separate from the physical poles. Energy flows from South to North, or Negative to Positive.

We talked about the polarity of an Electron, look at the image below, and this time imagine it is a Trinary Engine. Notice that the South is on top; this is the North Magnetic pole; the north compass points to the south end of the magnet. South is Antimatter, and the closer the magnetic poles get to the equator, the weaker the magnetosphere will get. The overall strength depends on the number of electrons the Earth has available. The strength will not dwindle; you need enough strength to jump the gap, around 93%. Therefore, once the strength is too weak to make the jump, it will collapse at under 90%.

To understand magnets, you need to experiment with them. I would suggest getting some Ferrofluid in a glass bottle and two neodymium magnets. You need a few materials that are magnetisable, like iron, nickel and cobalt, and a few types of magnets; neodymium, samarium cobalt,

alnico and ferrite / ceramic. Also Materials a magnet will not stick to like aluminum, copper, brass, gold, silver, titanium, tungsten, and lead, which are not ferromagnetic.

There are many ways to view magnetic flux; the cheapest is a piece of paper. Magnetic field viewing film is an alternative and you can buy Ferromagnetic jar kits.

A piece of paper (WikiMedia).

Magnetic field viewing film (WikiMedia).

Ferromagnetic fluid kit.

You should make your own do-it-yourself version. Take a large jar you can get your hand into. I will use a mason jar, see the image below.

Mason Jar (*WikiMedia*).

If you do not enjoy dirty hands, you can buy iron filings. Otherwise, take a sheet of paper and a magnet, and put the paper on the ground; place the magnet on top, allowing iron filings to build up. Put that in a jar, by putting the paper with the filings in a jar and removing the magnet. Fill the jar with enough rubbing alcohol to clean the dirt out, and let air dry. Using water results in rust, and takes longer to dry. Agitate jar to clean particles. After you wash the filings and they are dry. You can try the paper experiment.

Place paper on various types of magnets and then sprinkle the iron filings on top of it; you can move paper to get full coverage. Take a pencil or pen and draw lines that

match what you are seeing. Using a compass label north and south. Keep in mind like poles attract, so the compass's north end is pointing at the magnet's south end. Remove the filings, now you have a drawing of the magnetic lines of flux that you made using your eyes.

Place dry filings into a jar and see how they behave while placing magnets outside of the jar. Try various magnets and note how they behave. Try various fluids in the jar, alcohol, water, and oil; this adds viscosity.

Understanding the magnetic field visually will help you understand how the Earth's magnetic field works. With the paper marked in the paper experiment, with north and south marked. We can repeat this by putting filings on paper matching north and south. Then observe how the north and south poles reverse by rotating the magnet a full 180°, and note how the flux moves with the magnet.

I want to talk about the magnetics of the Pole Reversal that is in progress, since 2012. The Earth is not a permanent magnet. It just holds the charge until it is reversed, then it takes time for it to reverse the charge in all the iron, cobalt, or nickel. This is not what creates the Magnetosphere; it only maintains it. The magnetic poles are an electromagnet; it magnetizes the Earth's physical poles. Let us do an experiment using a 9-volt battery, some copper wire, and a nail, we can make one. Notice that we have 3 stages of reversals; the center does not connect.

3 stages of Electromagnetic reversals.

The 3 stages of electromagnetic reversal are first, one polarity, north or south. Then you must switch connections, this means in between polarity changes; the field must collapse. If you use Alternating Current (AC), the same thing will happen when the power switches to ground.

I want to prove to you that there are only two ways our Earth can reverse its polarity using an Electromagnet. The first way is to reverse the polarity on the battery. This is how the Torah, Kepler, Newton, and Tesla all described it.

The other way is to physically rotate the magnet. This requires a permanent magnet to represent Earth's physical poles. Below are 3 images of the Trinary Engine, or Earth, notice that our Magnetic North is heading to the equator; when it gets there, the physical poles will need to change. The first image shows it as it is now, in 2023. In the middle image we see it in 2061, when it gets to the equator. The last image below shows our physical poles reversing. The closer the North Magnetic Pole gets to the North physical pole, it will push and drive the physical poles.

2023, 2061, and 2103.

We are in frame 1; the South and North physical poles are not moving; only the Magnetic pole is moving towards the Equator. In frame 2, which is in 2061, we are at the cross-roads, where once we cross over that line. North and North will be in the same space, and that cannot happen, so the permanent physical poles must change.

We tied our Magnetosphere to our Physical poles, because our Magnetosphere is not moving; only our magnetic pole, or Trinary Engine. Which is the core of the planet is moving.

Now, in the last frame, we are nearing a complete pole reversal in 2103. This requires the crust to move; and this will not be a smooth transition, and the Earth can go Nova, or break up into sections. Do not confuse Nova and Super Nova; Super Nova the Planet blows its surface off, whereas a Nova only breaks the surface up.

We can agree that if we test out all the ways this can happen, we have no evidence this has ever happened, and why I will not entertain this as happening; yet this is the model Mainstream Science wants us to believe will happen.

The evidence in geomagnetic studies or paleomagnetism proves that our crust did not displace, yet our polarity reversed. Our Magnetic poles are moving, and not our physical poles as proof of this assumption.

You can experiment with every conceivable combination that fulfills the paleomagnetism evidence; and follows what we know now. Which is that crust displacement is not happening; therefore, our physical magnetic poles must reverse.

The evidence shows this is what will happen. Frame 1 is where we are now, in 2061, is in the middle. This is the cross-road; in frame 3 on the right, we have a physical pole reversal. This happens in real time, and the entire process

takes 6.66 minutes to complete. Earth will take time for the changes to become permanent; as I showed in the illustration below, it will slowly change over time; as it pushes, the magnetic change as it crosses over. Earth is slow at magnetic changes to its physical poles, but you cannot have North and North.

I do not see any other way for this to play out. We have to take what we know into account, and what is happening and then figure out from there what will happen.

Magnetosphere (NASA).

The image above shows our Magnetosphere protecting Earth from the Sun. Notice how the Auroral Oval is around the ends of our poles. The energy from the Sun feeds our Magnetosphere. Excess electrons cause Lightning on earth and in space above Earth.

Lightning (BBC).

Lightning is electromagnetic energy. In the upper Mesosphere and lower Ionosphere, we have Emission of Light and Very Low Frequency (ELVE). Blue jets are in the Stratosphere. These are electromagnetic storms.

Blue Jets & ELVE (BBC).

To understand Magnetics, you must understand Trinary, Light and Darkness, and Elements. In order to understand Trinary Science, you must add the prefix Trinary to it; this includes everything Trinary. The image above shows electromagnetic storms.

Electricity

Electricity and Electronics are not the same subject, so I will try to make it clear Electricity exists in the Ground; and Lightning is the discharge of Electricity found inside our Atmosphere. That means Lightning has a high potential for electrons, between what is in Space around Earth, and the ground. We can create static electricity and discharge it to the ground. Electricity is Energy, Electronics uses that Energy, to run a circuit used in electronic devices.

Newton said he discovered Calculus in the artwork of the Torah before the 4th century, or the Book of Sin, as Newton put it. This is the reason that Newton laughed at Gottfried Leibniz for insisting he invented Calculus before Newton did; knowing Newton only created his formulas.

That is a Trinary waveform, which is the same as our brainwaves, or electricity. That is a 3-dimensional waveform. The function of $(+1) + (-1) = 0$, and the integral function from calculus; the function of $\pm f(x)=0$. Describes 3-dimensional math and waveforms. Match the dots to see it.

3 dimensional waveform math.

3 dimensional waveform in 2 dimensions.

This math is easier to understand looking at the next image, it puts ground in the center, and positive and negative will orbit it. I have a positive on the left side, and a negative on the right, with ground in the middle.

Graph ending at -1.

If we think about a child's toy known as a Slinky, we can understand that if we start at +1. And go through the ground, which is not the same path, positive or negative, takes. As proof, energy does not travel through a wire; it travels around it. When ground, the space collapses to the center of the path positive or negative takes. If you stretch out the Slinky, you can see the pattern that electricity takes.

Slinky.

Electricity will travel through different materials, differently; because of the arrangement of Protons and Neutrons. For example, if I look up copper, I will find it has 29 protons and 36 neutrons. It has 3 shells, and 1 free valance. The first shell has 2 electrons. The second shell has 8 electrons, and the third shell has 18 electrons. It has one free valance that has one electron, for 29 electrons.

Silver has an atomic weight of 47. This means it has 47 Protons. The number of Neutrons depends on its Isotope. There are two isotopes, Silver-107, and Silver-109; the numbers correspond to the atomic weight. If silver has no charge, it has 47 neutrons; if you charge it, 107 has 60 neutrons, and 109 has 62 neutrons. The oxidation level determines how many valances silver has.

The Proton has a positive charge, and the Neutron has a negative charge; and are inside a Nucleus. It will have a variable number of Shells and Valances orbiting rings, and electrons that have a negative charge.

Element.

Every Element will have different electrical properties based on the number of Protons, and Neutrons; as well as the number of Shell rings and Valance Rings.

The Nucleus contains a proton, and maybe a neutron, or a combination of the two. Shell rings create a stable structure, with the number of electrons orbiting them. The Valance ring binds the Element to other elements.

Electricity and Electronics use a lot of symbols to identify things, and numbers are a subject that most people never learned. So let us look at how we create numbers. We start with 0; it has no angles, so we say it has 0 angles. 1 has one angle, so let me show you an illustration.

Numbers with angles.

If you never knew this, you never took numbers at a University. I will not be explaining all the symbols for electricity; that would be boring, and you would learn nothing. This form of writing is over 6 thousand years old, and the Torah has all these symbols in it, on the exact page; it defines God as all Light, so I had to bring this up.

People that believe we are more advanced now than in history have never been to or seen the Great Pyramid.

Ancient Egyptian gold wall Art.

I see a picture of a Helicopter, Speed Boat, Spacecraft, and a Train. And I know we cannot build the Great Pyramid. This proves there was a catastrophic event in history that wiped those people off the planet; and the End of Time is that event.

Inside the Great Pyramid, they have an image of an electric light.

Ancient Egyptian light.

This Great Pyramid was a power planet. It could take in seawater, and break it down into Oxygen and Hydrogen, to make electricity and pure water.

Someone built one, and it works (booksfact.com).

Baghdad Battery ([Wikipedia](https://en.wikipedia.org)).

Great Pyramid of Khufu (Cheops), Giza, Egypt

Great Pyramid Power plant.

We design Trinary Sanctuary as a Pyramid, and a power plant. It will use a vacuum. That we achieved by building an airshaft thousands of feet high, the differential in pressure will drive wind turbines.

The history behind the Great Pyramid is told by people who have no clue, and believe the Graffiti on the walls, and desecration of the Pyramid for Kings Tombs. That proves people do not care about the truth. There is no other explanation for the construction, and I am only talking about the Great Pyramid.

Fossil fuel is a lie. Fossils do not produce Oil of that type or in the quantity it is being pumped out. But if you knew the planet produced it to lubricate the continental plates, and that without it, you would have Earthquakes; few would allow it to be used; as a result; we have major Earthquakes near drilling locations. It cools down Earth,

which will lead to a Nova. The pollution it puts out is proof that people are out of control. We know about the damage oil does to the ocean, and wildlife, proving people do not care, and will allow Money to rule this planet.

I can talk about other power plants, like Thermal, that cool down the planet, leading to a nova. I can point out they can cause earthquakes. The topics are endless, so I will not go down rabbit holes; instead, I will talk about solutions to pollution, and the energy requirements for a nation.

The only way the world will ever change how it creates energy is Trinary Sanctuary; otherwise, people will continue to destroy the planet for Money. Trinary Sanctuary is a project where people work for free, so money cannot corrupt those working there.

The power plant for Trinary Sanctuary is a vacuum created by air shafts that are thousands of feet tall. We will design a new type of wind generators. These will use wind and vibrations to make electricity.

After 2061, or the End of Time in 2103, the Earth will freeze most of the bodies of water around the world; dams will break because of this, so hydroelectric is out of the question. Most power plants will not survive.

We will not use atomic power in Trinary Sanctuary, besides having to deal with radioactive waste and atomic accidents; it is just water to steam generator.

Trinary is a prefix, by itself symbolizes all the aspects of it, and Trinary Sanctuary is a concept of building a power plant that can provide for everyone; and for free, so we are not buying and selling Souls.

I have issues with concepts like Atomic Fission or Fusion, because I have studied it, and it is not what is taking place. Those concepts are flawed because they use Einsteinian Science. The process that is taking place is atomic decay. Fission means the same thing up to a point,

because it implies you can fuse atoms, which is not possible, as far as I have been able to test. My testing comes down to other people's tests; I reevaluated them.

I showed the wind generator designs that are common nowadays in the image below.

major wind turbine types ([ResearchGate.net](https://www.researchgate.net))

The major wind turbine types include the propeller-type horizontal axis wind turbine (HAWT). Drag-based Savonius design and the lift-based Darrieus and H-rotor vertical-axis wind turbines (VAWTs).

The designs above are not suitable for an airshaft; you have wind flowing in a vertical direction, rather than horizontal. We can turn these designs on their side, and see which is more efficient, or design one that is.

We must acknowledge our Soul is electricity, and that we are using other people's Souls to power our devices; and that there are no alternatives at this point in technology. If I knew of an alternative form of energy, I would suggest it, but the earth uses our Souls to make the magnetosphere; thus, we cannot eliminate this. Soul-friendly use of electricity means it does not give out any neutrinos; thus, it is not destroying the electrons.

The Energy Information Administration says Electricity is both a basic part of nature and one of the most widely used forms of energy. "The electricity that we use is a secondary energy source because it is produced by converting primary sources of energy, such as coal; natural gas, nuclear energy, solar energy, and wind energy, into electrical power."

We know that Voltage is the pressure that is put on free electrons that cause them to flow as the Electromagnetic Force (EMF). The Ampere or Amp, defines the flow rate of electric current. The Ohm is the unit of resistance in a conductor. A watt is 1 amp at 1 volt, and we measure these in Kilowatts when talking about buying or selling Souls. Current is the flow of electricity, if it only flows in one direction, it is Direct Current (DC). If it flows in both directions, it is Alternating Current (AC).

When we talk about AC, we talk about how many phases it has; this means how many signals it has, that have different timing for peak-to-peak measurements.

Three phase sine wave (Wikipedia).

I define these terms so you are aware of them, but I am not teaching basic electricity; I want to teach the things we need to know about Trinary Electricity.

Common types of electronic components are; resistors, capacitors, inductors, diodes, LEDs, transistors, crystals and oscillators, relays, switches, ICs, and connectors. I will not be covering Electronics, but you should be familiar with what each component does.

Electronic circuits use logic gates; the following are a list: AND, OR, XOR, NOT, NAND, NOR and XNOR. Below

is a list I got from

<https://mathcenter.oxford.emory.edu/site/cs170/gates/>

	Output when AB is						
#	00	01	10	11	Symbolic Logical Description	Symbol	Name/Description
0	0	0	0	0	0		Always zero
1	0	0	0	1	A & B		AND
2	0	0	1	0	A & ~B		A and Not B
3	0	0	1	1	A		A
4	0	1	0	0	~A & B		B and Not A
5	0	1	0	1	B		B
6	0	1	1	0	(A & ~B) (~A & B)		XOR
7	0	1	1	1	A B		OR
8	1	0	0	0	~(A B)		NOR
9	1	0	0	1	(A & B) (~A & ~B)		XNOR
10	1	0	1	0	~B		Not B
11	1	0	1	1	A ~B		A or Not B

12	1	1	0	0	$\sim A$		Not A
13	1	1	0	1	$\sim A \mid B$		B or Not A
14	1	1	1	0	$\sim(A \ \& \ B)$		NAND
15	1	1	1	1	1		Always 1

You should know the logic gates, these are easy to learn once you understand what we use them for. We use logic symbols when we need to show that a specific input is required. For example, AND is a gate that uses the term we use for “and”, as in this, and that, you require both conditions to exist. OR is just like our “or”, as in this or that. The other gates are based on these two gates, so you only need to remember these two. The “NOT” symbol is! I was not shouting, “NOT” means to do the opposite.

When you are dealing with Electricity, always keep in mind it takes the path of the least resistance to get to ground. The logic gates allow us to set conditions. For example, if we turn on the oven, we need to turn on the fan, and we need one symbol to show this, so we use the AND symbol; and show and oven as a box, and a fan as 3 blades as input to the AND symbol.

Trinary Electricity and Electronics have more aspects than normal electricity and electronics; thus I have to show you the differences. If I had to teach either course, this would become a textbook.

According to the US Energy Information Administration; most of the nation’s electricity was generated by natural gas, nuclear energy, and coal in 2020. It also produced electricity from renewable sources such as wind; hydropower, solar power, biomass, and geothermal.

The way we produce electricity influences our environment. Natural Gas has to be mined, it leaves voids deep into the Earth that causes earthquakes. Coal pollutes, and CO₂ leading to global warming. Nuclear is God Bombs. That proves current technology is bad for Earth.

Electricity is a trillion dollar industry, proving people are Satanic. They charge around 16 cents per kilowatt. There is no way Satan will ever give up Money, or the buying and Selling of Souls.

If we look at the image below, we will see various brainwaves, mainstream defines the states.

Delta waves are the slowest recorded brain waves in human beings. They find them most often in infants and young children, and are associated with the deepest levels of relaxation and restorative; healing sleep. We prominently see delta in brain injuries, learning problems, inability to think, and severe ADHD.

We see Theta in connection with creativity, intuition, daydreaming, and fantasizing. And is a repository for memories, emotions, sensations. Theta waves are powerful during internal focus, meditation, prayer, and spiritual awareness.

Alpha waves usually occur when you are engaged in activities such as daydreaming; meditating or practicing mindfulness. Research suggests that this type of brain wave may play a role in reducing symptoms of depression and improving creativity.

Beta brainwaves are the 2nd fastest type of brain frequency and most accurately associated with the engaged brain. You will probably display Beta brainwaves when solving complex math problems or a puzzle.

We consider a gamma wave to be the fastest brain activity. It is in control of cognitive functioning, learning, memory, and information processing.

Brainwaves (RewiringTinnitus).

Our brainwaves are electrical signals, the same as Electricity, proving it is our Soul. Regardless of what anyone will tell you, the truth is what we can prove. When people die from a heart attack, medical personnel can use a defibrillator to restart their heart; proving electricity makes us alive. A wire that has electricity flowing through it is alive, and a computer that will not power up is dead.

Gravity

Sir Isaac Newton said God was the Force of Gravity; and he did not say that to honor God, but to acknowledge God is all Light without Darkness, found inside all the Atoms in the Universe. Let us look at the math Newton used to calculate the force of gravity.

The force of Gravity is $F = MA$, where M is mass, and A is the Acceleration of the Neutrino Particles that make up the Atoms. To find the Gravitational Force, we need to use:

$$F = \frac{G M_1 M_2}{D^2}$$

Universal Force of Gravity

Multiply G by M_1 and M_2 , which are the two masses in question, divided by the distance between them squared. D^2 is the same as r^2 .

$F = G$, which is the gravitational constant:

$$(6.6743 \pm 0.00015) \times 10^{-11} \text{ m}^3 \text{ kg}^{-1} \text{ s}^{-2}$$

$$6.67408 \times 10^{-11} \text{ m}^3 \text{ kg}^{-1} \text{ s}^{-2}$$

$$G = 6.673 \times 10^{-11} \text{ m}^3 / \text{s}^2 \text{ kg}$$

or

$$G = 6.666 \times 10^{-11} \text{ Newtons} \times \text{m}^2 / \text{kg}^2$$

Where N or Newtons is $1 \text{ kg} \times \text{m/s}^2$, m is meters, and kg is Kilograms.

The exact number for that constant is always in flux, people thinking they can improve its accuracy. I used 6.666, which rounds to 6.67 as a Gravitational constant. Numbers like 6.6743, 6.67408, and 6.673, are the surface constants at various locations. Therefore are not as exact at the Core of a Trinary Engine; so, I use the whole number to prove it is the Core Frequency of Earth. Now I need to get you to understand this.

The Universal Gravity Constant is not my focus; all anyone needs to know is how to use the formula, and there are textbooks on that subject. What I want to teach you is how Gravity works, using math and illustrations.

The Mass is Atoms, which implies Protons and Neutrons, held together by Electrons.

When you are talking about falling bodies in our atmosphere, while we have full gravity, meaning 1 positive gravity, which is normal gravity. Objects will fall at a rate of **9.80666 m/s/s**; for meters per second, per second. The formula is **g = 9.80666 m/s²**, which is meters per second squared. If we fall 10 feet, we will hit the ground at around 17 miles an hour. At 90 feet, we achieve a terminal velocity of around 120 miles per hour.

What we need to know is what causes it, and that is Electromagnetic force, and the Static Light inside our Atoms. I told this to a University Professor, and they laughed at me, saying we cannot pick up people with a magnet, but that is not true; you just have to have the right magnet, like Earth. The Light is the Stronger force.

Everything I know of on Earth has Carbon in it. When we look at atomic numbers for 3, 6, and 9, we find 3 is Lithium, 6 is Carbon, and 9 is Fluorine; you might not see a connection, so let me make one. Lithium is what they used to make batteries; it has a lot of potential. Life on Earth is Carbon based. And Fluorine is a Halogen Gas.

Tesla said, “If you only knew the magnificence of the 3, 6 and 9, then you would have a key to the universe.”

We know these 3 elements have a strange magnetic property. For example, Carbon is a diamagnetic, yet like the others, it will align magnetically. If the carbon in our bones, or iron in our blood, was magnetic, we would die. Having researched some of the 3, 6 and 9 possibilities, this one made me understand it is not being magnetic that matters; it is acknowledging it exists that does.

Our Magnetosphere is the Magnetic, and its Magnetic Flux is in the space above us. It is the Father; the Son is the negative one; they toggle back and forth. The

real action comes from the ground, which is the Holy Ghost Spirit of Mother Nature. The Earth is Ground, this means all energy flows from Earth, into Heaven above.

Imagine the World as an Electromagnetic ball; half of it is a Horseshoe Magnet. The physical poles are the magnet, and the north magnetic pole is the Magnets Flux. Iron filings, a sheet of paper, and a magnet you can move under it, is all you need to know. We know it is just an excess of electrons. The Earth is Neutral in Magnetic energy; this is the reason there is no acceleration past terminal velocity. The Earth is a gigantic magnet, but all its electromagnet force is being projected 666 miles out into space around Earth, and when iron does not stick to the Earth; which is why I brought up diamagnetic, which is a weak magnetic attraction, and the key to the Universe, this is the power of 3, 6, and 9. Our Earth has 3 sets of 3 valance rings; this is the Vortex Engine at work. The Earth is a machine that pumps electrons 666 miles into space, then sucks them back in, and that is Gravity, because of the Light in Atoms. If you did not understand this last paragraph, I will try to break it down better. I talked about Light and Darkness; we know they are polarities. Light is Positive Matter; Darkness is Negative Antimatter.

Ground is Light, Space is Darkness; it is as easy as that to understand Gravity. The Light is causing the Force of Gravity; that Light is inside the Electrons that bind every atom in our Body, as well as everything; it is an attraction.

Trinary Math proves there are 3 sets of 3 Power Ring for every Trinary Engine. This regulates the orbital speed around our Galaxy, for example, setting the lower average speed of 333,000 miles per hour, and an upper average speed of 666,666 miles per hour.

The first set of Power Ring, which we call Valances if around a Trinary Atom, is where the electrons orbit to make an electromagnetic force field. It is .666 miles above the surface of Earth and has a frequency of 6.66 Hz, a multiple, and that pattern follows. We can convert frequency into distance, and wavelength drives the speed property.

At the equator, Earth's average size is around 7,926.2109 miles in diameter; but at high tide it is around 7,933. That is a radius of 3,966.5, so its circumferences are around 3,966.5; this is the math:

$$3966.5 \times 2\pi = 24,922.2 \text{ miles}$$

That is the wavelength, the frequency is **7.475 Hz**.

At 66.6 miles from the surface, we have 7,999 miles, a radius of 3,999.5, doing some math:

$$3,999.5 \times 2\pi = 25,129.599636$$

The wavelength, the frequency is **7.413 Hz**.

These are called physical properties. We have an atmosphere; the reason we have it is that of the above properties. After the atmosphere exists, it builds up gasses. Halogen Gas is from Fluorine, part of the 3, 6, and 9, and we know how it reacts to frequencies. We know when a frequency encounters Fluorine, its frequency will be lower, because the gass will use up some of its energy.

These are called these atmospheric properties. We must use the entire set of elements in the periodic table

when we need to look at Earth, because we know all of them exist here; and we know at what altitudes they exist.

What I am about to show you is Trinity Math, I call Trinary Math. It comes from the Torah in the 2nd or 3rd century, in the border artwork, on the page where they define God as all Light without Darkness. This same page has $(+1) + (-1) = 0$ written on it, and the numbers 666, 66.6, and 6.66. This is the Torah code Brahe, Kepler, Newton, and Tesla talked about. There was a drawing of the Earth with a set of 3 rings that the Church removed, saying it was a pagan belief. It had another drawing of Earth with 6.66 in it. This was the only depiction in the Torah of anything with a Halo around it; and this is what I will illustrate below.

6.66 Hz

Core Frequency of 6.66 Hz.

Three sets of three Rings, I call Power Ring, or Valance Ring. The first set, ring 1, is .666 miles are very close to Earth, so we know its physical frequency of around 7.4 Hz is close. This shows how much our Atmosphere interacts with its frequencies. Each set overlaps the other, ring 3 goes from our Magnetosphere, to just outside the Moon, and what keeps it in orbit around the Earth, the last one is 666 miles from Earth. The frequencies of each ring will get smaller the farther from Earth it gets.

First, second and third set of 3 Power Ring.

If someone showed you a model of gravity, it was wrong on so many levels; it is funny. First Einstein removed God. Therefore, there is no Light or Darkness in this Alternate Universe in an Alternate Reality, which is screaming at you, this is not our Universe or Reality. This means there are no atoms, because we know God makes them from Light without Darkness. Both his theories have Light as Dynamic, knowing Light has no acceleration, yet they want us to believe Space can bend. The fact he cannot decide if the Universe is Static or Dynamic, you know, this is stuff he made up with nothing to back his claims, except empty-space; because that is all that exists.

Einstein Space-time continuum warp.

I have to make sure that you understand you cannot mix any Science with Newtonian or Trinary Science. Space has no quality other than dimensions; and there are only the 0, 1st, 2nd, and 3rd dimensions. Planet Lensing explains this condition that affects telescopes, but space does not bend around a planet, that is unreasonable. Atoms have

Light inside them; therefore, they do not bend Space. You need evidence to prove what you say, but Space has no properties that allow it to bend, or we could bend space, or do only fat people bend space; Einstein was so insensitive.

The physical size of a Trinary Engine can determine the surrounding gravity, and I showed you the math how to do this, so we know the Math works; and we should understand that is how Gravity works.

The Torah talks a lot about the number 666, and Trinary Math uses the three levels of it, be it the average speed of the Sun as it orbits the Galaxy. With a maximum speed of 666,666 miles per hour; and minimum speed of 333,333 miles per hour. Our Earth orbits our Sun at an average speed of 66,666 miles per hour. Therefore, I would say the Torah is right; but all people know is Religion.

Gravity causes our Sun to move. The Light is static, so the Light inside the Atom is Static. The Neutrinos of the Atoms move, but not the Light inside them; it moves with the Universe; dragging the Sun through space. This is the same effect as a falling body, and why we have no acceleration after Terminal velocity of 90 feet.

I have proven what gravity is using the Force of God as Gravity, proving Sir Isaac Newton was right about his math, only I need to show you how it works; so here we go.

Using the Universal Gravity formula below, we derive the constant for the big letter G from the first set of power rings; 6.66 Hz, is where that number comes from.

$$F = \frac{G M_1 M_2}{D^2}$$

$$G = 6.666 \times 10^{-11} \text{ Newtons} \times \text{m}^2 / \text{kg}^2$$

I showed you Newton's way to calculate G. We know M_1 and M_2 , are the Masses of two objects, like Earth and the Moon, and I will use Earth's radius of 3,999.5 miles; convert that to meters is 6,436 km. The Moon's radius is

1,737 km. The distance from Earth to the Moon is 384,000 km. Earth's mass is 5.972×10^{24} kg; the Moon's mass is 7.342×10^{22} kg. To calculate the distance of D, it will be the Earth's radius plus the Moon's radius plus the distance between the Earth and the Moon:

$$6,436 \text{ km} + 1,737 \text{ km} + 384,000 \text{ km} = 392,173 \text{ km.}$$

Then we have to convert from kilometers to meters:

$$392,173 \text{ km} \times 1000 \frac{\text{m}}{\text{km}} = 392,173,000 \text{ m.}$$

$$F = \frac{(6.666 \times 10^{-11} \text{ N} \cdot \text{m}^2/\text{kg}^2) \times 5.97 \times 1,024 \text{ kg} \times 7.35 \times 1,022 \text{ kg}}{(392,173,000 \text{ m})^2}$$
$$\approx 1.90 \times 10^{20} \text{ newtons.}$$

Not something most people can remember, but if you know this is right, then it proves the concept is right. I hope I made the math clear, because it is the proof.

I know from people reading my work that only half the people that read this chapter will get it; so I will try to explain this without Math; in case you did not get the math.

The Earth is a huge Atom I call a Trinary Engine. Without this concept, I cannot explain how the Earth works, because it must act like an Atom; regardless of how many we have, it acts like one. People can debate if it is one Atom, or many, the math works the same. I cannot see the core of any planet, or moon, and we can hardly see Stars, compared to how we see our Sun.

The Universe is Dynamic and moves in all directions, and not just one; as proof, a flashlight is used to flash light in any direction. The Light is static, so we can map out the Universe, and know Light will go anywhere. The Sun moves because the vacuum of Space must move around it. This is like putting your hand on moving water. If you are not moving, you are like the Light, everything has to move around your hand, it cannot go through it. That causes

friction, we call this the Solar Wind, even though it is a vacuum, and there is no wind.

The surface of the Sun is being hit by Space, and all the debris in it, this causes them to burn. Because the Sun is moving at a maximum speed of 666,666 miles per hour based on a frequency of 666 Hz. Currently, it is moving slower, and is speeding up or slowing down; to a minimum speed of 333,333 miles per hour.

That implies that nothing can travel at those speeds. And that means this is beyond our capabilities. The fastest that we can travel through space safely; is around how fast Earth orbits the Sun. Which is an average speed of 66,666 miles per hour, and that has a minimum as well. That proves that light travel is Science Fiction.

The Earth orbits the Sun according to the laws of Electricity and Electronics. We have a core frequency of 6.66 Hz that drives the Earth to orbit the Sun at 66,666 miles per hour. We orbit the Sun sideways, as it moves forward in the Universe. This implies that the Sun's forces field extends beyond all the objects that orbit it.

Take the example of the Slinky coil, in the image below; add that to the middle image. Which is how electricity travels like a Slinky around the Galaxy on the right. The Sun moves forward as seen below.

Solar System is flying sideways.

Now imagine the Solar System, which is our world, flying through space. The rings represent 3 sets of 3 rings, for 9 rings, even if you do not want to count Pluto as a planet; it still hangs out at the far reaches of Gravity from the Sun. The only way to explain this type of Gravity, is Trinary Engines. The 3 sets of 3 power rings are just like a valance, so this implies they exist; they behave that way.

The power rings on Earth give us an Atmosphere that we can breathe, and this cannot be by accident; it was intelligence; like that I am using to write this book, you are using to read it. The Sun's power rings are so powerful that our World orbits parallel to the Sun; we are flying sideways. And if centrifugal forces had anything to do with it, there would not be a Universe. Common sense teaches us that God exists as Light. Therefore, God created the Universe. The power rings prove they exist, because without them, I could not prove they exist.

Trinary God is the Force of Trinary Gravity, and Trinary God is the Trinary Light, so the Trinary Light is the Force of Trinary Gravity; and that Trinary Light is inside of Trinary Atoms and Trinary Engines. Therefore, Trinary is the answer to everything, because it is about Light, and Light is everything, Tesla proved that.

Did Newton have this apple idea? (simply.science).

Reading Newton's notes, I got the idea that the Apple falling from a Tree never happened. The confusion came when the Newspapers printed that legend, and Newton liked the concept, and let it ride.

Sir Isaac Newton never had sex in his life, that is what he told someone prior to his death. People make up stories about him based on letters he wrote to friends. Newton was autistic in the high functioning spectrum of autism, having it, I know what he was talking about; he loved his friends, as do I, but I am not gay, and Newton never had sex, not even with himself; which is what he said as his last notes for humanity. Newton would overwhelm some of his friends, talking their heads off; some enjoyed it more than others, but that is life. To each their own. Halley loved to listen to Newton, and why their relationship lasted so long. Edmond Halley wrote, and printed, Newton's books; he also figured out the Earth's magnetic strength is decaying. He sailed the open seas to take magnetic reading all over the world, where others have not documented it. Therefore, it was Halley who discovered the readings in the ship's logs dating back to the days of Jesus Bar Abbas; who was the only Jesus that existed in the Torah before the 4th century, and the only one found in

history. Newton wrote Jesus was born under Christ the Star. Newton said he was Jesus Bar Abbas coming back in the Flesh; then he wrote a list of 3 items.

1. Christ.
2. Mary was the Mother of Jesus.
3. The name Flesh.

Christ was the Star we call Sirius, and in Newton's lifetime, they changed his birthday from 25 December 1642, to 14 January, then they removed 10 days, making it 4 January. Newton knew he only met one of the 3 signs everyone knows about. Flesh was a name, and not a generic term. The Torah from the second century was in an ancient Chinese language; and names are very pronounced in that language. I was born on 14 January, that is the date when the Great Pyramid aligns with Sirius, my mother's name was Mary; and my name is Flesh.

Tesla wrote about this also, saying Flesh is a name, otherwise anyone can be the Resurrection of a Soul; but said it would negate being born on Christ's day, or Sirius's day for me. As far as I know, I am the only one since Tesla to believe in Newtonian science.

Kepler, Newton, Halley, and Tesla all believed God was the force of Gravity. I proved God is all Light without Darkness you find inside atoms; that make up the Mass in $F = MA$. Then I proved $E = MA^2$. And I create Trinary Math to define the Fire Frequency as an offset in potential energy $E = F - (F - x)$. The Trinary Math I created to calculate where you can find livable planets; should be useful.

I explained to you what Trinary, Trinary Light, Trinary Elements, Trinary Atoms and Trinary Engines are about; which is Gravity. There is no way for me to know about Jesus Bar Abbas, then from the Torah, that is the Military, and Militia in me. I resurrect the Torah, to teach Trinary. I

want to make one more concept clear; before talking about the Universe, and that is which way is it moving.

Galaxy Rotation

If we look at the image above, we can see the Galaxy rotation is opposite of the way the Universe is moving; keep in mind this will always be true, no matter what direction the Galaxy is rotating. Earth will always move in the same direction the Galaxy is rotating it.

The Earth is a large Atom, and it is bound to the Sun that is bound to the Galaxy, and must orbit it at the pace it sets. The Trinary Engine has a shell of Neutrino particles; with Light inside it that is static. That Light will resist moving, causing friction. The Earth is orbiting the Sun, that is orbiting the Galaxy. Remember the image below, it is the Earth orbiting the Sun sideways as it orbits the Galaxy; I

would expect the Universe is traveling at us sideways. That resistance keeps us falling at terminal velocity. If Light was not static, that would not be possible.

Planets orbiting the Sun.

My job as Jesus in the Flesh was to explain this with Math, and with illustrations; based on facts, with only my Theory about Trinary, that I used to prove that this is the way everything works. And it is just Trinity from the Torah; and that was the Truth until the fourth century. I am just the Messenger; nothing more, and nothing less; I am not the only one; we have Newton.

I explained Gravity; I hope you understood it. It is proof that God is the Force of Gravity, using the work of the Torah, Brahe, Kepler, Newton, Tesla, Levitt, and myself. Since Trinary Engines are my concept that I learned from the Torah. I named it Trinary instead of Trinity, but the two terms are interchangeable, as long as Christ is the Binary Star Sirius; and refers to when it aligns with the Great Pyramid. That date is the End of Time each year.

Universe

The Universe is a vast subject, and I can only hit the highlights. Before the Trinary Universe, the Universe that most people believed in, was not our Universe. Instead, it was Einstein's Alternate Universe in an Alternate Reality. People who believed did not believe in God, who is Light without Darkness, which we know exists.

Our Universe is everything we can see, and everything we cannot see at the same time. The Universe is not complex; the Trinary math formula that describes it is $(+1) + (-1) = 0$. Which is both a Truth Table and a function you can graph to show a sine wave.

State	Trinity	Dimension(s)	Visibility	Graph												
				1	2	3	4	5	6	7	8	9	10	11	12	13
(+1)	Father	ALL 3	Solid	*			*			*			*			*
0	Mother or Ghost	0	Invisible		*	*	*			*		*		*		*
(-1)	Son	1 or 2	Semisolid		*			*					*			*
Time frame				1	2	3	4	5	6	7	8	9	10	11	12	13

Trinity or Trinary Math graph of $(+1) + (-1) = 0$

That describes the Electricity they found in the artwork on the border of the Pages in the Torah. The Bible removed them, making that book worthless.

This one formula governs our Galaxy, Sun, Planets, and Moons.

The math behind Orbits is $(+1) + (-1) = 0$

Notice this pattern of a "Figure 8" that describes how our Sun orbits around our Galaxy. We have a Dark Star

that sits in the middle of the Galactic Disk. It is too small to see because it is so far away, but if you send a probe, you will find it. You know you found it when you find a Negative Dark Star; it is small compared to a Positive Star, like our Sun. Sirius is a Binary Star; one is Positive, one is Negative, and is what keeps us going around the Galaxy. It is called a Trinary System, containing a Binary Star, and a Sun, which is a Positive Star; meaning a Father Star.

Path of Sun around the Galaxy.

The path the sun takes around the galaxy is in a spiral, or coil, like a slinky. I exaggerated it to show the features of how the Trinary system works. We have our Sun Raw, and the Binary Star Sirius, a Dark Star, and its Dark Star Companions.

The Dark Star Companions are what the Torah call Angels. God, and Satan, being an Angel, is Religion, because God is all Light, and Satan is the person who lies. There are Positive Angels; we call them Galaxies. Such that the Galaxy is a Positive Star, but it also has a Negative Star or Dark Star. The Galaxy is not one entity; it is a cluster of Trinary Engines, with Positive and Negative Stars. The Torah talks about Angels coming down to Earth as Ball Lightning, which are small Trinary Engines that have an excess of Electrons.

God is all Light without Darkness. Therefore, God is everything, because God made everything out of Light, because that Light is inside all the Atoms.

A Star or Sun is a special type of Trinary Engine, and we can relate it to atoms. The more atoms you have clustered together, the more mass they have, and thus, the more Gravity they can exert. The Positive Stars can attract objects in space and pull them in, whereas Negative Stars can push objects away; thus a Positive Start is Matter, and a Dark Star is Antimatter, and how Matter works.

A Galaxy contains more Positive Stars than Negative Stars. The Stars can move around to reconfigure themselves, so make major changes within the Galaxy. You can look at one Galaxy that is bright and say that it is a Positive Galaxy. But a few million years later it could be dark, and we now call it a Dark Galaxy. But do not call it a Blackhole, that is ignorant; it describes Gravity as being able to bend the Light back into itself, which is impossible; because God is the Force of Gravity, therefore, it is Light.

Matter means Positive Light energy, Antimatter means Negative Dark energy. If we look at the image below, it shows the Dark at the top of the Magnet, or Earth, this is the South Pole, or North magnetic Pole.

Trinary Atom or Trinary Engine.

A Trinary Atom is what we call Atoms. Yet I have to define them with the prefix Trinary to specify they are Light without Darkness covered by Neutrino particles. There are 3 types of Atoms: Proton, Neutron, and Electron, and to make it easy, I will always say Electron, but if I say Atom, I am talking about the Proton and Neutron. The reason is simple; most people consider the Proton and Neutron to be

atoms, and then we have an Electron; whereas they are all atoms in Trinary Science; yet the Electron is not the same because it binds the Proton and Neutron.

Matter is Light positive Mass, Antimatter is Dark negative Mass. You can separate Light and Dark energy, and if God does, so can we. That implies we can make atoms, because we can. All we need is the vacuum of space, and then we need to get the Light without Darkness, to attract the Neutrinos; that is how God does it.

I wrote Trinary Math to describe how you can take the size of a Galaxy and break it down into Tracks, like an ancient Record Player. If that was before your time, it had a flat disk with grooves that had an arm with a needle in it; they used it to play music. The Galaxy sets the linear pace for all Suns. Suns travel at the same rate around the Galaxy, but not at the same speed. According to a woman named Henrietta Swan Leavitt, who discovered this while working for Hubble, back before she died in 1921. This discovery proved that our Planet does not Orbit the Sun because of the Centrifugal Forces that Einstein's Theory stated existed. Since we do not live in an Alternate Reality, it never applied to our Universe. There is no need to mention that, but it is amusing how people believe in theories, but will not believe in the Truth. Because they may hold whatever opinions they choose to; meaning they cannot learn new concepts, or in this case, old ones.

Leavitt proved our Universe is not expanding. If it was, it would have disappeared already. That would destroy the work Hubble did, so he discredited her as being a Female; back in a time when they just allowed women to vote. That is the reason I know I cannot teach Science by teaching everything it is not, and that is Mainstream Science. If you believed God did not exist, understand that

Light without Darkness exists. If you understood what I had to say about the Universe, which is nothing new, it was the same way that Kepler, Newton, and Tesla described it. Even Einstein denounced his theories in favor of Newton's God as the Force of Gravity. Yet Mainstream Science is based on denounced Theories.

Suns orbiting the Galaxy.

I took an image of a bar galaxy and turned it in a few directions. We both know I cannot take pictures of it in these positions; that would take millions of years. I picked two Suns, ours and our sister Sun. The top image shows you where the Sun will be from different angles the bar gets into. In frame 1, we have the bar in the vertical position. As we transition into the second frame, we can see the dust clouds you see as clusters of Stars. The Suns or Stars do not travel around those; they are nebula clouds. I should state that our Sun is someone else's Star. Levitt said the Stars travel at the same rate, but not speed.

Planets orbiting the Sun.

In frame 1, we see the planets all lined up, ready to go. Frame 2 is when Mars gets to its 90° point. As you progress through the frames, you see the racing order.

That proves that centrifugal forces have nothing to do with gravity. If it did, the Stars would follow the same rules. So why one rule for the Galaxy, and another rule for our World, or our Sun, and all the stuff orbiting it.

The Sun has to protect all the stuff orbiting it; this implies intelligence. Our Galaxy determines the rules for how long our day is, or any other planet that is inhabitable. That means if you find another inhabitable planet in our solar system, it will be on track 666. And it will have a Sun the same size as ours, and a planet the same size as ours; that is how limited humans are. This Trinary Math is based on accumulative math I will get into shortly.

If Trinary Math explains anything, it explains everything. But that type of function is hard to read. And harder for most normal people to understand. So. I will try my best to explain how I wrote a function that explains how our Universe works mathematically.

I will have variables I used to simplify this. This type of math is called accumulative; you run it in a loop based on the number of tracks you want to record. I only talk about our World.

Newton's Constant for Earth's Atmospheric Density (AD) is based on Torr, and Earth has a value of 73.120284. The Atmospheric Pressure Index (API) acts as a dampener for the Core Frequency. Causing it to expand at a known Rate based on its Size. Torr is a unit of pressure based on an absolute scale defined as $1/760$. We need to calculate the Atmospheric Pressure (AP).

$$AP = AD \times Torr$$

$$AP = 73.120284 \times (1/760) \approx 0.0962109$$

Trinary Marker, or TM = 137, is the maximum number of connection points around an Atom, or Trinary Engine, such that TM is $1/_{137} = 0.0072992700729$.

List of all Ring Force Fields

Galaxy Rings:

RingGalaxy1 = 0.0000000000000001

RingGalaxy2 = 0.0000000000000001

RingGalaxy3 = 0.0000000000000001

Sun Rings:

RingSun1 = 0.00001

RingSun2 = 0.0001

RingSun3 = 0.001

Planet Rings:

RingPlanet1 = 0.0001

RingPlanet2 = 0.001

RingPlanet3 = 0.01

Moons Rings:

RingMoon1 = 0.001

RingMoon2 = 0.01

RingMoon3 = 0.1

We have 3 Rings around a livable planet; each Ring has a multiplier. I need to use the Second Rings multiplier.

RingPlanet2 = 0.001

The Livable Planet Ring Frequency, or PlanetRingFreq, uses the Atmospheric Pressure; this is based on Planet Earth's size, 7926.2109, as LivePlanetSize.

LivePlanetSize \times RingPlanet2 - AP

PlanetRingFreq = $7926.2109 \times 0.001 - AP = 7.830$ Hz

The Ring Frequency of the Second Ring is **7.830 Hz**.

We must use an error rate to fix accumulative errors. That is based on how much Precession a Sun can have based on its Size Ratio derived by measuring the tops at

various sizes. Observation makes this process and calculating the average size. I will call this the Constant Precession Rate, or CPR; this is a constant in Newton's work, based on our Sun.

CPR = 324.540503

SunSize = 864,575.9

GalaxyRadius = 241,828,072,282,107.5071453596951

PI = 3.14159265359

MinErrorRate starts at 0, and increases.

Precession-Rate or PR is based on our Sun.

PR = $\frac{\text{SunSize}}{\text{CPR}}$

PR = $\frac{864,575.9}{324.540503} = 2664$

MaxErrorRate = PR

The MaxIteration = SunSize $\times \frac{\text{TM}}{3}$

864,575.9 $\times \left(\frac{1}{137}\right)/3$ Phases = Max Iteration in years

The Sun changes polarity 10 - 11 (0 - 9) times a Century: **100 - 9 = 91**

2103 - 42 = 2061, what we want is 2103 - 91 = 2012.

The AveIteration is based on Suns Magnetic Polarity Reversals

AveIteration = MaxIteration - 91

MinIteration is Based on Max Min of Magnetic Fields from Newton

MinIteration = MaxIteration - 1104

I hard-coded the date. So, I did not need Error Rate: Adds down to 6.

Now you need to create a loop to look at each track.

OrbitDist = GalaxyRadius \times TrackNumber $\times 2 \times \text{PI}$

TrinaryEngines = -333, this will increase as it loops. Trackengines are used to increase this number by 1 for each loop.

MaxSpeed = AveIteration \times TrackEngines + MaxErrorRate

MinSpeed = MinIteration \times TrackEngines - MinErrorRate

PlanetFrequency = MaxSpeed \times RingSun1

TotalTracks = TrinaryEngines $\times 2 \times 2 + 1$

Now we need to run this type of math in a loop.

Note this was bash; I cut stuff out to view it.

for (Track=0; Track < TotalTracks; Track++)

 OrbitDist = GalaxyRadius \times Track $\times 2 \times \text{PI}$

 MaxSpeed = AveIteration \times TrackEngines - MaxErrorRate

 MinSpeed = MinIteration \times TrackEngines + MinErrorRate

```
LpFrequency = MaxSpeed × RingSun1
TrackFreq = RingGalaxy3 × MinSpeed
TrackFreq =  $1 / \text{TrackFreq}$ 
echo Track
echo TrackEngines
echo MaxSpeed
echo MaxSpeed
echo MinSpeed
echo LpFrequency
echo OrbitDist
echo TrackFreq
# Increment Variables
TrackEngines++
MaxErrorRate++
MinErrorRate++
done
```

We are on Track 666, and have 333 Trinary Engines, traveling at a maximum speed of 666,666 Miles Per Hour. And a minimum speed of 333,333 Miles Per Hour. With a core Frequency of 6.666. With a surface frequency of 7.830 Hz. We have an Orbital Distance of 1,011,954,093,357,316,200 miles. And a track Frequency of 30,000,030 Hz, or 30 MHz.

You can use this math to calculate any Sun in any Galaxy. I wrote a bash script; it is on my GitHub account:

<https://github.com/Light-Wizzard/The-Principles-Of-The-Trinary-Universe/blob/master/makeappendix.a.sh>

I wrote two applications called Galaxy Calculator. One uses Qt Quick; the other is in Qt C++. You will find both on my GitHub account for the Light Wizzard.

This math might seem confusing to anyone that has never had to calculate the energy levels of a Galaxy, Sun, Planet, or Moon. I cannot write out the function; it is a

computer program that must run in a loop; you could do this by hand. But most people still cannot read computer code; this is for the Mathematician looking for a way to calculate the energy of the Universe, you need to know to use the math to do that.

I created this math over my lifetime, trying to write one function that will explain everything... Trinary Math is what I produced. All the math that applies to Electronics, or Electricity, applies to Trinary Math. The math calculates where you find a livable planet. Is based on the frequency all life requires and on the Rings of Power around the Trinary Engine, or Valance Rings if talking about Trinary Atoms. This math is used to calculate the End of Time. And how I verified what our Magnetic Decay Rate of around 5% a century, adds up. That is how I calculate Iterations, with a Minimum, Maximum, and Average date.

The Torah told us it would be 42 years from the maximum date of 2103 years from the start of the decay. Such that $2103 - 42 = 2061$, finding a faster way to calculate this date. That is based on the Sun. Which regulates when the Earth will have its cycle and only applies to Livable Planets, not ones that do not support life. That also means that Earth will not have a total reversal until the year 2103. Which is the year of regeneration, a full cycle. If you survive 2061, you still must survive 2103. Which is the end of the End of Time; this is when the Earth realigns its axis with the new complete pole reversals. I invented Trinary Math, with no help.

People who try to take Satan out of science are taking Science out of science. Because all Science begins with God, who is All Light without Darkness. Trinary Science is the Science of God and comes from the Torah. Yet, it is not a Religion. Instead, it is Science. Regardless of what people it taught, any Torah, or any Bible, defines God

as All Light without Darkness. Since all of something means 100% of it, we must all agree that is all God can be. That is all God needs to be, because that means God is the Light. And Satan is the Darkness inside of all the Atoms in the Universe. What you believe God or Satan is does not matter in Science. Because Science is Absolute, for example, God is all Light without Darkness is describing Electricity since it makes Light. Such that IAM, means that IAM God. Because God made all my Atoms with God inside them, as is the Universe. Brainwaves prove our Soul is Light and is an Electrical Sine wave. Proving beyond a Shadow of a Doubt; that God is Light. It made us of Light, proving we are “Light Beings.” Tesla.

The way things work at the subatomic level is the way things work. Regardless of how you want to explain this using a theory, the Universe does not need a theory to explain a fact. Learn Electronics and Electricity. And you know how the Universe works, according to those rules.

Any Science that is based on a Theory is Science Fiction. And it has nothing to do with our Science. So, remember that liars will remove a prefix, and a postfix, to fool you into becoming stupid. When talking about Science, I only want to talk about Trinary Science. Because it is based on Facts. A theory is not a way of explaining a fact; it is how people lie about them. I can sum up what Trinary Science is. So, you will understand what Science is. Which is what God is.

1. Trinary God is all Light without Darkness found inside Atoms.
2. The Force of Gravity is God because of the Light inside Atoms.
3. Light and Darkness is how God created the Universe.

The Universe does not care if we figure out how it works. But to lie about the Universe and get people to not believe in God is mad.

We have not talked about how Suns, Planets, and Moons that God creates near the center of the Galaxy. Then moved into place using Dark Star Companion Stars. Levitt, who died of cancer before completing her work, discovered this process. I wonder if my cancer will take me before I finish my work, which stops me from working on their work.

I would like to talk about how Galaxies, Suns, Planets, and Moons, are born. How they die, and how God reincarnates them. Just like people, it will use their energy. And they will remember being alive before. But most people forget about these experiences at an early age.

Every Generation believes they need a new science, and the reason Theory is so popular. People who believe Newton's Science is too old to use will not understand that Science never changes. But theories do, proving that they were never facts, and why everyone is so irrational.

The Universe is about protecting the resources you have; Money allowed that to be a commodity to plunder; and now that it is mostly gone, what will people do.

A magnetosphere is the region around a planet dominated by the planet's magnetic field. Other planets in our solar system have magnetospheres, but Earth has the strongest one of all the rocky planets. Earth's magnetosphere is a vast, comet-shaped bubble, which has played a crucial role in our planet's habitability. Life on Earth initially developed and continues to be sustained in this magnetic environment. The magnetosphere shields our planet from cosmic particle radiation. As well as erosion of the atmosphere by the solar wind; the constant flow of charged particles streaming off the Sun. Earth's magnetosphere is part of a dynamic; interconnected system that reacts to solar, planetary, and interstellar conditions. See image below.

Magnetosphere.

The convective motion of charged, molten iron generates it, far below the surface in Earth's core. Constant bombardment by the solar wind compresses the sun-facing side of our magnetic field. The sun-facing side, or dayside, extends a distance of about six to 10 times the radius of the Earth. The side of the magnetosphere facing away from the Sun, the nightside; stretches out into an immense magnetotail. Which fluctuates in length and can measure hundreds of Earth radii, far past the Moon's orbit at 60 Earth radii.

All Celestial Bodies that have a Magnetosphere have a Trinary Engine. A Trinary Engine regulates the Frequency of that object, and that regulates its rotational speed, and its orbital speed; as well as its Track. The Trinary Engine creates and maintains the Magnetosphere. And is also responsible for when it reverses polarity.

Earth's Magnetosphere is a Dynamic Electromagnetic Force Field. Trinary Engines Force Fields generate 3 sets of 3 valances that are Polarized. That means the Earth has Polarity, we call them North and South Poles. An Electromagnetic Force Field drives them. The Polarity shift has begun, and in 2061, the Field will Collapse. Venting some of our Atmosphere into the Vacuum of Space, until the Electromagnetic Force Field regains its strength.

The Magnetosphere also acts like a Force Field to large Objects like Asteroids or Comets, as well as smaller Meteorites or Micrometeorites. The atmosphere itself only adds friction, and that causes them to burn up.

I imagine when the Planet reverses poles, it will vent some of that Friction out into Space. And without a Force Field, they will bombard the Planet with Meteorites or Micrometeorites. Newton's math proves that God is the Force of Gravity. God is Light, so we are talking about the Magnetosphere; since it is just Electromagnetic Energy. And that is all Light is, so when the Planet reverses its poles, the Planet will also temporally lose Gravity. Until the Electromagnetic Force Field builds up, the Satellites will probably plummet to Earth.

I calculated this would take a minimum of 3.33 minutes. And that is a long time to go without a Magnetosphere. Another way I can calculate this is based on the Speed of the Planet around the Sun, and that is on average 66,666.666 Miles an Hour times 0.0001 means it will take a maximum of 6.66 minutes; thus a long time.

A Nebula (Latin for “fog”; plural. Nebulae, or nebulas) are an interstellar cloud of dust, hydrogen, helium, and other ionized gasses. Originally, a nebula was a name for any diffuse astronomical object, including Galaxies beyond the Milky Way. The Andromeda Galaxy, for instance, they refer to as the Andromeda Nebula. And spiral galaxies as “Spiral Nebulae”. Until the early 20th century, when Vesto Slipher; Edwin Hubble, and others, discovered the true nature of Galaxies.

The most common type of Galaxy is a Bar Galaxy. Below is an image of a one-armed Barred Galaxy. The Suns do not orbit around the arms; those are pockets of nebula gas that leave arms as the Galaxy spins on its axis, similar to how Earth spins on its axis every 24 hours. We

can calculate that spin using its rings of power. To calculate the Galaxy, we must know its diameter, and then multiply that by 0.0000000001; so we get:

$$483,656,144,564,215 \times 0.0000000001 = 48,365.614 \text{ miles per hour.}$$

One arm Barred Galaxy.

We can see Stars, and Nebula gasses that the Stars give out, much like our magnetosphere. The number of arms determines the age of the Galaxy, we live in Barred Galaxy that looks something like the image below.

Barred Galaxy.

The arms we see are where Suns, Planets, and Moons are born. The purpose of the bar is to hold Nebula gasses. That region of space is dense with gasses.

Pareidolia is a psychological phenomenon involving a stimulus from an image or a sound which is perceived as significant. I broke this type of Pattern Recognition down into 3 main parts. The first is the pattern itself, and the second is the object, and the third one is the significance. For example, I see a Dog in the clouds; we have the Dog patter, the Cloud, and I love Dogs, so that is the significance to me.

Pareidolia Syndrome is when a person with this condition views the world this way; to begin with, they perceive objects as patterns in their brain without even thinking about it. Because it is the normal way for them to think, because they think in terms of images and not words. So they assign meanings to each object like a human, dog, or any other object they encounter during the day. And assign different meanings to each object even though some of them are in the same category as dogs. I had 2 of them that died of Cancer weeks apart, and they are very different. And just like that, I assign meaning to every pattern I see. So things like Lightning patterns, Sun Spots, or Clouds, take on names and shapes and have a history as old as the Universe, as if they are telling you a story.

I know about this condition firsthand since I was born thinking like this. Although it is rare, it is more common with Autistic people. Whereas Neurotypical seem to have a hard time seeing patterns; the Pareidolias see. Even after we play a dot connecting or Charades game; only then to go along with the story that comes from attachments to the objects. The imagination takes over, and I can sit watching space for hours without even blinking; which is why this

behavior is more noted in people like me who have an Obsessive Compulsive Disorder (OCD).

Other traits I have include a Photographic Memory. But now that I have other health issues, this issue has become a problem. As it does with most that suffer from it, because it runs their life. It is not like hearing voices telling you to do things; it is more of a ritual. Because they can not stop doing it, and people that have Pareidolia Syndrome can not stop seeing patterns in things. I will show you a good example in the Universe. Below is Vela, and what I see is a human face with eyes, a nose, and a beard, all painted on a guitar.

Vela, the face of God on a Guitar.

The eye of God.

I see the eye of God like most people, but if I rotate it 45 degrees. I see a creature with its mouth open.

The Sun on 14 January 2012.

This image above is the Sun on my birthday in 2012. This is when our North Magnetic Pole began its journey. I see two eyes in the center, a face that is spitting out its tongue. I can see two or three creatures on its back. The meaning of this I attach to my dog; they always have a meaning to every pattern I see.

I know some can see it, while others cannot.

Pareidolia Syndrome is something that allowed me to see things in the Universe, that few thought about.

Below is an image that was created by Kepler during his work on the Harmony of the Universe, but he used musical notes. Tesla translated it into a vortex function in math. This is a musical scale, but not like the one you have ever seen. It has 7 lines, and like musical notation, it can go over or under the lines. The lines are A, B, C, D, E, F, and G, from the bottom up. The way this works is we look at this like 3-phase alternating current (AC). Inputs are on the right side; I label them 1, 2, and 3. 1 drives the waveforms from

1, 5, and 7. I colored this red, but in black and white it has no colors. So follow the path each line can take, and you find 2, 4, and 8. Now we get to 3, 9, and 6. 3 and 6 are on the same note, which is a B. 9 is a G sharp. Tesla wrote this on a sheet of paper and never explained it, so I will try.

Vortex Math.

If you only knew the magnificence of the 3, 6 and 9, then you would have the key to the universe. Nikola Tesla.

Vortex Math deals with electrical power grid line transmission of 3-phase power. If I take a wire that has 4 wires, I have one for each power line, 1, 2, and 3, and one for the ground. This is the tricky part, so use your imagination, and take 4 wires and overlap them accordingly. This is a weaving pattern. Note that 1 overlaps wire 3 first, then it overlaps 2.

To make this a Vortex, we need to connect 1 to 2, then 7 to 8; now we have an infinite loop. Note that we tap off the energy at 3, which is the input, and 6 is the output, while 0 is a ground potential.

Vortex Math infinite loop.

The reason most people do not know Numerology, is because of Mainstream and the way they Define Reality. For example, this is how Mainstream defines Numerology. Numerology is any belief in the divinity or mystical relationship between numbers and events. It is also the study of the numerical value of the letters in words, names, and ideas. It is often associated with the paranormal, alongside astrology and similar divinatory arts.

Mainstream defines God as a Deity, and the reason is that they are Satanic, as proof: Satanic means they only tell you half-truths. For example, God is both physical and non-physical, so if you ask God what God is, God will tell you IAM. Now the Letters I, A, M are Bible Codes, so the letter "I" has to always refer to the First-Person, and the letter "A" means to Append, or to Add. So it is a Math Symbol, and also a Bible Code, and the letter "M" always refers to Me, or Flesh, and in the Bible; IAM God, means IAM Light without Darkness. And without Darkness means without Neutrino Particles. Proving mathematically that God exists both as physical and as non-physical Light. Proving that both exist. Therefore, it is my hypothesis that God is physical and non-physical. Only Satan would say that God is a Deity that does not physically exist. Because in Reality and only in your Mind does God either Physically Exist or God does not Physically Exist. So think about this Logically, Deity means God does not Physically Exist. And Christ is based on God being a Deity that does not physically exist. Much like Jesus Christ did not exist in History, so now a pattern of Logic, or Pareidolia.

If you believe God does not Physically Exist, Legally, you are Insane. Because the Bible states God is All Light without Darkness. And Sir Isaac Newton's book about Light proved God exists. Newton's Math proved what God is, and

that is Light without Darkness. So the two agree with each other; but Religion does not. That is because Satan is in charge of Religion, and the Bible Proves this. Because only Satan tells you half-truths. And if God Exists, teaching you, God does not exist is a Lie. By definition, if God does not physically exist, God does not exist, and this is called Reverse Logic, and only Satan uses it. And the reason I do not care what Ewe believe, nor does the Trinary Universe; Know it or No it is Not. The Logic in this Statement is that only Satan would say No it Not. For example, by defining God as a Deity, you are teaching, God does not physically Exist. In terms of God, this means !God, and God's symbol is 0, so it is ! 0, and in terms of Logic 0, means !, Binary: 1 = True and 0 = False, and False = !, so it is !! or Not Not, and this Logic means No, as in False meaning Not. Making No it is Not is the same as saying Not Not, and Not Not means True in Logic, but Known as False Logic.

ABCDEF	GHIJKL	M NOPQR	S TUVW	XYZ
1234567	654321	1234567	654321	
GOD	Sun	Light	Dark	
724=13	661=13	25767=27=9	4153=13	

If I round the Sun's diameter to 864,000 miles, they use Numerology to add the numbers down; I get $8 + 6 + 4 = 18 \sim 1 + 8 = 9$. The Earth's diameter is 7,920; so we have $7 + 9 + 2 = 18 \sim 1 + 8 = 9$. If we do the Moon, it is 2,160, so we have $2 + 1 + 6 = 9$. So we know 9 is our higher power, and it is a G for God.

Knowledge

I understand Mechanics, now I need to make you understand about my knowledge of the Mechanics of the Universe; because that is Knowledge. But not the knowledge 99.999% of people around the world know. That is according to someone who scored 99% for Mechanics, on the ASVAB test; thus has an IQ of over 180, proving more intelligent than Einstein. I like to say that and point it out, because most people do not know how many people are like this, it is getting more common as the years go by. The only thing that sets me apart from the others is that I am a male; the majority are female. I appear to be the only one with an interest in this subject. If I talk about myself, it is because I want you to understand people like myself, because they include Kepler, Newton, and Tesla, and what this book is about. I mostly point this out for entertainment. I find it amusing that I am more intelligent than the person most people believe to be the most intelligent in the world.

David Goodstein created a series called “The Mechanical Universe,” a course I took while in the Air Force. You can find the series on YouTube Caltech channel <https://YouTube.com/@CalTech>. You might find it on the Public Broadcasting Service (PBS). That is worth watching, and worth repeating it, but I will not try; instead, I will point out a few things they did not teach you.

The first thing you need to know is that Einstein denounced his theories, and the reason we use Kepler, Newton, and Tesla instead of a theory.

“The line between Good and Evil is often unclear. Black and White can become Grey so easily. What one Soul considers Evil the other might consider righteous. The honorable Chief who fails-to-see this is found to be the fool.” “They say there are two ways to be fooled, one is to believe what isn’t true, the other is to refuse to believe what is.”

Viggo

Knowledge starts by understanding what is wisdom, and what is dumb. Everyone talks about how smart Einstein is nowadays; he is old news. I am not intelligent in all aspects of my life, and know that I do not know everything. I know my science is right, and that is all I care about. People can take this knowledge and write better physics books.

I only have one subject to talk about, and that is the Science of God, and I mean Trinary God, and getting people to stop talking about a Deity God. I cannot teach a subject if people do not know the difference between a Deity God and a Trinary God. Now I know how Newton felt, and why he taught empty classrooms.

When I was 39, I found out I was autistic. Now I am 62, and I still do not feel any different, so knowing I have it; did not change my life. I had to learn what it meant to be autistic, and now that I know what it is, I want to explain it to others, so they will understand who we are.

My father called me on my birthday in 2000 and told me many things; for one, my grandmother hid my IQ test from me. I can remember taking it, then having to be called into the principal's office. I thought I was in trouble because they wanted a parent, and mine would not go to school to talk to anyone, and if they did, matters would be worse for me. So, I called my grandmother. 30 years later, I find out my Dad had the highest IQ in the world. You would think that is something that everyone would know, but this also means we are autistic; the world hates autistic people. Einstein is Autistic, but the world does not know this, or they would hate him. The reason Neurotypical's hate Autistic people is that we act differently. My dad died the next month, so I never got to ask him questions.

When I was in the military, and got 99% on my ASVAB test, that sent up red flags. Later, I learned they

track people like me. I have had one woman stalk me for years, and I never knew it, until her sister told me. I stopped trusting people and never trusted strangers.

When I got older as an adult, I had a harder time dealing with normal people, and the Air Force made that easier. I did better in the military, then I did as a civilian. The older I got, the more difficult it got to deal with Neurotypical's, another word for normal people; it means those with low IQs. That was a joke, it means a Normal Brain, but your IQ is under 160, so a low IQ, whereas Autism is an Abnormal Brain, and not all of us have high IQs. And I have not met people on the same spectrum as myself, meaning someone with an IQ off the charts, and being on the high functioning spectrum of autism. I would rather work by myself than with others.

There are many spectrums of Autism, but Kepler, Newton, Tesla, Einstein, and myself, are all on the high functioning end of the spectrum. All with an IQ you cannot measure, except Einstein; which means he is closer to being normal since his IQ is borderline.

I have meltdowns, and no two people can ever describe them the same way. Growing up, I would try not to get into situations where this happens. I get over-stimulated easily, to others, they think I am having a breakdown, which is not the same thing, not even close. And I cannot talk to people unless I have something else to do. I guess this is multitasking. But my wife hates it; and friends do not enjoy it either, so I get over-stimulated by the lack of doing multiple things at once. I have to keep my hands busy; they call this stimming, and I had no clue I did this, but I cannot stop for long. This led me to become a shut-in. I have not left the house to do anything other than go to the doctors.

I am overly worried about my health, because I never fell well, and having my descending colon and gallbladder

removed. Finding out I grew an extra spleen because I was having diverticulitis a few times a year. So, I know it is not my imagination; I am sick. My sickness is all from my Military duty, mainly Vaccinations, or Chemical Warfare.

My mental issues limits my social interaction with people, so I do not go out, and seldom meet new people, so I have no clue what other people on the spectrum are like; I have watched videos, and tried to reach out to people, only to find they are flakes; people that are too self-absorbed to get back to you, knowing that you showed an interest in wanting to be friends. I found most were shut-ins. And few seem to be extraverts.

I have read a lot about Kepler, Newton, and Tesla, and figured out they are on the spectrum of high functioning and IQs off the chart. I found out they too have social issues. Newton and Tesla could not be with anyone sexually because they could not handle intimacy, and I fully understand why. Kepler had the same issues I have, and that is, I do not deal with people that have no interest in science, but needing people to interact with; we were not loners, but still like to be alone. My interest is very limited.

Growing up, no one told me I was different, so I did not know, and as a result, I did not deal with issues the way I should have. I have had a few friends in my lifetime, but none of them had the same interest I had; so I had to take up their interest to fit in. This got me into trouble a few times, and why I found wisdom in solitude.

To understand what others have taught us, we need to understand who those people are, and no one person on the spectrum has ever talked about themselves. This is the reason I am talking about myself. I want people to know why I am this way, and why I believe this way. But more to my point, why I am like this, and want you to understand the Science of Kepler, Newton, Tesla, and myself.

When someone tells me about Religion, I just want to throw up, the whole concept is satanic, and I do not think those people know it. Religious people think they are worshiping God by worshiping a Deity God. Which the prefix Deity means they do not physically exist, which means they do not exist. This logic gets me stimulated.

People that believe a Deity God is the same as Trinary God are liars, a politically correct term for Satan; Deity means Satanic. Deity means you believe in things that do not exist, the same definition as Insane; the politically correct term for that is Liar, thus Satan. The two Belief Systems (BS) are 180 degrees apart.

If I could change the world, I would have the Church teach Trinary God, instead of a Deity God. I would have them teach God is all Light without Darkness found inside atoms. I would teach them that Noah and Moses were bad people, and you should not follow them. The biggest change I would make is the buying and selling of Souls. I would also have them teach you to not sin.

The governments lie to the people, and they get away with treason. I would have the military declare Marshall Law and put an end to Treason. I would have them create the Trinary Sanctuary project and have people build a power plant that will provide power for the world. That is the only way Treason, and the buying and selling of Souls will stop.

I would love to change the world, and I know what I would do. I would not leave it up to you. Ten Years After would leave it up to you, and what you allow Treason, and Satanic behavior to take place. People that allow Treason are criminals, and that means the United States of America is a prison, and they are all prisoners, and have no Freedom, only Free Dumb. Proving I cannot trust people.

They are all criminals, and Satanic, and they are fine with it; they cannot deal with the truth.

People cannot tell me that Law is Legal, and Money is not Treason, and I do not care what Country you are from; because they all allow Money from the United States, knowing it is not legal Money, because it is Treason; because only Congress can print money.

People that are fine with committing Treason, are what the Torah calls Satanic. Those that believe in Jesus Christ, knowing he never existed in history, are Insane, and do not understand they are Insane; and why they believe a Deity God is the same as a Trinary God.

The reason Pollution exists is that people are Satanic, because only Satan Pollutes. People are Satanic, Satan is not a Spirit, or Angel, that is Religion, and not what the Torah taught us, but what Satan taught you. This proves people are Lazy, too lazy to learn the truth, and too lazy to believe it. Lazy people will allow Treason, because they believe there is nothing they can do about it; which is what Lazy means and the reason Pollution is out of control.

Religion paints Satan as a supernatural being, whereas the Torah says Satan is a Liar. Which is what all Religious people are, as proof; Psalms 23 states you follow a Shepard; knowing only Sheep do that. Therefore, they took the Mark of the Beast, known as a Sheep, like Ewe, that buy and sell Souls by the kilowatt. Imagine a Sheep with Horns that just rammed Ewe and drenched in Blood. This is what Religion does to people; they make them Sheeple, too lazy to do anything but to complain.

People need to take control of their lives, and the world around them is part of that life. What anyone does is your problem, because if it affects anyone, it affects everyone. If you allow Treason, you are the Criminal; if you allow Religion, then you are Satanic. Good people believe

in what they can prove to themselves, if you are not intelligent enough to prove it, you are lazy.

Knowledge is power, and the way they got into power is by teaching you the complete opposite of Knowledge. If you knew only Congress could print money, which you should, if you took an Oath, to the United States Constitution; you would know the truth about that matter. So let me include it here, so you can read it.

Article. I.

Section. 1.

All legislative Powers herein granted shall be vested in a Congress of the United States, which shall consist of a Senate and House of Representatives.

Section. 2.

The House of Representatives shall be composed of Members chosen every second Year by the People of the several States, and the Electors in each State shall have the Qualifications requisite for Electors of the most numerous Branch of the State Legislature.

No Person shall be a Representative who shall not have attained to the Age of twenty-five Years, and been seven Years a Citizen of the United States, and who shall not, when elected, be an Inhabitant of that State in which he shall be chosen.

Representatives and direct Taxes shall be apportioned among the several States which may be included within this Union, according to their respective Numbers, which shall be determined by adding to the whole Number of free Persons, including those bound to Service for a Term of Years, and excluding Indians not taxed, three fifths of all other Persons. The actual Enumeration shall be made within three Years after the first Meeting of the Congress of the United States, and within

every subsequent Term of ten Years, in such Manner as they shall by Law direct. The Number of Representatives shall not exceed one for every thirty Thousand, but each State shall have at Least one Representative; and until such enumeration shall be made, the State of New Hampshire shall be entitled to chuse three, Massachusetts eight, Rhode-Island and Providence Plantations one, Connecticut five, New-York six, New Jersey four, Pennsylvania eight, Delaware one, Maryland six, Virginia ten, North Carolina five, South Carolina five, and Georgia three.

When vacancies happen in the Representation from any State, the Executive Authority thereof shall issue Writs of Election to fill such Vacancies.

The House of Representatives shall chuse their Speaker and other Officers; and shall have the sole Power of Impeachment.

Section. 3.

The Senate of the United States shall be composed of two Senators from each State, chosen by the Legislature thereof, for six Years; and each Senator shall have one Vote.

Immediately after they shall be assembled in Consequence of the first Election, they shall be divided as equally as may be into three Classes. The Seats of the Senators of the first Class shall be vacated at the Expiration of the second Year, of the second Class at the Expiration of the fourth Year, and of the third Class at the Expiration of the sixth Year, so that one third may be chosen every second Year; and if Vacancies happen by Resignation, or otherwise, during the Recess of the Legislature of any State, the Executive thereof may make temporary Appointments until the next Meeting of the Legislature, which shall then fill such Vacancies.

No Person shall be a Senator who shall not have attained to the Age of thirty Years, and been nine Years a Citizen of the United States, and

who shall not, when elected, be an Inhabitant of that State for which he shall be chosen.

The Vice President of the United States shall be President of the Senate, but shall have no Vote, unless they be equally divided.

The Senate shall chuse their other Officers, and also a President pro tempore, in the Absence of the Vice President, or when he shall exercise the Office of President of the United States.

The Senate shall have the sole Power to try all Impeachments. When sitting for that Purpose, they shall be on Oath or Affirmation. When the President of the United States is tried, the Chief Justice shall preside: And no Person shall be convicted without the Concurrence of two thirds of the Members present.

Judgment in Cases of Impeachment shall not extend further than to removal from Office, and disqualification to hold and enjoy any Office of honor, Trust or Profit under the United States: but the Party convicted shall nevertheless be liable and subject to Indictment, Trial, Judgment and Punishment, according to Law.

Section. 4.

The Times, Places and Manner of holding Elections for Senators and Representatives, shall be prescribed in each State by the Legislature thereof; but the Congress may at any time by Law make or alter such Regulations, except as to the Places of chusing Senators.

The Congress shall assemble at least once in every Year, and such Meeting shall be on the first Monday in December, unless they shall by Law appoint a different Day.

Section. 5.

Each House shall be the Judge of the Elections, Returns and Qualifications of its own Members, and a Majority of each shall

constitute a Quorum to do Business; but a smaller Number may adjourn from day to day, and may be authorized to compel the Attendance of absent Members, in such Manner, and under such Penalties as each House may provide.

Each House may determine the Rules of its Proceedings, punish its Members for disorderly Behaviour, and, with the Concurrence of two thirds, expel a Member.

Each House shall keep a Journal of its Proceedings, and from time to time publish the same, excepting such Parts as may in their Judgment require Secrecy; and the Yeas and Nays of the Members of either House on any question shall, at the Desire of one fifth of those Present, be entered on the Journal.

Neither House, during the Session of Congress, shall, without the Consent of the other, adjourn for more than three days, nor to any other Place than that in which the two Houses shall be sitting.

Section. 6.

The Senators and Representatives shall receive a Compensation for their Services, to be ascertained by Law, and paid out of the Treasury of the United States. They shall in all Cases, except Treason, Felony and Breach of the Peace, be privileged from Arrest during their Attendance at the Session of their respective Houses, and in going to and returning from the same; and for any Speech or Debate in either House, they shall not be questioned in any other Place.

No Senator or Representative shall, during the Time for which he was elected, be appointed to any civil Office under the Authority of the United States, which shall have been created, or the Emoluments whereof shall have been encreased during such time; and no Person holding any Office under the United States, shall be a Member of either House during his Continuance in Office.

Section. 7.

All Bills for raising Revenue shall originate in the House of Representatives; but the Senate may propose or concur with Amendments as on other Bills.

Every Bill which shall have passed the House of Representatives and the Senate, shall, before it become a Law, be presented to the President of the United States; If he approve he shall sign it, but if not he shall return it, with his Objections to that House in which it shall have originated, who shall enter the Objections at large on their Journal, and proceed to reconsider it. If after such Reconsideration two thirds of that House shall agree to pass the Bill, it shall be sent, together with the Objections, to the other House, by which it shall likewise be reconsidered, and if approved by two thirds of that House, it shall become a Law. But in all such Cases the Votes of both Houses shall be determined by yeas and Nays, and the Names of the Persons voting for and against the Bill shall be entered on the Journal of each House respectively. If any Bill shall not be returned by the President within ten Days (Sundays excepted) after it shall have been presented to him, the Same shall be a Law, in like Manner as if he had signed it, unless the Congress by their Adjournment prevent its Return, in which Case it shall not be a Law.

Every Order, Resolution, or Vote to which the Concurrence of the Senate and House of Representatives may be necessary (except on a question of Adjournment) shall be presented to the President of the United States; and before the Same shall take Effect, shall be approved by him, or being disapproved by him, shall be repassed by two thirds of the Senate and House of Representatives, according to the Rules and Limitations prescribed in the Case of a Bill.

Section. 8.

The Congress shall have Power To lay and collect Taxes, Duties, Imposts and Excises, to pay the Debts and provide for the common

Defence and general Welfare of the United States; but all Duties, Imposts and Excises shall be uniform throughout the United States;

To borrow Money on the credit of the United States;

To regulate Commerce with foreign Nations, and among the several States, and with the Indian Tribes;

To establish an uniform Rule of Naturalization, and uniform Laws on the subject of Bankruptcies throughout the United States;

To coin Money, regulate the Value thereof, and of foreign Coin, and fix the Standard of Weights and Measures;

To provide for the Punishment of counterfeiting the Securities and current Coin of the United States;

To establish Post Offices and post Roads;

To promote the Progress of Science and useful Arts, by securing for limited Times to Authors and Inventors the exclusive Right to their respective Writings and Discoveries;

To constitute Tribunals inferior to the supreme Court;

To define and punish Piracies and Felonies committed on the High Seas, and Offences against the Law of Nations;

To declare War, grant Letters of Marque and Reprisal, and make Rules concerning Captures on Land and Water;

To raise and support Armies, but no Appropriation of Money to that Use shall be for a longer Term than two Years;

To provide and maintain a Navy;

To make Rules for the Government and Regulation of the land and naval Forces;

To provide for calling forth the Militia to execute the Laws of the Union, suppress Insurrections and repel Invasions;

To provide for organizing, arming, and disciplining, the Militia, and for governing such Part of them as may be employed in the Service of the United States, reserving to the States respectively, the Appointment of the Officers, and the Authority of training the Militia according to the discipline prescribed by Congress;

To exercise exclusive Legislation in all Cases whatsoever, over such District (not exceeding ten Miles square) as may, by Cession of particular States, and the Acceptance of Congress, become the Seat of the Government of the United States, and to exercise like Authority over all Places purchased by the Consent of the Legislature of the State in which the Same shall be, for the Erection of Forts, Magazines, Arsenals, dock-Yards, and other needful Buildings;—And

To make all Laws which shall be necessary and proper for carrying into Execution the foregoing Powers, and all other Powers vested by this Constitution in the Government of the United States, or in any Department or Officer thereof.

Section. 9.

The Migration or Importation of such Persons as any of the States now existing shall think proper to admit, shall not be prohibited by the Congress prior to the Year one thousand eight hundred and eight, but a Tax or duty may be imposed on such Importation, not exceeding ten dollars for each Person.

The Privilege of the Writ of Habeas Corpus shall not be suspended, unless when in Cases of Rebellion or Invasion the Public Safety may require it.

No Bill of Attainder or ex post facto Law shall be passed.

No Capitation, or other direct, Tax shall be laid, unless in Proportion to the Census or enumeration herein before directed to be taken.

No Tax or Duty shall be laid on Articles exported from any State.

No Preference shall be given by any Regulation of Commerce or Revenue to the Ports of one State over those of another: nor shall Vessels bound to, or from, one State, be obliged to enter, clear, or pay Duties in another.

No Money shall be drawn from the Treasury, but in Consequence of Appropriations made by Law; and a regular Statement and Account of the Receipts and Expenditures of all public Money shall be published from time to time.

No Title of Nobility shall be granted by the United States: And no Person holding any Office of Profit or Trust under them, shall, without the Consent of the Congress, accept of any present, Emolument, Office, or Title, of any kind whatever, from any King, Prince, or foreign State.

Section. 10.

No State shall enter into any Treaty, Alliance, or Confederation; grant Letters of Marque and Reprisal; **coin Money;** emit Bills of Credit; make any Thing but gold and silver Coin a Tender in Payment of Debts; pass any Bill of Attainder, ex post facto Law, or Law impairing the Obligation of Contracts, or grant any Title of Nobility.

No State shall, without the Consent of the Congress, lay any Imposts or Duties on Imports or Exports, except what may be absolutely necessary for executing it's inspection Laws: and the net Produce of all Duties and Imposts, laid by any State on Imports or Exports, shall be for the Use of the Treasury of the United States; and all such Laws shall be subject to the Revision and Controul of the Congress.

No State shall, without the Consent of Congress, lay any Duty of Tonnage, keep Troops, or **Ships of War in time of Peace**, enter into any Agreement or Compact with another State, or with a foreign Power, or **engage in War, unless actually invaded**, or in such imminent Danger as will not admit of delay.

Article. II.

Section. 1.

I shall vest the executive Power in a President of the United States of America. He shall hold his Office during the Term of four Years, and, together with the Vice President, chosen for the same Term, be elected, as follows

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, **or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.**

The Electors shall meet in their respective States, and vote by Ballot for two Persons, of whom one at least shall not be an Inhabitant of the same State with themselves. And they shall make a List of all the Persons voted for, and of the Number of Votes for each; which List they shall sign and certify, and transmit sealed to the Seat of the Government of the United States, directed to the President of the Senate. The President of the Senate shall, in the Presence of the Senate and House of Representatives, open all the Certificates, and the Votes shall then be counted. The Person having the greatest Number of Votes shall be the President, if such Number be a Majority of the whole Number of Electors appointed; and if there be more than one who have such Majority, and have an equal Number of Votes, then the House of Representatives shall immediately chuse by Ballot one of them for

President; and if no Person have a Majority, then from the five highest on the List the said House shall in like Manner chuse the President. But in chusing the President, the Votes shall be taken by States, the Representation from each State having one Vote; A quorum for this Purpose shall consist of a Member or Members from two thirds of the States, and a Majority of all the States shall be necessary to a Choice. In every Case, after the Choice of the President, the Person having the greatest Number of Votes of the Electors shall be the Vice President. But if there should remain two or more who have equal Votes, the Senate shall chuse from them by Ballot the Vice President.

The Congress may determine the Time of chusing the Electors, and the Day on which they shall give their Votes; which Day shall be the same throughout the United States.

No Person except a natural born Citizen, or a Citizen of the United States, at the time of the Adoption of this Constitution, shall be eligible to the Office of President; neither shall any Person be eligible to that Office who shall not have attained to the Age of thirty five Years, and been fourteen Years a Resident within the United States.

In Case of the Removal of the President from Office, or of his Death, Resignation, or Inability to discharge the Powers and Duties of the said Office, the Same shall devolve on the Vice President, and the Congress may by Law provide for the Case of Removal, Death, Resignation or Inability, both of the President and Vice President, declaring what Officer shall then act as President, and such Officer shall act accordingly, until the Disability be removed, or a President shall be elected.

The President shall, at stated Times, receive for his Services, a Compensation, which shall neither be encreased nor diminished during the Period for which he shall have been elected, and he shall not receive within that Period any other Emolument from the United States, or any of them.

Before he enter on the Execution of his Office, he shall take the following Oath or Affirmation:—"I do solemnly swear (or affirm) that I will faithfully execute the Office of President of the United States, and will to the best of my Ability, preserve, protect and defend the Constitution of the United States."

Section. 2.

The President shall be Commander in Chief of the Army and Navy of the United States, and of the Militia of the several States, when called into the actual Service of the United States; he may require the Opinion, in writing, of the principal Officer in each of the executive Departments, upon any Subject relating to the Duties of their respective Offices, and he shall have Power to grant Reprieves and Pardons for Offences against the United States, except in Cases of Impeachment.

He shall have Power, by and with the Advice and Consent of the Senate, to make Treaties, provided two thirds of the Senators present concur; and he shall nominate, and by and with the Advice and Consent of the Senate, shall appoint Ambassadors, other public Ministers and Consuls, Judges of the supreme Court, and all other Officers of the United States, whose Appointments are not herein otherwise provided for, and which shall be established by Law: but the Congress may by Law vest the Appointment of such inferior Officers, as they think proper, in the President alone, in the Courts of Law, or in the Heads of Departments.

The President shall have Power to fill up all Vacancies that may happen during the Recess of the Senate, by granting Commissions which shall expire at the End of their next Session.

Section. 3.

He shall from time to time give to the Congress Information of the State of the Union, and recommend to their Consideration such Measures as he shall judge necessary and expedient; he may, on

extraordinary Occasions, convene both Houses, or either of them, and in Case of Disagreement between them, with Respect to the Time of Adjournment, he may adjourn them to such Time as he shall think proper; he shall receive Ambassadors and other public Ministers; he shall take Care that the Laws be faithfully executed, and shall Commission all the Officers of the United States.

Section. 4.

The President, Vice President and all civil Officers of the United States, shall be removed from Office on Impeachment for, and Conviction of, Treason, Bribery, or other High Crimes and Misdemeanors.

Article. III.

Section. 1.

The judicial Power of the United States, shall be vested in one supreme Court, and in such inferior Courts as the Congress may from time to time ordain and establish. The Judges, both of the supreme and inferior Courts, shall hold their Offices during good Behaviour, and shall, at stated Times, receive for their Services, a Compensation, which shall not be diminished during their Continuance in Office.

Section. 2.

The judicial Power shall extend to all Cases, in Law and Equity, arising under this Constitution, the Laws of the United States, and Treaties made, or which shall be made, under their Authority;—to all Cases affecting Ambassadors, other public Ministers and Consuls;—to all Cases of admiralty and maritime Jurisdiction;—to Controversies to which the United States shall be a Party;—to Controversies between two or more States; — between a State and Citizens of another State,—between Citizens of different States,—between Citizens of the same State claiming Lands under Grants of different States, and

between a State, or the Citizens thereof, and foreign States, Citizens or Subjects.

In all Cases affecting Ambassadors, other public Ministers and Consuls, and those in which a State shall be Party, the supreme Court shall have original Jurisdiction. In all the other Cases before mentioned, the supreme Court shall have appellate Jurisdiction, both as to Law and Fact, with such Exceptions, and under such Regulations as the Congress shall make.

The Trial of all Crimes, except in Cases of Impeachment, shall be by Jury; and such Trial shall be held in the State where the said Crimes shall have been committed; but when not committed within any State, the Trial shall be at such Place or Places as the Congress may by Law have directed.

Section. 3.

Treason against the United States, shall consist only in levying War against them, or in adhering to their Enemies, giving them Aid and Comfort. No Person shall be convicted of Treason unless on the Testimony of two Witnesses to the same overt Act, or on Confession in open Court.

The Congress shall have Power to declare the Punishment of Treason, but no Attainder of Treason shall work Corruption of Blood, or Forfeiture except during the Life of the Person attainted.

Article. IV.

Section. 1.

Full Faith and Credit shall be given in each State to the public Acts, Records, and judicial Proceedings of every other State. And the Congress may by general Laws prescribe the Manner in which such Acts, Records and Proceedings shall be proved, and the Effect thereof.

Section. 2.

The Citizens of each State shall be entitled to all Privileges and Immunities of Citizens in the several States.

A Person charged in any State with Treason, Felony, or other Crime, who shall flee from Justice, and be found in another State, shall on Demand of the executive Authority of the State from which he fled, be delivered up, to be removed to the State having Jurisdiction of the Crime.

No Person held to Service or Labour in one State, under the Laws thereof, escaping into another, shall, in Consequence of any Law or Regulation therein, be discharged from such Service or Labour, but shall be delivered up on Claim of the Party to whom such Service or Labour may be due.

Section. 3.

New States may be admitted by the Congress into this Union; but no new State shall be formed or erected within the Jurisdiction of any other State; nor any State be formed by the Junction of two or more States, or Parts of States, without the Consent of the Legislatures of the States concerned as well as of the Congress.

The Congress shall have Power to dispose of and make all needful Rules and Regulations respecting the Territory or other Property belonging to the United States; and nothing in this Constitution shall be so construed as to Prejudice any Claims of the United States, or of any particular State.

Section. 4.

The United States shall guarantee to every State in this Union a Republican Form of Government, and shall protect each of them against Invasion; and on Application of the Legislature, or of the

Executive (when the Legislature cannot be convened) against domestic Violence.

Article. V.

The Congress, whenever two thirds of both Houses shall deem it necessary, shall propose Amendments to this Constitution, or, on the Application of the Legislatures of two thirds of the several States, shall call a Convention for proposing Amendments, which, in either Case, shall be valid to all Intents and Purposes, as Part of this Constitution, when ratified by the Legislatures of three fourths of the several States, or by Conventions in three fourths thereof, as the one or the other Mode of Ratification may be proposed by the Congress; Provided that no Amendment which may be made prior to the Year One thousand eight hundred and eight shall in any Manner affect the first and fourth Clauses in the Ninth Section of the first Article; and that no State, without its Consent, shall be deprived of its equal Suffrage in the Senate.

Article. VI.

All Debts contracted and Engagements entered into, before the Adoption of this Constitution, shall be as valid against the United States under this Constitution, as under the Confederation.

This Constitution, and the Laws of the United States which shall be made in Pursuance thereof; and all Treaties made, or which shall be made, under the Authority of the United States, shall be the supreme Law of the Land; and the Judges in every State shall be bound thereby, any Thing in the Constitution or Laws of any State to the Contrary notwithstanding.

The Senators and Representatives before mentioned, and the Members of the several State Legislatures, and all executive and judicial Officers, both of the United States and of the several States, shall be bound by Oath or Affirmation, to support this Constitution; but no

religious Test shall ever be required as a Qualification to any Office or public Trust under the United States.

Article. VII.

The Ratification of the Conventions of nine States, shall be sufficient for the Establishment of this Constitution between the States so ratifying the Same.

The Word, “the,” being interlined between the seventh and eighth Lines of the first Page, The Word “Thirty” being partly written on an Erasure in the fifteenth Line of the first Page, The Words “is tried” being interlined between the thirty second and thirty third Lines of the first Page and the Word “the” being interlined between the forty third and forty fourth Lines of the second Page.

Attest William Jackson Secretary

done in Convention by the Unanimous Consent of the States present the Seventeenth Day of September in the Year of our Lord one thousand seven hundred and Eighty seven and of the Independence of the United States of America the Twelfth In witness whereof We have hereunto subscribed our Names, George Washington President and deputy from Virginia

The Constitution does not allow Congress to have the Federal Reserve print money; that is Treason. It does not allow the military to operate off its shores more than 200 miles into the ocean, and only on United States land, which must be continuous. I do not believe the United States honors any of the concepts that they took an Oath to uphold. Knowledge is power, now let us look at the Bible, and how it defines God.

Young's Literal Translation *definition*
God is Light, and Darkness in Him is not at all.

We know these written words are right; we know what the United States Constitution said, and what the Torah and Bible said, which proves people are liars.

What we can do about it is not a question, but a lifestyle. You arrest people that are breaking the laws set down in our constitution; it was not legal to suspend it; and it was not legal to enforce it. These are all crimes that are punishable by death; but I would take that off the table.

The things you cannot do are simple, you cannot protest, that is not legal, if it was, they would not arrest people for that crime. You cannot vote. That is how Treason took hold, and Satan is now ordering you what to do. The only thing you can do is ask the Highest Ranking Officer in the Military to do their job. If they refuse, you arrest them for Treason, and have them executed for that Treason if they refuse to uphold their Oath to the Constitution. Then you ask the next Highest Ranking Officer in the Military, to do their job; this time they will. Because they know you are not bluffing and will carry out the laws to the letter.

You keep arresting, keep executing, till this Knowledge takes hold, and it becomes the power of Knowledge. I would not execute for Treason, because everyone is guilty of it. But those in power must do their duty, and that means not allowing Treason. Knowledge is about the truth, and acting on this truth logically, keeping in mind that all current laws are illegal, because they enforce Treason; you need to abolish Law. We know how Satan

took over the United States; it was by Religion. Money, Law and Religion are the biggest scams in history.

I will not sugarcoat what I say, to do so would be a lie, and how those in power got to be where they are. I will not try to make a crime seem better or worse than it is, because Treason is the worst crime we have, and everyone commits it daily, proving they are Satanic. And I could say Liar instead of Satan, but that is the worst kind of sugarcoating there is. I tell it as it is, and will not hold back, because Satan is not. So we need to understand what is right, and what is wrong, and then decide the best way to get change. All I can tell you is that you never break a law. So I am warning you to never protest, never have rallies or gatherings. These will be a reason for Police to arrest you, and they enforce Treason, and have no intention of doing anything else. You must follow their laws, even if it is Treason, because they can arrest you for not committing Treason. Never trust people who work in the Legal System, because they are all criminals. This includes Politicians, Judges, Lawyers, Police, and Military Officers.

The only way you will get freedom is to create Trinary Sanctuary as a Country, and make sure they have no money, so it can not corrupt them. No laws, because that is how criminals behave. And no Religion, because that is Satanic, you can read the Torah or Bible, and you will find Religion is not in it; so the Torah or Bible is fine to keep. But Jesus Christ never existed in history.

Now let us talk about what Light without Darkness is, and there is only one thing it can be if you want us to believe God created the Universe, and that is inside of Atoms. But Religion defines God as not physically existing, which means the same thing as if you were to say God does not exist.

Society

The Trinary Society I am going to talk about does not replace any Society. I designed it to be a new Society for Trinary Sanctuary. I want to talk about how Mainstream Society can create another Society, while allowing both to survive the End of Time. Currently, Mainstream Society has no plans to build anything to survive an event they do not believe will happen. Even though Newton said it will. The Torah is one issue, since it also states this will happen, and how Newton knew about it; but the Church tainted the Torah and corrupted it for Money.

We know from history that Sir Isaac Newton would teach empty classrooms. Because he had an obligation to teach classes; but people only knew about a Deity God, and not the God from the Torah. Newton would explain that the Deity God is Satan; if the students would not get it, he would send them away, saying he cannot teach mad Sheep; they are too stupid to educate. I feel the same way because society never changes.

Newton was part of the Royal Society, where he had a run-in with a crook by the name of Hooke. Who like Leibniz; society became a breeding ground for people who believed they could steal others' work. With the case of Hooke, after he left, Newton burned his portrait, and had all his work put in to storage. With Leibniz, he knew he did not invent Calculus; but he could not divulge who had the 3rd century Torah. Because the Church would have him discredited; like Galileo Galilei. For the same reason, because Galileo had it, and wanted to tell the World. But the Church would not allow it, and they would not allow Newton, and they will not allow me; but I have cancer and do not care, and why I am not afraid to rock the boat.

There are two or more Societies in any society, in the United States I know of a few. The Masonic Society has many branches. For example, Freemasons, and Illuminati. I belong to the Masons; my family has been Masons as far back as I can trace my ancestors. My fifth first cousin, Isaac Newton Flesher, was an Ashkenazi that runs in our family lineage, where we name our children after dead relatives. This type of Society is called a Secret Society.

Grave markers are part of most Societies. The way they make them, and what they say about them; tells about what Society they are from.

My cousins Isaac Newton, and Benjamin Franklin Flesher.

The Masons have a way of doing everything, and it involves a compass and square; because they engineered everything. Not all Masonic lodges are the same. My Grandparents ran the Odd Fellows Lodge, so I grew up around Masons. I joined the United States Air Force in 1985, which is a Mason Organization that has Freemasons, Illuminati, and other secret organizations.

To understand how a Secret Society works in the United States, we need to look at the work they do, and keep in mind there are hundreds of them.

Most people do not see details; autistic people seem to see too many details. So I want to show you some details I have noticed, but first, I must show you I am qualified to talk about these sensitive issues. When reading anything technical that alters my view of the Universe, I must know that person.

I was a Helicopter Crew Chief, and I know my job well, I must explain that if you do your job well; you get Medals like this one;

Second Meritorious Service Metal from Special Operations.

Page 156 of 204

Air Rescue left-hand door of MH-60 Pave Hawk.

Special Operations

Page 157 of 204

I have been around the world. All my Medals and Ribbons.

The military retired me for medical reasons in 1999, so I was out before the 911 war began. I want you to look at the same images of the 911 that everyone saw back in 2001, to prove to you that people do not see details. Look at this 767 silhouette. I will show you the difference between a 757 and a 767 later. Notice that the tail did not make a dent in the building.

Signs of explosives made this hole.

Now look at the same hole with some lines and arrows drawn on it, and notice the straight line on the building, proving they made this hole with explosives. You can see this hole does not go through the building; the panels remain affixed. Some panels are poking out, and a few of them are facing inwards.

Notice lines of interest on WTC1.

Now look at the images of these two Jet Engines. Notice the woman is a round the same size aspect ratio wise to the engine found at the 911 site. Proving it does not belong to a 757 or 767. Same with tires and other parts.

Size of 767 Jet Engine vs engine on 911 site.

The 767 & 757 have enormous wheels, not like the 911 small wheels.

911 Edna Clinton and a Dog, WTC2.

That is the other tower, and we find people sitting at their desks, and Edna Clinton and a dog out for a walk, proving the heat did not take down the building.

The 757 vs 767 are about the same.

The 767 has a larger body; its wingspan is around 156 feet; the 757 has about a 125-foot wingspan. American Airlines Flight 11 hit Tower 1, in a Boeing 767. United Flight 175 hit Tower 2, with a Boeing 767. United Flight 93, hit Pennsylvania, in a Boeing 757. American Flight 77 crashed in the Pentagon, in a Boeing 757.

No matter what anyone believes, the photos are the truth of that matter. People can lie, photos no one alters tell the truth. You should only believe what you can prove is the truth to yourself, regardless of what I show you.

Image taken by Rick Wood.

I can see 3 people sitting at their desks moments after the explosion. You can see explosive-burned panels in straight lines in the building. Note that the connections to panels are intact; and the wing did not go into the building. The wing did not break off; according to the video, the aircraft never hit the building, they just ghosted into it. They shut the Radar towers down to avoid detection, so they could fly Jets somewhere in the world. They cut the beams using Thermite demolition. There is no way to hide this, as if they could hide the holes that only a flying saucer could make, since both have no tail.

Thermite cut beams.

Oklahoma fertilizer shaped bombs.

The Oklahoma bombing is one Myth Busters needs to be called in on in this case. Where a van was full of fertilizer; manufactured into a bomb inside. The bomb exploded in a 360° pattern. Proving it was not a shaped explosion, as they reported it. Because there was no damage in front of the van beyond the 360° explosion, or to the building that was closer to it. Independent investigators took samples from the thermite dust-covered area.

Where is the Plane?

If I were to fly into this crash site in the image above, I would notice there is not a plane crash, because there is no crash; the wrong parts at the site prove they faked this.

We know the hole in the Pentagon was not large enough for a 757 to fit into. The security recorder at the gate recorded a drone hitting the building, yet History says other wise.

757 would have taken out all the floors, you see.

Drone hits Pentagon on 911.

Now to see the Ghost, which is a plane that does not hit the building, nothing breaks. You should see the plane crush; this happens when things run into buildings. That proves no planes hit anything on 911.

They took recorded video of a 767, then they superimposed it over the video of the event. Look at the perspective of the camera. I will show you proof they did not shoot this from Battery Park. The building in the foreground does not align with this angle.

The Ghost.

View from Battery Park

Page 164 of 204

Read the following from the “US CODE of FEDERAL LAW TITLE 12 CHAPTER 3 SUBCHAPTER 9 SUBSECTION 341”.

First. To adopt and use a corporate seal.

¶That is a U and an S, superimposed on top of each other. Proving that the US is all about Treasonous Money, it is the very icon of it.

Second. To have succession after 25 February 1927, until dissolved by Act of Congress, or until forfeiture of franchise for violation of the law.

That states, the Federal Reserve uses the United States as a Franchise, like a 711. In 1933 they dissolved Congress, who then stole all the Gold in the Country using the Gold Act of 1933. Which was enacted by Executive Order 6102, thus, forfeiting the Country. It filed for Bankruptcy in 1933; and we are still running under that status, since we cannot make the Interest Payment. As Proof, the National Debt.

Third. To make contracts.

They number all Masonic Orders, and the First 3 are always Free, and that is where the Term Freemason came from. During the Civil War, the Bank made a contract with the North and the South. Funding both sides, not caring who won. Because everyone lost the country to money, and now we cannot pay off the loan, we cannot even make the interest payment.

Fourth. To sue and be sued, complain, and defend, in any court of law.

That is the Game, Sue. Because they own the courts, Judges, Lawyers, Police, and Military. There is no reason to read the other 4; this is an endgame event. They print the money everyone works for.

I learned this in jail for having a PTSD attack in my home, because I did not know that was illegal. While in jail, they denied me the right to make a phone call. They denied me the right to medical treatment; causing the removal of my Gallbladder; they removed my descending colon a couple years before this. So this is Karma, proving the Judges, Lawyers, and Police enforce Treason. I am not telling you this to get back at the Police. Rather, I found out about this code for the first time. Below is the link.

<https://uscode.house.gov/view.xhtml?path=/prelim@title12/chapter3/subchapter9&edition=prelim>

911 did not happen as those in power would like you to believe, they are part of a Secret Society, that is in charge of Mainstream. These are the people that are committing treason, and why the United States Military needs to do their job and put an end to Treason.

I am ashamed of the United States of America and everyone in it, because they all allowed Treason. Americans are Liars, every one of them, nothing but Satanic liars, proving it is a Satanic Nation. I do not care what you want to believe; you cannot justify Treason; it is not legal, making all laws illegal, and how the fake Government gets away with Murder.

I will defend my findings in any court of law. As if there is one in the United States that would want to open this case. Knowing this logic and reasoning are sound; and that I can prove they are guilty of Treason at the same time. Even if they did, how can you trust anyone that works for Money, they know is Treasonous. I cannot trust any Judge, Lawyer, or Police, and I do not trust the leaders in the Military because they allow this treason.

Sanctuary

Trinary Sanctuary is a concept that any Military; can create this project on their land, making it a tax-free area to build it on. The Governments commissioned their Military to indoctrinate all Trinarian personnel. Meaning those that will live in Trinary Sanctuary, these are the people that will build it, and support it for the rest of their lives. The Military will have a base around the Pyramid facility containing pods. A Pod is a square block, each one thousand feet square, and can have 33 to 66 floors of living space in each. They can house thousands of families. You have pods for food, manufacturing, and entertainment.

Nothing in this world is free; Building Trinary Sanctuary would require a lot of resources. The way Trinary Sanctuary works is that it does not allow Money. The reason is that Money causes Treason, by allowing the Federal Reserve to print money instead of Congress; and accounts for most Crimes. There is not enough money on this planet to build Trinary Sanctuary, and why we must build it for free. It does not allow Laws because those are how Governments got its Military and Citizens to commit Treason. It does not allow Religion because they are a Satanic Cult who took an Oath to murder anyone that does not believe as they do. If the Church converts to Trinary Science, then it can work with the Church; and this would be preferable; I want to convert the world to the Science of God; but without Religion. This would be a lot easier if the Church got on board.

Once Trinary Sanctuary is fully online, it will provide Energy, Food, Water, Air, and supplies to its Military. Which they route to the Government contributing to this program. So, they can distribute this to Governments Military, and

Citizens, as payment on the National Debt. Through the Military, to make sure the Federal Reserve gets paid directly. Reducing the National Debt.

No one is in charge of Trinary Sanctuary; they do not have Leaders, because leaders are how Treason became a lifestyle in the United States.

A computer program they will write runs this Society. This society uses Rank to show their ability at their job or tasks. And do not use that as power; more rank means you will be the one that most people will depend on.

Trinary Military answers only to the Military that trained them in the first place; thus, everyone will know what job they have. They have control over what jobs or tasks they do; the computer system has a list of all the tasks required. People can choose which tasks they want to do, and they get training on how to do it. All jobs or tasks have a manual; they are called Technical Orders and Technical Data. Orders explain how to build, maintain, or repair something, whereas Data shows you all the details about a specific item.

Everyone overseeing Trinary Sanctuary for Free may sound strange to people who worked for Treasonous money. So, imagine not having to pay for something you need or want; not having to buy or sell Souls by the Kilowatt. Thus, not Satanic for that reason. Therefore, you have no bills. But you still must work for Free, for this to be Free. This type of Freedom means no Money, no Laws, and no Religion, which is how you define real Freedom.

Trinary Sanctuary has a Pyramid at its center; only Trinary Militia lives here. Then it has a clear zone, which is a safe area where rain and snow create a moat around it.

The only way in or out is from an underground railway that only leads to the Outer Ring, and it connects to the pods. Which have elevators to get you to the floor you want to get to. So, you need to know what pod you want, then what floor, then what door, making locations easy to find and get to.

The center pyramid is the inner ring. It has an unlimited number of rings inside of it; these rings separate pods into groups. That is to prevent diseases from wiping out everyone, limiting how people can interact. You will have a pod for every culture, this will help to preserve a nationality. For example, you can have a Scottish, Irish, German, French, Russian, Indian, Asian, or English Ring. I do not want to list all the nationalities. Only enough that you get the hint these rings will preserve all the Nationalities, but not their laws, traditions, and sins, just the people.

The pyramid could be 66 miles or more at its base, and as tall as 66,000 feet. Rings can have hundreds of floors. There are rings inside the rings; doors define these.

Trinary Sanctuary has 3 Rings.

Trinary Sanctuary is the center Pyramid, which has 3 rings; the inside ring is the Trinary Military; the middle ring is Trinary Sanctuary Oasis; and the outside ring is Trinary Outlanders. The Outlanders have a tall ice plow edge to them. That prevents the glaciers from pushing the building; the ice will ride up over the edge, turning back on itself.

The Trinary Military is the only one allowed to have weapons in this Society. Trinary Militia do not have access to any weapons, if they need one, they will call the Trinary Military to manage that situation. The Trinary Militia is the workforce for the entire facility, and it is the job of the Trinary Military to protect Trinary Sanctuary. And they also have an Engineering team. To make sure that the Military facility has all the resources it needs to operate for free, for life. Trinary Sanctuary is a closed community that is self-governed; it regulates its self to be optimized.

Trinary Sanctuary Oasis and Trinary Outlanders are where the Governments can build new cities; around the entire facility. It must have the same type of construction to be compatible with their transportation systems.

The Governments Military decides who lives there, based on what skills they must have to survive in this type of environment. And not according to how much money they have. Since we do not require money to live there, it became more important to allow only people that you need to survive an Ice Age. These people are 18 years old, or younger; this is because they are our future, and military recruits must be as young as possible because they are easier to train. You cannot allow Money because it can corrupt people, same with Laws and Religion.

Oasis is a closed Society, so using money does not work the same way as it did in Mainstream Societies. Because everything here is free, Housing, Energy, Food, Water, Air, and other supplies needed to have a comfortable living. That allows people to use money differently. Instead of using it to make a living, they use it to have fun. But there are cities connected to Oasis, and outside the Trinary Sanctuary Rings; where Governments still control people using a Credit System. Those inside Trinary Sanctuary just call them "Outlanders." They still make sure those Outlanders get Food, Water, Air, Energy, Medical, and basic supplies, making sure we have lower crime rates; which is the Trinary concept, crime-free.

Trinary Sanctuary Oases are where non-military personnel can dwell, and there are no age restrictions. They can interact with the outside, and with the Outlanders. But after the pole reversal or End of Time. They will have to, except not having any outside connections to areas that are entirely ice-covered. Those people may not have survived this event, as all underground bunkers or cities suffer from compression by gravity during this event. Thus, only those living in Trinary Sanctuary, its Oases, and in Outlander cities connected to it will exist after the pole reversal. And why everyone supports the project.

Trinary Sanctuary Oases are where all the Rich people will live. Those in the Federal Reserve will want to have an office here. That makes sure that they continue to get paid after the pole reversal or the End of Time; and have a safe place to live. That is where you can use money, as well as Laws. You cannot allow Religion here,

because the foundation of Religion is that they take an Oath to Murder people that do not believe as they do, proving it is a cult.

Oases translate to Owe. Thus, all that live here, we owe a way to live and survive the End of Time. It is the job of Trinary Sanctuary to supply a safe and fun environment. Supplying everything, people need to have a good life.

The Trinary Military is in Control; they are the only ones that can make a law and enforce that Law. The Government's Military, and Militia will integrate into the Trinary Military after the pole reversal; because the facility will be in survival mode.

The Military tasked Trinary Military to control the entire facility. Trinary Military controls the outer Rings by Law, but not Trinary Sanctuary Pyramid; they do not allow Laws, Money, or Religion. Trinary Militia is in control, but the Military trained them to go above the Law by being self-regulated. The Trinary Sanctuary facility is based on Freedom; there are no prisons or prisoners; instead, you can banish people. But you cannot allow Trinary Sanctuary to punish people. The concept of Trinary Sanctuary is that they allow only Trinary-trained people to live there.

Trinary personnel must do their duty to the best of their ability. And they must become medical technicians; there will not be Doctors or Nurses. Instead, the new medical system will be based on a medical room, instead of a waiting room. If anyone wants to be seen for any medical issues, which includes mental health, or any emergency, you take them directly to a medical room. In the Trinary

Military Ring, this is where all the Medical Technicians are. And railways lead directly to these rooms, making it the fastest way to get medical help. These rooms allow treating people without having to move to different rooms, and we have no waiting rooms, except for special machines, like X-rays. We schedule those rooms to minimize waiting times; and get people the help they need as fast as possible.

Trinary Sanctuary will not force vaccination and will probably not use most vaccines or medicines on the market now. The Trinary Medical System is based on personnel having specialties, as well as triage, and advanced life support. They are all Technicians and all of them work for Trinary Military, and therefore, have a rank that shows how proficient they are at their job. Trinary Medical Technicians will also have a category, like the ones we use now, to describe their specialty.

There are categories of training that will be required for Trinary Sanctuary. Medical training will only use 33% of what they use now. They will have a newer approach to medical needs using technology that Trinary engineers have designed; to make medical procedures easier and safer; and all for Free. We can send anyone to this facility, which can be anyone in the World.

Once online, this facility will be open to anyone in the world. The concept of Trinary Science is to only include things you can prove; and do not allow theories, only facts. That means Trinary Sanctuary must approve all vaccines and medications, as well as all medical procedures. The responsibility for proof is always in the writer's hands.

Trinary Sanctuary is a Pyramid. The concept is to build Pods where people live, work, and call home. A pod is a one thousand feet square block. You can stack the Pods 16 high, which are 16,000 feet tall and wide, or wider to make the slope less steep.

You build train tunnels and elevator shafts that all interconnect. These are 64 feet in diameter, and have 32, 16, and 9 feet tunnels for trains, in each. You have 10 foot tunnels for Power, Water, and two for Air. We build the floors inside a sphere. The illustrations below show the concept of pods.

Inner structure of a Pod. 33 to 66 floors in a residential pod.

Inner pod.

This makes up the inner pod system. The inner and the outer pod are required so you can maintain the inner pod, so you can deal with flooding and other accidents. This is a safety zone so you do not crush.

Outer pod. Post-tension concrete. Post-tension plates.

The post-tension is required for stacking. We cover this structure with up to 100 feet of concrete.

You design the Floors to be level-able. This system uses a hydraulic system to tilt the floors to level them. Floors may not be level after a major Earthquake. There must be a way to level all floors. Each color or shade represents a floor independently leveled.

And after a major Earthquake you level each floor one at a time. You can level on the X, and Y axis on the outside leveling ring.

Red Post around leveling ring level on X and Y.

We designed the plumbing and electrical to level with floors. The system of flexible couplers acts as a dampener in the event of an Earthquake. Note that you independently level the 8 sections. The image shows the left and right sections being leveled. Levelers are 32 feet tall; floors can be 10, 16 or 32 feet tall. The front section connects to the elevator ring. We can level the Floors at the outer adjustor ring, and at the elevator hub ring.

This is just one concept I came up with as a teen. I have thought about this for a long time. I divided each floor into 8 pie-shaped regions. The ring is a cross-section of the two spheres. Every floor has access to that safety zone. You can walk around the ring and inspect it.

Trinary Sanctuary

**Each Pod is just a Step
Airport
and
Space Station**

Trinary Sanctuary.

Trinary Sanctuary is a Country, self-sufficient; we design it to be an airport and space port.

How to get started with Trinary Sanctuary is a hard question to answer, but it starts when enough people decide they want to live. Opposed to being on the Surface of the Planet, when the Decay rate hits 0. That is when we all find out what is really going to happen; and that comes down to whose Science you want to believe in.

We have the science of Kepler, Newton, and Tesla. I will call this the Newtonian Universe; this is the foundation for Trinary Universe. The other science is Einstein's theory. He denounced all his theories while Tesla was alive just so he would stop laughing every time someone asked him what he thought about Einstein's Theory.

Einstein's science is for people who believe they are Intelligent by saying "I understand", next to "I swear this is the Truth and nothing but the Truth so help me God." The famous last words list wins more Darwin Awards. Thomas Alva Edison was a Criminal, and his Money is the only thing that kept him out of Prison. The buying and selling of Souls started here with Satan and his buddy John Pierpont Morgan, who was also Satan; who wanted everyone to buy and sell Souls. That is why we are all Satanic.

The concept of Trinary Sanctuary does not allow Money or any form of barter or trade. This is how the United States lost its Constitution, because it is treason. This is not Communism; not that this world has seen a true Communist country in over 3,000 years. Sanctuary is a Free Society; there is no need for money since money is just legalized slavery; and the number one reason for all crimes. Since there are no laws, money is incompatible with this type of society.

We train Trinary Militia to do a job, and everyone gets trained to do a job. If they get bored, or want another

job, they can train for that job. We must fill all jobs, so some jobs are not in as much demand as others; training is the biggest job for the Militia.

Trinary Sanctuary has a Plan; it is not everyone for themselves, and it is not mob ruled. It has no leaders, just jobs to do, and it is based on everyone being lazy. So most jobs are in high tech, building robots, and equipment that builds the Pyramids. Building the pyramids from the solid rock, up. Any soil will have to be removed, you cannot build on sand, or any type of soil that will erode in time.

Once you have your foundation, you build a roof; you can start anywhere and everywhere simultaneously. You raise the roof as you build, and you are building corridors linking to large spherical shaped rooms you level if needed. Think of this like a submarine, you do not want water getting into it. You fill the structure solid with a special type of concrete. Trinary concept is that once building begins, finishing, is the only time you stop. Because you want to pour the concrete so it does not form a seam. That happens when you layer concrete on top of concrete that has dried. You must schedule things to meet the demand of one long seamless pour.

The top section with the roof is always being lifted above the pyramid as it rises in height. It has to manage all the water from rain or snow, as well as protect the concrete being poured. We automate the system with Robotics. We will pour concrete using 3D printing technology, to ensure a seamless pour. Robots do most of the work; they operate remotely and automated. That process is used to build tall smokestacks, like the ones for nuclear power plants; use a seamless pour technique. The difference here is that you have to build your levels out as the concrete is being poured; it is like building a submarine as it is sinking in concrete. This requires all resources to be available.

The pyramid will house all the people, animals. As well as providing room for growing food, manufacturing products it needs, and other special rooms.

The Reality of building and living in Trinary Sanctuary is hard for most people to imagine, so I will try to explain things. I need to convey every aspect of living in a Spacecraft, because that is what you are building. We design it to exist in a Vacuum, or underwater. And in a worst-case scenario, if the world goes Nova and breaks up into pieces; and it throws the facility into space, this becomes an Ark. It has to survive going underwater, frozen solid in a block of ice for thousands of years. So this Reality is like Science Fiction, yet it is all based on things we can build now; only built in a way that most people will not understand at first. Because the requirements to build a Spacecraft are very high tech, yet we build it like a submarine; because it might have to act like one someday.

The outside is solid steel, and its insides are solid steel frames. We filled all the space outside with some type of Concrete, that will last for thousands of years. It has access tubes that create tunnels for high-speed shuttles, that move people and cargo around the Pyramid. They lead to large Spheres that house all the unique areas of Trinary Sanctuary. You can have living Spheres, Agricultural Spheres, Industrial Spheres, Medical Spheres and so on. It delivers all Air, Water, Food, and Supplies through these access tubes, so when you order something on the internet, they deliver it in minutes if it is in stock.

We built trinary Sanctuary with everyone in mind, and children are the first consideration; because the children of today will be the members growing up in the environment that was built for them. There is always something to do, but no bars, no alcoholics, and no drug addicts. You can not be Free and an addict at the same time. You can use

cannabis, this drug is the only recreational drug allowed, but we do not allow it to be used daily unless we use the cannabis for medical conditions. Whereas there is no medical purpose for alcohol except to clean a wound, and I would not even suggest it then, Iodine is much better. But we restrict the use of other drugs. Remember, we have no laws, but the use of some drugs like Opium and Cocaine, can lead to addiction and abuse; but it has medical use. We permit the Monitoring of the use of these drugs for medical use. Other restricted drugs, like Magic Mushrooms, Peyote, and LSD, as well as others not listed; have age limits set on them, and we do not allow recreational drugs to be used while on duty.

The concept is that Sanctuary is not your babysitter; keeping the children out of the drugs is a full-time job, but in Sanctuary it is our job. We do not want our children to be raised by Drug addicts.

The facts are that Alcohol is by far the worst of all drugs. To create a society that can flourish, you cannot allow Drugs to degrade the Members, and drugs degrade anyone that uses them. Occasional drinking of less than 1 ounce a day may not be a problem for everyone, but it can become an addiction; and so can Cannabis. On duty, it must be out of your system, and in public, the same goes; you cannot allow under the influence in public. There are always going to be Events where you allow this behavior; Concerts, Sporting Events, Movies, and other forms of entertainment. But there are also people who do not believe in any substance use; not me, but I am not everyone. But Trinary Sanctuary is, and if you allow Alcohol or Drugs into Trinary Sanctuary; it will fail, the current Societies prove this. We must have Standards of Conduct that do not allow anyone the Right to offend others in Public. So events that allow substance use must be private.

The standards for public use are always no substance use; but what is private makes it permissible. And everyone is happy, it is the Reality of trying to please everyone; while making sure that everyone is behaving like an Advanced Society should.

To Survive an Ice Age, you need Shelter, not only for People, but for Plants, Animals, Insects, and other lifeforms. If some of these die, we all die. Outside will not be livable for years. No one can calculate how long an Ice Age will last; history teaches us it is never the same. So there is no way to predict it. If you are going to build Pyramids, you better start today, tomorrow may be too late.

You make it fully robotic, so humans never have to go out in the cold to work on it, unless a Robot breaks down and they have to fix it. These types of shelters are very technical to build. The concept is you automate this with robots, controlled by humans remotely. For security, it can use hard lines, with spoof proof internal IP addresses. There will be IP equipment like this everywhere, Video Cameras, Computer Terminals, Transports, and the list goes on. This place has to be hacker-proof, so we do not attach our Internal Network to the Internet. That is a totally separate network, to the Internet we look like a TOR Network. Trinary Sanctuary has a way to communicate with the outside; and they have a way to communicate with us, but if we are to survive, we must build Shelters we can survive in.

There will always be People who think they can come up with a better form of Government. Trinary Sanctuary is not about forming a better Government. It is not about the government; it is about Freedom, and that means Free of Government, and Free of people that want to push for more control on its People.

A Contract is an agreement which two parties make to each other, and it is what every Government in the World will want to read. The Governments of the World that allow the existence of Trinary Sanctuary on their Land; can make a formal Legally binding agreement between all the Members of Trinary Sanctuary. Once made, the Government can not revoke this Contract. It is an Irrevocable Contract; based on a simple Doctrine that will define all the Services that Trinary Sanctuary will provide to that Government. This Contract must be the same for all Governments; we can make no special request for additional Services. If that Government gets taken over Legally by a new Government, the gaining Government inherits this Contract and does not have the option to alter it. Sanctuary will not interfere in the affairs of any Legal Government in the World, and will support whatever Legal Government is in power.

That Word or Spell of Legal is a key point to make, the illegal takeover of a Government is an issue that must be addressed outside of Sanctuary. Because Sanctuary can never take sides to determine what is Legal. This is to ensure good standing with all Governments and the World Court. Sanctuary acknowledges the World Court as a resource for settling all disputes between Nations. And will use them to settle all disputes between Sanctuary and other Nations. Even though these Nations can not impose their Laws, Rules or Regulations on Sanctuary; Sanctuary still has No Rights, so Sanctuary must not do things that affect the people of other Governments. Sanctuary must be a Role Model for all Governments, and Sanctuary must do what is best for the Planet and all life on the Planet.

We should not allow Crime to become a way of Life in any Society. Laws make things Crimes and Trinary Sanctuary has no Laws of its own, because no one will

ever agree on what Laws should be Laws. And what Crimes we should consider a Crime. Having no Laws does not mean we have no Crime, so the Laws of the World may still apply; but if they are, we do not handle them the same way in a Lawless Society. The Lack of Laws does not make this form of Government an Anarchy. Even though it has no Laws to uphold, Sanctuary must go beyond Laws, and that starts by having no Laws of its own and not worrying about the Laws of others.

A Society that does nothing but create new Laws, will not last very long, because for every Law it passes, people become more distant from that Government. Because no two people can agree on what Laws should be. They ignore the Laws they do not agree with, so enforcing these Laws becomes a full-time Job; and Sanctuary has enough to do without having to enforce Laws. But that will not stop Crimes from being committed, and everyone knows what a Crime is; it is when someone does something that is unforgivable. Crimes defined like that can mean anything, so we must be real clear about what a Crime is. Since Sanctuary has no Prisons, or any form of Punishment other than Banishment and Execution; so dealing with any Crimes becomes a Situation that everyone has to deal with. Not just the person who committed the Crime, because Crimes affect everyone differently. What one person would consider a crime; another would consider a Hobby.

The Purpose of Banishment, Execution or Forgiveness to deter Crime is simple; Sanctuary can not have Members that commit Crimes. No Society can, and just because a Crime could allow Banishment or Execution does not mean it will. It means it is the only form of Punishment that is permitted for Crimes. Because Sanctuary is not about Punishing people for their Mistakes, Trinary Sanctuary is not an Eye for an Eye Justice

Revenge System. If the Crime was a Mistake, then it is up to the Sanctuarians to forgive them of this Mistake.

Forgiveness is always an Option, and it has to be for many reasons. We are our own Judge and Jury and must forgive ourselves first. It also means we must stop making the same mistake over and over, because forgiveness only goes so far; and repeat offenders make it obvious that they will continue to behave this way. So all Crimes that are forgiven must have some consequence; we document it and special training is required. This training must educate the person as to the reason this action is a Crime. Never assume that a person knows it is a Crime; some people do not really know the difference between Right or Wrong. The idea of it being a crime may be something they do not understand. It is also possible that this type of person will continue to do what others may think is criminal behavior; is actually a concept that this person is incapable of understanding. The crimes they commit should determine what actions are required. For example: we train everyone not to Rape, Molest or Abuse another individual; but someone that can not determine Right from Wrong can not use their condition as an excuse to commit such a Crime against someone. Because this was something that was required never to do regardless of if they can understand the reason behind it or not.

Training is the key to preventing Crimes, so we do not use Training as Punishment, because it is not. People who have bad tempers or meltdowns should not be in situations that can trigger such attacks; and all that come into contact with people like this should know of it. That may mean that some people need to be tagged in a way to alert people; that this person can have uncontrollable reactions to certain types of problems they encounter. I am one of those people; I have PTSD, Aspie Meltdowns, and a

bad Temper. Training is mandatory for all Members, because there are many people like me, are more common than most think. Everyone should wear identification tags that also have visual indicators as to certain types of issues; like Post Traumatic Stress Disorder (PTSD), Autistic Meltdowns, Diabetes, Epilepsy or other conditions; that require special treatment. These types of people may not be accountable for attacks, but it does not make it right to put them into situations that can trigger one.

Training is very important for everyone to do their duty, which is to ensure the safety of all its Members. And in these situations, Forgiveness is the only option. If we Banish or Execute People for Medical Conditions, we commit a Crime against Trinary Sanctuary. Sanctuary does not have Disabled Members. Everyone has a Job, which means everyone needs to find a Job that they can do well giving their Limitations. We all have our working Limitations, and Sanctuary will have so many jobs that there will never be a person who is out of work; or is doing work that they can not handle. Sanctuary is not a Work Camp; we give every member the same time off. We schedule working hours so that even in times of Emergency, Sanctuary can survive whatever happens. To do that, we need People, so the Eye for and Eye Revenge system of Government will not work here. We need to forgive and move on, learn from our mistakes, and not make the same ones over; so Forgiveness always needs to be option number one.

The Lifestyle of Sanctuary is what everyone makes it. I have no clue what that will be, nor does anyone; because Lifestyles do not work that way. Styles may come and go, but Lifestyles are something that has to be lived in order for them to change; and Sanctuary changes to fit those needs.

Lifestyle changes are something that Sanctuary must plan for, and must not adopt from Members; or allow its members to force on the Sanctuary. Because values and honor are all Sanctuary cares about, without these; Lifestyles will become what people make of them, and that may be good or bad. Live or Evil is not just a term that describes a Lifestyle. Live means Life, Evil means death; and the people in Sanctuary will do both. When something Evil happens, it is not about Demons, but Death. Evil ways are those that will kill you, and not scare you to death. Lifestyles are how we live our lives, and in Sanctuary, that should always be in the Light of God.

Trinary Sanctuary does not enforce a Lifestyle, its Members will actually create it; but to adopt a Lifestyle, all its members must agree that this Lifestyle is something they want. For example, all people nowadays have a Lifestyle. Most are based on Religion and Money, that type of Lifestyle cannot convert to a Lifestyle in Sanctuary. Instead, its Members will have to find a New Lifestyle just for Sanctuary; so we do not have Members that want to Keep their Old Ways. We do not allow Parents to raise their Children the same way they were; this is very Important, because Sanctuary is cannot Survive that. If People create Groups and Classes, then lifestyles will end up like it is now. People will not get along together, because their Lifestyles are incompatible. That is the reason Trinary Sanctuary must make it a Requirement to encourage the proper Lifestyle, but not enforce one.

Trinary Sanctuary allows everyone to make of it what they want, instead of what it makes for everyone; choice is a freedom, and freedom must be free.

End of Time

The Torah that they wrote during the 3rd century had Alchemy; we know it as Science. It had other concepts that the church said were Pagan beliefs, and why they removed Alchemy, Astronomy, and Astrology from the Torah in the 4th century. This information was invaluable to figuring out science, and the End of Time, but the Church only cared about Money; and now humans will go extinct because of this. That is why the Torah says Money is the root of all that is Evil. Meaning things that will kill you.

If you are the Church, or go to Church, you must change your ways, you must make sure the Church changes to Trinary or Trinity Science. Trinary is more logical, whereas Trinity would have to be redefined to mean Trinary; otherwise, the two terms are interchangeable. I never wanted to change the Torah, but until the Church stops teaching Jesus Christ, I have no choice as the chosen one; I must ensure the truth is being told.

The End of Time has three events in time. 2012 is when the clock started ticking, and we know the north magnetic pole is moving towards the Equator. That proves the Torah's time frame is correct for the first event. The second event is when the north magnetic pole makes it to the equator in 2061. That is when the physical poles reverse. The Magnetic Poles do not reverse until 2103. They just keep moving in the same direction. It is the core that is changing, and not the surface; that takes longer. The magnetic poles will reverse in 2103 at the pace they are currently moving; so the Torah's timeline looks to be on time. The third event is in 2103, when we complete the physical pole reversals, as well as the magnetic poles. I have no reason to doubt the timeline in the Torah.

The dangerous part is when the Magnetic poles and physical poles cross at the equator. That is when our magnetosphere reverses its polarity. That is the basic physics of the magnetosphere; the two north poles cannot occupy the same area. The magnetic pole will force the physical pole to move, and God couples our Magnetosphere to this event according to the Torah. That means our Magnetosphere will not take time to reverse; it is counting down to 0, when it hits it, they reverse. Do not confuse the Magnetosphere and poles. The geomagnetic change will take place slowly, taking centuries to complete. That means the danger zone is when the Magnetosphere hits 0; this is the point the Torah says our Atmosphere will vent. And it has been right so far, so I am sure this event will happen the way the Torah said it will.

The End of Time is about what happens when the magnetic energy that is decaying at a constant rate of around 5% per century for the last two thousand years; hits 0. Nothing else matters, we know the pole reversals take so much time, and I calculated that for you, so you know, these numbers, and math, are correct.

If anyone wants to argue this point, they do not believe in the Torah, which is right so far. People have no reason to not believe them, other than Religion or Einstein's theory; which are both lies.

If I had the resources to build a lab and physical model of the planet with working magnetics, so we could see what happens, then people would listen. I would have to use one magnet, because I believe the Trinary Engine is our Magnetic poles.

The only issue I have with the Torah and Tesla is that I believe it is the Core of the Trinary Engine that is moving, and that the physical poles are geomagnetic poles. If this is true, then the magnetic poles are the Trinary

Engine. That means the geomagnetic poles will take centuries to change; this is all the iron on the planet.

This does not change things I have said; it only clarifies the changes that will happen. I tried not to change Newtonian Science, nor the work of Kepler, Newton, or Tesla; yet, I have my own Trinary Engines; I found in the Torah as Angels. These change the Science of Newton, Halley, and Tesla, as well as mainstream science.

That means this concept is a radical change to science; because it means we do not connect our physical poles to the core of the planet, and that moves independently from the surface. That means our Surface has nothing stabilizing it. We are floating on top of a layer of oil; which fools are pumping out of the Ground, calling it Fossil Fuel. This means that one day they will cause an imbalance and the surface will shift; possibly causing a Nova. I have no reason to change what I have said. I only want to add this as a side note in case the surface realigns with the new magnetic poles; that would be tectonic crust displacement. I do not believe in tectonic crust displacement. But I have tried to make all my science I wrote in this book to go with the theory of a Trinary Engine, but it adds a theory, and I only wanted to use facts.

I cannot see our core, and drilling holes in it does not change that fact. It is crazy, if we hit the water oil separator boundary that is deep in our crust, we can cause the planet to go nova. This might happen anyway, because the damage they did by drilling for oil is done. So the planet will go Nova unless they stop soon, but we know they will not because of Money, it is more important than going Nova; they would rather die rich; proof of the End of Time.

The difference between the Torah, Tesla and my theory is that they said the core moves with the planet,

while I am saying the Magnetic poles are the Core. That means the physical poles are the Crust.

The pole reversal will happen 14 January 2061 at 18:32 hour's military time, Pacific Standard Time. The End of Time is in 2012, 2061 and 2103. It is not one time, but three. Depending on the severity of the last two events, will dictate if anyone can survive it. 2061 is when our North Magnetic pole causes the Magnetosphere to reverse polarity. Which since 2012, the poles have been heading towards the Equator, and will complete its reversal; once it gets there in 2103. Where the North magnetic pole will stay for another 220,000 years.

The Atmosphere will vent; we can calculate when, and for how long using this Trinary Math:

$$1/137 = 0.0072992700729$$

$$\text{Sun Size} = 864,575.9$$

$$(864,575.9 \times [(1/137)/3]) = 2103.6 - 42 = 2061.6 \text{ Years.}$$

You take the size of our Sun, and this number is very important; this is the average size, at the center, and is a constant; our Sun does not change sizes for a millennium; so it was about the same size as Newton, as it will be in 2103. We take $1/137$, which is the shortest distance between the receptor of a Trinary Atom or Trinary Engine. And the time it will take to rebuild its magnetic field we call the Magnetosphere. We must divide this by the 3 valance rings and multiply that by the size of our Sun. You have 3 sets of 3 rings, around a Trinary Engine, for 9 rings; but the multipliers are the same for the other sets. You must minus 42 years; the Torah said 66 years is a hex, which means 42 years. That equals 2061.6 years; they accounted for the .6 of a year when they reset the calendar to 0.

If we take the size of Earth, which is around 7926.2109 on average at the center.

$$7926.2109 \times [(1/137)/9] = 6.42 \approx 6.66 \text{ Minutes}$$

42 is a Hex, so it is 66.

Now we know the Trinary Math behind the Pole reversal; we know when and how long; now we need to know what will happen during that time.

In 2061, when the countdown hits 0 and the Poles Reverse, we lose our gravity. Because we lose God's force of Gravity; which is our Magnetosphere. Our Atmosphere venting will cause it to freeze. No magnetosphere will push the space debris and satellites; out into open space; then it will pull them down with negative gravity. That will cause it to rain down on Earth, all the stuff around our planet, or space debris. Plus, any asteroids that come close enough, not to mention all the micrometeorites. That creates a shock wave, crushing all the buildings, collapsing all the underground bunkers and cities. That happens because the G-force changes from positive to negative, and back.

The way the people viewed the Sun as working was that it had a Nuclear-Core, with a decay rate that defies the laws of Physics; based on Einstein's denounced Theory. Which has no Light in it; because he removed God, which was Light. Making $E = MC^2$ sound stupid because C is the Constant for the Light he removed, the reason it seems to work is Newton's math $E = MA^2$. Einstein's Theory led people to believe the Sun takes around 11 years to reverse its polarity. When it reverses every 10 years and takes up to a year to reach the surface. That means that Mainstream Fools will believe that we do not need our Magnetosphere while it is reversing. Basing our Reversal on how the Sun works; according to a theory. So, if that does not sound irrational to you, then maybe you need to read Newton.

Mainstream Science is the reason no one is building anything that can survive what is going to happen. Thus, the reason humans are going to go extinct in 2061; the year the countdown hits 0 and our Magnetosphere collapses.

And we find out if the Torah, Kepler, Newton, Tesla, and I are right about this instant Ice Age. But we will find out if people can survive this in 2103.

Halley told Newton that they reset the Calendar to 0 when they noticed the decay in the magnetic strength. This information comes from ship logs around the world. And NASA concluded after a 100-year study that our magnetic strength is decaying at a constant rate of around 5% per century. Which has been going on for 20 centuries. Proving we are now at the End of that Time. It will take $1/137^{\text{th}}$ the diameter of Earth, or 6.66 minutes for our Magnetosphere to switch from positive to negative, till then; no Gravity while venting into the Atmosphere.

The pole reversal will cause the Earth's axis to realign. Depending on how far the Earth must move to correct its balance; will determine the size of the Tsunamis. We can expect it to hit both shores. Mixing streams, rivers, lakes, seas, and oceans. Lowers the salinity of the water, allowing it to freeze over in only 6 days after the event. That will create an instant Ice Age that will last around a Millennium. Based on geological evidence from the last Pole Reversal, about 220,000 years ago.

The Gravity shift will destroy underground Bunkers and Cities. I expect gravity will shift from a positive 1 to a negative 1, then back to a positive 1, all in 6.66 minutes. That will cause our Axis to realign. And we can expect an Earthquake worldwide with a magnitude of 9.99, for about 9.99 minutes. The surface of the planet might rise as high as 6.66 feet before it collapses when Gravity comes back. That will push all the Atmosphere out into space, to freeze, and come crashing down with all the space debris and satellites. That will cause a shock wave. Which will cause underground rolling motions. Which will cause the surface

of the planet to buckle and create a new surface over the entire surface of the Planet; rearranging mountains.

After the restoration of Gravity, and the Earthquake subsides, the Earth will have little to no ozone. So, you will freeze, and burn at the same time on the surface, for years to come, making the surface uninhabitable. If you do not build something fast that can survive the coming Ice Age, humans will go extinct.

Stage 1

There are 3 stages. In Stage 1, in 2012, our North magnetic pole heads to the equator, getting there in 2061. I show Earth's Physical and Magnetic poles.

Stage 2,

Stage 2, in 2061, this is half of the magnetic pole reversal. According to the Torah and Sir Isaac Newton; this will be the year it vents our Atmosphere, causing an instant Ice Age. Our physical poles will then reverse polarity, finishing in 2103. Although this takes a long time to reverse, our magnetosphere will reach 0 this year, and vent. I show the Magnetic changes take place as it passes through 0 or the equator. Earth will take time to change its polarity, I

have no clue how long the process will take; but the major changes will take place as the magnetic pole finishes its rotation. The closer the north magnetic pole gets to the north physical pole, the more it will push, driving the physical pole to reverse; as the two north poles cannot be together. Basic magnetic principles of like poles repulse, and opposite poles attract.

Stage 3, physical poles align.

In the last stage 3, in 2103, the magnetic poles complete the magnetic pole reversal. And the physical poles will finish reversing at nearly the same time.

Earth's layers.

Earth's layers start at the center. I am guessing at the dimensions; you have a Trinary Engine that is 333 miles in diameter. The next layer out is the Magma; it is over 100 miles thick. Then the oil is over 200 miles thick. Then the water layer extends to the Shell. Do not confuse the water layer with the water table. Then we have the Shell, it is 800 miles in diameter, and we cannot drill

through it, but this has not stopped us from trying. China is currently digging into China. What? But Russia gave up. The last layer is the crust, and it floats on top of the Shell.

There are holes in the shell; this is how excess water, oil, and gasses like Oxygen make it to the surface. That is also how new material makes it to the magma section, and that is how it moves to the surface. These holes are called passages.

If you drill into the Shell, and if they do not connect it to the surface, you will break the drill, but not before damaging Earth, and you could cause the crust to move; and that would be bad.

The way people are treating this planet, we will not have to worry about the End of Time; the Planet will go Nova; just save itself from the destruction of humans who only care about Money. People will not build Trinary Sanctuary because they cannot imagine working for free. So they will teach everyone lies; so they will not teach the truth, which is what I call the Torah; Kepler, Newton, Tesla, and Levitt. What Mainstream teaches is that the Federal Reserve prints the money, not Congress, so there is no truth being taught in the world I live in. Because that is Treason, and I took an Oath to defend the Constitution. It is the Treason that allows pollution; because it is cheaper.

When everyone is Satanic; meaning they buy and sell Souls by the Kilowatt. You know the End of Time is near. I proved it started in 2012; only fools were too busy making money to think about the north magnetic pole moving. They did not make the connection. The End of Time was about people trying to survive it, but people did not care, or they would not allow Treason. People will make up all kinds of excuses for being Satanic. They are like alcoholics; it is a twelve-step programming in denying you are an alcoholic. People that say they are not Satanic,

knowing how I defined it in this book, are Satanic deniers. I am Satanic because of the same reasons everyone is, the buying and selling of Souls.

Only Satan has no Soul, and if you do not know what a Soul is, you are Satan. Only Satan can deny our Soul is our brainwave, I know all Souls are brainwaves, even insects; you remove it; you remove God; because God is that thing inside us, keeping us alive, and it is a waveform, and we know it as electricity; because the Torah and Bible said God is all Light without Darkness.

At the End of Time, this is when people should unite. But the last time we had two United Airlines disappear, never to be seen again, we know Satan is running this country; and Satan will never give up Power. I say we cut a deal with the Federal Reserve, let us build Trinary Sanctuary as a Military project. And allow us to pay off the National Debt by providing power, water, air, and supplies to said Military, who will use it to pay down the National Debt. That is the only way you will ever get people to take control of their lives, instead of what they are doing now, which is nothing.

The Torah talks about this event happening, and 2061 is when they say it will happen. That means it comes down to believing in the Torah. The Torah said that at the End of Time, everyone will be Satanic, and it was right, everyone on this planet buys and sells Souls by the kilowatt. The Torah said that Jesus would return 100 years before, that means the person Jesus was born into will be born on 14 January 1961, which is my Birthday, and my name is Flesh; and my mother's name was Mary. The Torah will be a lie if I do not play the part of Jesus Bar/Abbas, the leader of the Militia that defeated the Roman Empire for their use of Money and Taxation. I am Military and Militia, so I meet the requirements. It was my

job to tell the world that this event would happen, and the reason it would happen.

The Chosen One is the person who takes up the calling of the Torah. The Torah called for someone named Flesh, with a mother named Mary, who will be born one hundred years before the End of Time; to tell his story. This is just a self-fulfilling prophecy. For thousands of years, many mothers named their daughters Mary, hoping Jesus would come back in their Sons' Flesh. Maybe subconsciously or lazily, I dropped the ER from Flesher. And just maybe, it was a coincidence I was born at the exact date and time. But this is a lot of maybes and a lot of coincidences; and I never wanted to fulfill the prophecy. I was the Chosen One for a reason; ignore my warnings, and you will find out why, because I know my facts are right.

The Government and Church will call books like this a conspiracy theory; this is how they discredit anyone that opposes them. In the case with this book, I do not see this happening, because I only talk about stuff that I proved in this book; all you need is the knowledge. The stuff I said about the Government, might be things they do not want to admit to; but you can FOIA anything you do not believe; or want to confirm. The Church will just say interesting; not much more they can say. I did not make up anything. I had no reason to; the truth is strange enough. Do not trust the internet, or people, all they know is lies, and why the internet is a terrible place to look for the truth about anything. I have no clue as to the reason people lie about the subjects I talk about. Saying they are Satanic makes people think I am Religious, yet the Torah is not Religion, and they did not write it for the Church, they stole it, then altered it; and now want you to believe God does not physically exist; as if adding physical changes God's

existence, because God is everything, because Light is everything. Tesla.

If you believe in the End of Time, come down to if you believe in the Torah, Kepler, Newton, Tesla, and myself, since I am writing this book, and believe it; and I want you to believe it as well.

No one will know what will happen until after it happens. All I can do is show you the science behind it; and allow you to decide. The Universe does not care if humans go extinct; the Universe is better off without them, all they do is pollute, destroy, and Buy & Sell Souls like Satan. If God had judged us, we would have been extinct thousands of years ago. But God does not judge us, not even after we die; that is what Religion is about. The Church gets gullible people addicted to Religion, because it is a mind-altering drug. There is never any judgment going on; what we be the point. Humans do not believe in God; they believe in a Deity God, and that is not the same as the God in the Torah, who is all Light without Darkness.

The only way things will change is if everyone changes. The Military is allowing Treason; only those on active duty in the military can change that. Only people can change the way the world is.

I believe in Newtonian science, as well as my own; that will prove what will happen when our Planet reverses polarity. Regardless of what people think about my evidence, or explanations; time will not be on our side if we decide to do nothing until the last minute. You can prove my Science; like most things that are science theories or facts, they have to be provable.

If everyone ignores this warning, because they do not believe it, and are too lazy to prove it. When the Atmosphere vents and you do not build to survive such an

event, you will know too late; that the Universe does not care about what you believe; it only cares about the truth.

I had a dream that turned into a nightmare. It was 14 January 2061, my 100th birthday; I was getting ready to talk in front of some people, and a microphone and video recorder were running. Next thing I knew, it was daytime, and I was standing outside alone. Looking around me, I thought I was in the desert. I heard a noise; it was the sound of a tsunami, and it was heading towards me. For a second, I stopped to understand what was happening; before I turned to run away from it and saw a pyramid. I ran towards it, opened the door, and then a long line of people ran inside. And I was stuck holding the door open. After my family passed by, I closed the door; and I was alone again.

I saw a wall of water a thousand feet tall in front of me, and an octopus grabbed me, and I was sitting on a dolphin, and now we were running away from Trinary Sanctuary. We swam for hours, and then came to a vent at the bottom of the ocean. I knew it was hot water, but the water pressure should compress me at these depths. I am a certified Scuba diver. So clearly, this must be a dream, or I am having a schizophrenic attack; and have no clue.

The vent led deep into Earth; this is where I saw all the layers of Earth. When we got to the water level, we stopped and went into a building.

I was told that my actions as the chosen one, who would play the role of Jesus at the End of Time, resulted in a few Trinary Sanctuaries around the World; saving countless lives. We would like to show you the world as it is now. We took a craft that could travel underwater, and fly in the sky, and into space and beyond, but today, it is flying around the world.

The Earth was a ball of ice, and glaciers were forming. There was no life on the surface. We flew over all

the Trinary Sanctuaries; they all had signs of life, and they could still build.

When I was very young when I started having these dreams, and I have been writing about them ever since. I have no clue what will happen. I can only tell you what the Torah says, and it is up to you to believe it or not.

The End of Time happens in 3 stages, and we are in stage 1; which the Torah predicted would happen in 2061; proving it is correct about the timeline, and I can prove what is going to happen by looking at the geomagnetic evidence; which shows no signs of tectonic displacement. That is the only hope that our Magnetosphere stays intact.

The evidence in history, prove this will be catastrophic. Look at Puma Punku, in Bolivia, South America. We believe these parts once made up a structure. We know there is a saltwater lake around 11,000 feet, this would seem to signal a tsunami. It appears this is proof that we had a pole reversal, and these stones are around 220,000 years old.

We should not have to guess at what might happen; I want science that can prove what will happen, and what happened in history.

I cannot trust the findings of others, because of their Science being based on Einstein's theories. That is denounce, and even if they were not, no one has proven them in over a century; proving they are false.

The data I use must prove one way or the other the truth about science based on facts. I use the Torah written before the 4th century, only for its border artwork. The Torah defines God as all Light without Darkness. We know exists inside atoms, and I proved this by finding all the definitions in every version of the Torah, or Bible, ever written, to my knowledge.

NASA confirmed Newton's calculation, concluding our magnetic strength is decaying at around 5% per century. The question everyone has is when did this decay begin, and Sir Isaac Newton calculated that to be 24 December 2060 under the Julian Calendar. They changed the Gregorian Calendar in his lifetime to 4 January, then they removed 10 days, making it the 14 of January, in 2061. This was based on Ship logs dating back centuries. Edmond Halley said the calendar changes many times in history and said history changes depending on who is in power; making history books worthless.

The great pyramid looked different in history, before Moses destroyed it for money. This is a power plant that makes electricity by converting seawater into oxygen and hydrogen. Currently, this is the only building that will

survive the End of Time; that and the other ancient stone structures around the globe.

I believe we can build a taller pyramid, by using steel and concrete. Trinary Sanctuary is what I call these pyramids. There is not enough money in the world to build one of them, so you will have to build them for free.

People need to do the magnet experiments to understand that this event will happen, and, at a specified time. We know that on 14 January 2012, the first stage of the End of Time started with our Magnetic poles realigning. This procedure for this realigning has 3 states, and in stage 2, which will be on 14 January 2061, when our north magnetic pole crosses the Equator. The 3rd stage of this procedure is on 14 January 2103, when the End of Time will be complete. You can try other models, but they must account for the history we know of.

People can say anything they want, Mainstream science is proof of this. Trinary Science is based on facts, but it has theory, because I cannot prove this science until after the event in 2061, and 2103.

I will be 100 years old on 14 January 2061, if I live that long. If the Torah is right, I will, but that is hard for me to believe because of my current health.

I have faith in the Torah, but not in mainstream science, when people mention Einstein, Quantum Mechanics, Black Hole, or mainstream, run! And never look back, these concepts are Satanic, meaning they are based on a theory never proven. The truth is what you prove, and not what people say, so prove it, and make others prove it; and only believe in what you can prove.
